

Programme Outcomes (POs)

&

Course Outcomes(COs)

Department of Management

1. [Master of Business Administration \(MBA\)](#)
2. [Master of Business Administration in business analytics \(MBA BA\)](#)
3. [Integrated course in Master of Business Administration \(MBA \(I\)\)](#)
4. [Bachelor of Administration \(BBA\)](#)
5. [Bachelor of Tourism \(BTM\)](#)

Department of Commerce

1. [BCom\(H\)](#)

Department of IT

1. [BCA](#)
2. [BSc](#)

Department of Law

1. [BA LLB](#)
2. [BCom LLB](#)
3. [BBA LLB](#)
4. [LLM](#)

MBA

PROGRAMME OUTCOMES	
PO 1	Apply knowledge of management theories and practices to solve business problems.
PO 2	Foster analytical and critical thinking abilities for decision-making.
PO 3	Demonstrate value-based and ethical leadership ability.
PO 4	Ability to understand and Analyzes business environment.
PO 5	Acquire and apply communication and technical skills.

Paper Code		CO's
MBA101		CO1 (A):Understand the concept of Management, its origin and managerial responsibilities.
		CO1 (B):Apply the functions of management and tools & techniques used to perform the managerial roles
		CO2:Analyze the planning process, its types and various decision making models.
		CO3:Evaluate the nature and types of organization structure, and the staffing process along with directing components involved.
		CO4:Create the environment of the organization and apply the control methods.
MBA102		CO1(A): Understand the basics & principles of economics elements in decision making.
		CO1(B): Imbibe the utility theories, demand, supply and elasticities for managerial decision making.
		CO2: Analyzing real world business problems of related to production with reference to different market structure.
		CO3: Applying the concept of pricing in different market structure to foster decision making.
		CO4: Evaluating and measuring concept of national income, GDP and profit theories to analyze real world business problems.

MBA103		CO1 (A):Acquaint with the fundamentals principles of management accounting.
		CO1 (B): Prepare. analyze and interpret financial statements
		CO2:Analyze typical business transactions to determine their effects on the principal elements of financial statements.
		CO3:Take decision using management accounting tools
		CO4:Understand the role of management accounts in planning control and decision making in an organization.
MBA104		CO-1(A): Understand the key terminologies, concepts, tools and techniques of statistics for decision making.
		CO-1(B). Analyze statistical data using measures of central tendency, dispersion, skewness and kurtosis.
		CO-2.Apply probability rules and probability distributions to model different types of business situations.
		CO-3.Use simple/multiple correlation and regression methods to Analyze the underlying relationships between the variables.
		CO-4.Conduct and interpret a variety of hypothesis tests to aid decision making in a business context.
MBA105		CO1(A): Understanding of business ethics and CSR concepts.
		CO1(B): Identify and Explain the factors influencing Ethical and CSR activities in business.
		CO2: Apply the knowledge and principles of Ethics and CSR in different functions of HR, Marketing, and Finance.
		CO3: Examine the best practices, code of conduct, and ethical dilemma in business and its decision making.
		CO4: Evaluate the various approaches of CSR and the role of business ethics in organization sustenance.
MBA106		CO 1 (A):Understand the core concepts of communication and will be in a position to overcome various barriers present in the process of communication.

		CO1(B):aim flare in written communication and analyze the inside out of presentations and interviews
		CO2: Demonstrate the skill of writing business reports and business letters
		CO3:Present the depth of oral communication skills and challenges and care in the body language.
		CO4:Examine the impact of group communication, and various professional etiquette related
MBA107		CO1(A):Understand the working of computer along with the types of Hardware and Software
		CO1(B)Create Word Document, editing, formatting and inserting table, citations, references and table of contents
		CO2:Create PowerPoint presentations, working with master slide and animations
		CO3:Create a workbook, enter data in a worksheet, format a worksheet, format numbers in a worksheet, create an Excel table, filter data by using an AutoFilter, Sort data by using an AutoFilter
		CO4:Print a worksheet, Using Print Preview; Other Utilities, Use Formulas like VLookup, HLookup, Count, Sum, Subtotal, Creating Formulas for Financial Applications, Create Charts and Graphics, Use Pivot Tables for Data
MBA201		CO1a-Understand the Various concept related to Marketing management and Marketing environment
		CO1b- - Illustrate the various concept related to marketing Segmentation, targeting and positioning
		CO2-Analyze the concept of Marketing mix and understand role of distribution channels in Marketing
		CO3-Comprehend the role of promotion mix in marketing.
		CO4-Evaluate and Identify the Various aspect of digital marketing and Retailing
MBA202		CO1a: Summarize concept of OB and perceptual process

		CO1b: Describe individual behaviour and demonstrate the applicability of motivational theories in OB.
		CO2:Analyze group dynamics in the organizations.
		CO3:Understanding power and politics in organizational setting.
		CO4: Illustrate change management and conflict to solve organizational issues
MBA203		CO1:Understand the concept, types & process of Research.
		CO2:Discuss & design research, literature, sampling and data.
		CO3:Apply tools, techniques/methods to test association of variables.
		CO4:Analyze the sample and their differences.
		CO5:Evaluate the results, interpret and present findings in research report.
MBA204		Understand the basic concepts and key terminologies in operation research techniques.
		CO1b: Apply decision criteria methods to the problems of various decision making situations.
		CO2: analyze the linear Programming, assignment, transportation, game theory and sequencing problems to reduced time and cost and maximized profit and sales
		CO3: Use statistical quality control methods to quantify and sketch variations in quality problems
		CO4:Knowledge about network techniques to complete the project at minimum time
MBA205		CO1A: Demonstrating an understanding of the overall role and importance of the finance function and,
		CO1B: Evaluating Projects based on Capital Budgeting Techniques
		CO2: Estimate the cost of capital of the firm and determine company's valuation
		CO3: Performing analytical reviews of leverage structure
		Apply decision making mechanism to declare dividends and managing optimum Working Capital

MBA206		CO1: a. Understand the various factors of the business environment and their interactions.
		CO1: b. Understand various laws affecting the working of business units.
		CO2: Describe policies of various national and international economic bodies/ regulators affecting business.
		CO3: Discuss the role and impact of MSME in business growth.
		CO4: Prepare project report on MSME and understand the applications of GST.
MBA207		CO1a: Understand the concept of HRM, its role and significance in the organization.
		CO1b: Develop an understanding of HRM systems and their implementation through Manpower planning
		CO2: Design and implement employees training & development programs and appraisal systems.
		CO3: Evaluate employee issues and relations.
		CO4: Create HR competencies for designing salary and compensation structure, and understand the new trends in HRM.
MBA301		CO1(A): Understand basic concepts of quality management
		CO1(B): To develop an understanding of basic tools for solving quality problems.
		CO2: To develop understanding of quality circle and other advanced tools for solving quality Problem.
		CO3: To understand behavioural aspects of quality management.
		CO4: To comprehend quality assurance implementation and contemporary issues in quality Management.
MBA302	MBAGE01	CO1a: Understand the general concepts of operations, product design, plant location, and Layout planning.
		CO1b: Understand and Analyze forecasting, work design and measurements.
		CO2: Analyze Capacity planning and Scheduling.
		CO3: Comprehend Aggregate Planning and Master Scheduling techniques

		CO4: Understand and apply Inventory management techniques and Just in Time production.
	MBAGE02	CO1 (a): Develop the skills and qualities required to be a successful entrepreneur
		CO1 (b): Understand the function of an entrepreneur and the challenges faced by them.
		CO2: Learn how to start an enterprise and design business plans.
		CO3: Analyze and compare the different funding agencies available for funding new enterprises.
		CO4: Analyze and compare the different entrepreneurial agencies available for the growth of entrepreneurship in India
	MBAGE03	CO1a: Understand the key concepts related to supply chain management and various flows.
		CO1b: Learn about network design and logistics management
		CO2: Demonstrate Predictable Variability, Purchasing and Vendor Management
		CO3: Understand and apply Inventory management techniques and Just in Time production.
		CO4: Discuss the role of IT and recent issues in SCM
	MBAGE04	CO1a: Understand the concept of financial econometrics, econometric Models and their estimation
		CO1b: Understand the concept of time series & implement various techniques for testing trends and unit root
		CO2: Comprehend the concept of regression analysis & identify various models of regression and appraise the use of these models
		CO3: understand the concept and assumptions of multiple regression and further interpret various multiple regression models
		CO4: Demonstrate the concepts of validation of regression models and forecasting techniques and further learn to develop research report
MBA303		CO1(A): Understand the concept and nature of Law of Contract.
		CO1(B): [REDACTED] [REDACTED]

MBA304 & MBA306		CO2: Study the provisions related to Consumer Protection Laws and Negotiable Instrument.
		CO3: Evaluate the rules related of Indian Company Law 2013
		CO4: Develop the concepts related to Intellectual Property Rights including patent, trademark and copyright.
	MBAMK01	CO1(A): Understand and evaluate consumer behavior.
		CO1(B): Acquire the knowledge of individual determinants of consumer behavior
		CO2: Understand the facets of group dynamics with reference to consumer behavior
		CO3: Comprehend the communication and consumer decision making process.
		CO4: Evaluate the various model of consumer behavior
	MBAFM01	CO1(A): Develop the basic understanding of the financial markets framework, functioning and regulations
		CO(B): Recognize the existence and functioning of Debt Market & Government Securities Market
		CO2: Examine the commodity and foreign exchange markets conceptually and analyze the investment avenues
		CO3: Demonstrate an awareness of the financial intermediaries and Credit Rating agencies and appraise their role in Financial system.
		CO4: Display understanding of Factoring, forfeiting, Leasing & Hire-Purchase Service and evaluate and create strategiesfor such services for the organizations.
	MBAHR01	CO1 (A): Understand the concept of HRD & its Interventions.
		CO1 (B): Identifying and designing training and career development.
		CO2: Demonstrate the application of Performance Management System.
		CO3: Evaluate HR processes.
		CO4: Develop the understanding of organizational development interventions and their applications.
MBA305 & MBA307	MBAMK02	CO1(A): Understand the concepts of sales management.
		CO1(B): Understand the various functions of sales force management
		CO2: Analyze sales efforts and learn sales promotion strategies
		CO3: Describe the aspects and importance of channel management.x

		CO3: Describe the aspects and importance of channel management. CO4: Discuss the approaches and practical aspects of distribution channel management
	MBAFM02	CO1a: Acquaint the students with the fundamentals of stock markets
		CO1b: Understand the measures of risk and return in financial assets
		CO2: Analyze EIC framework and forecast stock markets trends through technical analysis
		CO3: Demonstrate the ability to construct the optimal portfolio
		CO4: Measuring the portfolio performances by conceding the revision technique
	MBAHR02	CO1(A): Discuss the applicability and provisions of Factories Act 1948.
		CO1(B): Demonstrate the process to resolve industrial disputes.
		CO2: Discuss the retirement benefits applicable in the industry.
		CO3: Evaluate the need of minimum wages and ESI benefits.
		CO4: Illustrate the rights and benefits of the women employees
MBA308		
MBA401		CO1 A: Understand the factors that impact strategic decision-making.
		CO1 B: Conduct an environmental scanning through various methods..
		CO2: Formulate appropriate business strategies based upon business situational analysis.
		CO3: Understand and develop corporate competitive strategies according to global marketplace.
		CO4: Apply tools and techniques for strategic implementation, evaluation and control.
MBA402	MBAGE05	CO1A: To understand big data analytics for summarizing marketing data
		CO1B: Create clusters for value analysis to take various business decisions
		CO2: Apply various models of statistics to solve business issues
		CO3: Analyze competitive advantage prevailing in business to cope up with environment
		CO4: Learn data mining and visualization skills for better visualization of data

	MBAGE06	CO 1a: Introduces the theory, concepts, and business application of human resources data, metrics and systems.
		CO 1b: Business application of human resources research, data, metrics, systems, Analyzes, and reporting.
		CO2: Examine actual business cases and apply problem solving and critical thinking skills through group case studies
		CO3: Understand the application of quantitative and qualitative analysis to understand trends and indicators in human resource data.
		CO4: Apply quantitative and qualitative analysis to understand trends and indicators in human resource data.
	MBAGE07	CO1a: Understand the concept, need of Financial Analytics and time value of money.
		CO1b: Possessing knowledge of Financial Market Structures, Asset pricing theories and the optimal portfolio
		CO2: Applying Volatility and Risk Model for forecasting
		CO3: Analysing Risk Measurement technique for financial Institution.
		CO4: Estimate derivative price and interoperating different issues in International Finance.
	MBAGE08	CO1a. Understand the role of business analytics
		CO1b: Understanding the data science in solving business problem
		CO2. Understand and apply data mining task and techniques for better decision making
		CO3. Understanding the role of machine learning and its application in business analytics
		CO4: Understand the application of business analytics in different business domain
MBA403		CO1a. Understand the leadership role of Management Information systems in achieving business competitive advantage through informed decision making.
		CO1b: Analyze and synthesize business information to facilitate evaluation of strategic alternatives based on the Management activities.
		CO2: Understand the importance and characteristics of information for business decision making
		CO3: Understand and Analyze the system need and its concept applied to MIS

		CO4. Develop an understanding of the principles and techniques used in the SystemDevelopment Life Cycle
MBA404 & MBA406	MBAMK03	CO1a: Understand the concept related to brand management.
		CO1b: Understand the various concept related to Brand Equity
		CO2: Analyze the concept and variables of Integrated marketing communication.
		CO3: Comprehend the target audience and media along with measures of advertising
		CO4: Evaluate and Identify pros and Cons of Various digital Media marketing.
	MBAFM03	CO1a: Understand the basic concepts of project management and its application
		CO1b: Appraise the project on the market and technical aspects.
		CO2: Evaluate the project based on capital budgeting techniques.
		CO3: Acquaint about the social cost benefit analysis
		CO4: Categories different types of project risk and study network analysis tools for cost and time estimation.
	MBAHR03	CO1A: Summarize the concept & components of compensation.
		CO1B: Understand wage determination and administration
		CO2: Design compensation structure.
		CO3: Analyze the types of benefits available for employees.
		CO4: Discuss the challenges of employee compensation
MBA405 & MBA407	MBAMK04	CO1a: Understand the concepts of service attributes and determinants of the service marketing mix.
		CO1b: Learn the Service Quality Model and analyze the behavioral aspects of customer buying.
		CO2: Understand the concept of Retailing and Retail Mix.
		CO3: Discuss the Retail industry in India and Various Retail Formats.
		CO4: Understand and analyze appropriate strategies for Store Location, Merchandise Planning, Store Designing, operations and Store Employees.
	MBAFM04	CO1 a: Understand the main functions of financial risk management and its role in the system of entire business management
		CO1b: Understand the types of risks faced by an entity and be able to identify these risks
		CO2: Develop the understanding of market volatility and portfolio performance.

		CO3: Measure how the risks faced by an entity can be quantified and the use of metrics to measure risk.
		CO4: Acquaint with the know-how of tools of financial engineering and risk hedging via various derivative products such as futures and forwards
	MBAHR04	CO1a: Understand the concept of Talent management and its relevance to organization.
		CO1b: Analyze Talent management process and its significance.
		CO2: Develop Talent Management strategy and necessary behavioral skills for the application of various Talent issues.
		CO3: Understand current practices of talent planning and acquisition strategies.
		CO4: Evaluate and understand the best strategies for talent engagement and retention.

MBA BA

PROGRAMME OUTCOMES	
PO 1	Understand management theories and practices to solve business problems using analytics
PO 2	Apply appropriate analytical methods to interpret data using latest data analytics tools.
PO 3	Enable critical thinking and cultivate cognitive skills
PO 4	Appraise the impact of managerial decisions and business priorities on the societal, economic and environmental aspects
PO 5	Adapt life-long learning and ethical orientation through enriched knowledge and skills.

Paper Code		CO's
MBABA101		CO1a: Integrate management principles into management practices.
		CO1b: Determine the nature of organization structure.
		CO2: Understand and apply control methods.
		CO3: Understand models of organizational behavior, perception, organizational change, group dynamism and organizational conflict.
		CO4: Measure Employees' attitude and Personality Types, motivation factors, leadership styles, and stress.
MBABA102		CO1a: Learn the general concepts of Managerial Economics and Demand Analysis
		CO1b: Understand the concepts of Demand Elasticity and Production Analysis
		CO2: Analyze the concepts of Market Structure
		CO3: Understand and Implement Demand Forecasting
		CO4: Calculate and Interpret the Concept of National Income, Business Cycle and Inflation
MBABA103		CO1a: Learn the basic concepts of financial reporting.

		CO1b: Understand types of financial statements and additional disclosures need to report by business entity.
		CO2: Learn basic elements of financial statements.
		CO3: Understand and apply financial statement analysis tools for decision making.
		CO4: Learn convergence of Indian accounting standards with IFRS.
MBABA104		CO1a: Understand the role of business analytics for Business Decision making
		CO1b: Understand the role of data science in solving business problem and Data science project life cycle to prepare data
		CO2: Understand and apply data mining task and techniques for better decision making
		CO3: Apply and analyze machine learning concept various data mining task and techniques for better decision making
		CO4: Analyze the application of business analytics in different business domain.
MBABA105		CO1a: Understand the concept, factors of the business environment and interaction between different environments.
		CO1b: Evaluate the global environment, various laws impacting the business.
		CO2: Understand various government policies, institutions and its role in business.
		CO3: Understand the concept, role and process of EXIM policy, LPG, FDI, WTO, Global environment.
		CO4: Practical learning of SWOT, Stock Exchange and Analysis of companies.
MBABA106		CO1a: Understand the basics of descriptive and inferential statistics and present appropriate graphical statistics for different types of data.

		CO1b: Apply basic descriptive statistics like central value, dispersion, skewness and kurtosis for different types of data.
		CO2: Use correlation and regression Analyzes to determine the relationships between the variables.
		CO3: Demonstrate and understand concepts relating to probability and its distribution.
		CO4: Conduct and interpret a variety of hypothesis tests to aid decision making in a business context.
MBABA107		CO1a: Students will be able to effectively use social media for communication and will learn how to face online interviews through mock sessions.
		CO1b: Students will be able to understand the prerequisites and parameters of evaluation for an offline interview.
		CO2: Students will be able to participate effectively into group discussion.
		CO3: Students will learn presentation skills.
		CO4: Students will learn fine prints of business and official communication
MBABA108		CO1a: Understand the basic concept of programming using Python.
		CO1b: Apply variables, statements, strings and files used in Python programming.
		CO2: Demonstrate the rules and logic applied on data with Python.
		CO3: Use inbuilt models available in Python programming to analyze data
		CO4: Interpret a variety of alternatives to tests to aid decision making in a business context by using.
MBABA109		CO1a: Students should be able to demonstrate the application of the knowledge acquired in the semester.
		CO1b: Understand the practical difficulties in applying the various forms of solutions to find the feasible solution.

		CO2: Comprehend the concept and learning.
MBABA201		CO1a: Undertstand the Various concept related to Marketing management and Marketing environment
		CO1b: Illustrate the various concept related to marketing Segmentation, targeting and positioning
		CO2: Analyze the concept of Marketing mix and understand role of distribution channels in Marketing
		CO3: Comprehend the role of promotion mix in marketing.
		CO4: Evaluate and Identify the Various aspect of digital marketing and Retailing
MBABA202		CO1a: Learn the general concepts of supply chain, operations, plant location and layout planning
		CO1b: Understand the concepts of forecasting, production planning and capacity planning
		CO2: Learn the concepts of aggregate planning and inventory management
		CO3: Analyze the network design, logistics management of a firm and purchasing & vendor management
		CO4: Understand the recent issues in supply chain management and role of IT in supply chain
MBABA203		CO1a: Understand the fundamentals, various models and agency problems of Corporate Finance.
		CO1b: Acquire knowledge about various aspects of cost of capital and capital budgeting techniques for analyzing long-term projects.
		CO2: Acquaint with the various capital structure theories and practicality of leverage in the context of business.
		CO3: Comprehend various dividend models and its applicability.
		CO4: Familiar with the concept of working capital and its management

MBABA204		CO1a: Gain knowledge about basic concepts of Machine Learning
		CO1b: Identify machine learning techniques suitable for a given problem
		CO2: Understand decision tree and ANN techniques for solving the real problem in machine learning
		CO3: Apply the bays algorithms to in business problem.
		CO4: Understand the unsupervised learning techniques and their algorithm for solve the business problem.
MBABA205		CO1a: Develop an understanding of the concepts of HRM and essential skill sets required to become HR professional.
		CO1b: Contribute to the implementation and evaluation of plans related to employee recruitment, selection, training, retention, and appraisal processes in an organization.
		CO2: Integrate the knowledge of HR concepts to take the best managerial decisions.
		CO3: Design rationally the salary and compensation structure.
		CO4: Create pay slip, offer letter, develop and use HR Metrics and write Job Advertisements.
MBABA206		CO1a: Know and understand the various techniques of Decision making Environments.
		CO1b: Define, Sketch and Apply LP technique to translate a real-world problem.
		CO2: Demonstrate and Solve game and sequencing problems.
		CO3: Understand the concept of Queuing System and identify variations using SQC tools.
		CO4: Familiar with the concept of replacement theory and CPM PERT

MBABA207		CO1a: Understand the basics and use of R programming in terms of constructs, control statements, string functions.
		CO2b: Learn to apply R programming for various application areas.
		CO2: Able to appreciate and apply the R programming from a statistical perspective.
		CO3: Apply the different statistical tool for data cleaning and mining.
		CO4: Understand the unsupervised learning techniques and their algorithm for solve the business problem.
MBABA208		CO1a: Understand the concept of Database Management System and ER-Model.
		CO1b: Understand relational databases using Oracle/MS-Access/MySql.
		CO2: Understand and apply basic concepts of Select statement in Structured Query Language (SQL).
		CO3: Apply the Structured Query Language (SQL) to extract and derived desired data.
		CO4: Understand and apply joins to retrieve data from multiple tables. Understand and apply nested select statement.
MBABA301		CO1a: Understand Big Data and its Business Implications
		CO1b: Elaborate the components of Hadoop and Hadoop Eco-System
		CO2: Demonstrate the Process Data on Hadoop Distributed File System
		CO3: Explain Job Execution in Hadoop Environment
MBABA302		CO4: Analyze Big Data Solutions using Spark
		CO1a: Understand the conceptual foundations of research.
		CO1b: Describe sampling design and recognize various tools of measurement of data.
		CO2: Identify and analyze the essential features of data preparation.
		CO3: Describe and demonstrate the predictive analytics, namely, the regression technique.

		CO4: Define and understand the various multivariate techniques.
MBABA303	GE01	CO1a: Understand the application and methods of consumer research
		CO1b: Acquire the knowledge of individual determinants of consumer behaviour
		CO2: Understand the facets of group dynamics with reference to consumer behaviour
		CO3: Comprehend the communication and consumer decision-making process.
		CO4: Describe various models of consumer behaviour and application of CB in industrial
	GE02	CO1a: Understand the concepts of sales management
		CO1b: Discuss the various theories of sales management, organizing, staffing, training and directing sales force operations
		CO2: Evaluating and controlling the sales effort and understanding various sales promotion strategies
		CO3: Describe the aspects and importance of marketing channel management
		CO4: Discuss the approaches and practical aspects of distribution system
	GE03	CO1a: Understand the concept of HRD, HRD Interventions, OD and OD interventions.
		CO1b: Design training & development program.
		CO2: Develop career development plans and performance appraisal systems in the organization.
		CO3: Conduct HRD audit.
		CO4: Plan & implement HRD & organizational development interventions.
	GE04	CO1a: Understand the basics of Capital Market
		CO1b: Analyze the risk and return of Securities

MBABA304 & MBABA305		CO2: Apply the Fundamental and Technical Indicators to predict Stock Market trends
		CO3: Demonstrate the Modern Portfolio Management and its application in portfolio selection
		CO4: Assess portfolio revision technique and portfolio performance
	DSEC01	CO1a: Understand the role of web analytics within the digital marketing landscape
		CO1b: Identify, define and interpret commonly used web metrics and KPIs
		CO2: Understand analytical methods to transform social media data into marketing insights
		CO3: Understand how to effectively use insights to support website design decisions, campaign optimization, search analytics
		CO4: Analyze unstructured data such as Social Media comments, customer reviews to understand the sentiments of the customers.
	DSEC02	CO1a: Understand various marketing models and metrics
		CO1b: Demonstrate Competitive analysis
		CO2: Explain Price analytics
		CO3: Understand Promotion analytics
		CO4: Understand Sales analytics
	DSEC03	CO1a: Understand the concept, need of Financial Analytics and time value of money.
		CO1b: Possessing knowledge of Financial Market Structures, Asset pricing theories and the optimal portfolio
		CO2: Applying Volatility and Risk Model for forecasting
		CO3: Analysing Risk Measurement technique for financial Institution.
		CO4: Estimate derivative price and interoperating different issues in International Finance.
	DESC04	CO 1a: Introduces the theory, concepts, and business application of human resources data, metrics and systems.

		CO 1b: Business application of human resources research, data, metrics, systems, Analyzes, and reporting.
		CO2: Examine actual business cases and apply problem solving and critical thinking skills through group case studies
		CO3: Understand the application of quantitative and qualitative analysis to understand trends and indicators in human resource data.
		CO4: Apply quantitative and qualitative analysis to understand trends and indicators in human resource data.
	DESC05	CO1a: Understand the fundamentals of retail analytics and tools.
		CO1b: Use Stata and SPSS for retail advertising and web metrics
		CO2: Understand customer insights by analysing retail data
		CO3: Comprehend in store retail marketing analytics
		CO4Understand the in-store retail management and operations.:
	DESC06	CO1a:Understand the significance of data management in research practice
		CO1b: Learn and understand the documentation and data Organization to improve data analysis
		CO2:Understand and Analyze the research ethics and best practices used in research
		CO3: Learn to Analyze data fabrication and misinterpretation
		CO4: Understand and value the need for ethical decision making while performing Research
	DSEC07	CO1a:Understand the concept of digital media and impact of technology has on traditional marketing scenario
		CO1b:Construct content creation strategy and allocate the content analysis tools
		CO2: Extrapolate the tools of trade with analysing the various user interface.

		CO3: Analyze and optimize existing digital marketing campaigns.
		CO4: Comprehend the process of product development and Strategies the various Research Plan related to Consumer
	DSEC08	CO1a: Demonstrate the fundamentals of Time series analysis
		CO1b: Develop the understanding of the types of data and functioning of the software
		CO2: Predict the movement in time series data through various techniques
		CO3: Understanding the financial data through various multiple regression model
MBABA306		CO4: Examining the asset return volatility through various Models
		CO1a: Understand the need of big data analytics and it's tools
		CO1b: Understand the architecture of Hadoop and apply it to Analyze data
		CO2: Demonstrate the knowledge of big data analytics and implement different file management task in Hadoop.
		CO3: Understand Map Reduce Paradigm and develop data applications using variety of systems.
MBABA307		CO4: Able to develop apache spark applications
		CO1a: Understand practical concepts of data visualization & storage
		CO1b: Demonstrate knowledge about Python libraries regarding Data Visualization.
		CO2: Able to fetch the data from different data sources and perform aggregation
		CO3: Develop a practical understanding of Power BI.
MBABA308		CO4: Demonstrate practical approach in case studies of live data sets.
		CO1a: Documentation and composing of a Professional Project
		CO1b: Sequencing ability on the basis of prioritisation
		CO2: Research Orientation
		CO3: Analytical and Conclusion documentation

		CO4: Forecasting ability
MBABA401		CO1a: Develop the skills and qualities required to be a successful entrepreneur.
		CO1b: Understand the theories of entrepreneurship and the challenges faced by women and rural entrepreneurs.
		CO2: Learn about creating entrepreneurial venture and feasibility studies in project development.
		CO3: Analyze and compare the different funding agencies available for training and funding new enterprises.
		CO4: Analyze and compare the different entrepreneurial agencies available for the growth of Entrepreneurship in India.
MBABA402		CO1a: Identify and resolve security issues in networks and computer systems to secure any public or private organization
		CO1b: Understand the concept of Cyberspace and Regulation of cyberspace
		CO2: Apply the branches of law, jurisdictional boundaries and cybersecurity law enforcement.
		CO3: Analyze the concept and impact of E-commerce on business models and strategy
		CO4: Recommend a legal defense against data breaches or cybercrime civil or criminal proceedings
MBABA403	GE05	CO1a: Understand the concept of financial econometrics, econometric Models and their estimation
		CO1b: Understand the concept of time series & implement various techniques for testing trends and unit root
		CO2: Comprehend the concept of regression analysis & identify various models of regression and appraise the use of these models.

		CO3: understand the concept and assumptions of multiple regression and further interpret various multiple regression models
		CO4: Demonstrate the concepts of validation of regression models and forecasting techniques and further learn to develop research report.
	GE06	CO1a: Summarize the concept & components of compensation.
		CO1b: Understand wage determination and administration
		CO2: Design compensation structure.
		CO3: Analyze the types of benefits available for employees.
		CO4: Discuss the challenges of employee compensation.
	GE07	CO1a: Understand the concept of Talent management and its relevance to organization.
		CO1b: Analyze Talent management process and its significance.
		CO2: Develop Talent Management strategy and necessary behavioral skills for the application of various Talent issues.
		CO3: Understand current practices of talent planning and acquisition strategies.
		CO4: Evaluate and understand the best strategies for talent engagement and retention
	GE08	CO1a: Understand the concepts of service attributes and determinants of the service marketing mix.
		CO1b: Learn the Service Quality Model and analyze the behavioral aspects of customer buying.
		CO2: Understand the concept of Retailing and Retail Mix.
		CO3: Discuss the Retail industry in India and Various Retail Formats.
		CO4: Understand and Analyze appropriate strategies for Store Location, Merchandise Planning, Store Designing and operations and Store Employees.
	GE09	CO1a-Understand the Various concept related to brand management.

		CO1b-Understand the various concept related to Brand Equity
		CO2- Comprehend the concepts related to Integrated marketing communication.
		CO3-Understand the basic concepts related to advertising
		CO4-Discuss online advertising and digital media communication strategy
	GE10	CO1a: Understand the basic concepts of project management and its application
		CO1b: Appraise the project on the market and technical aspects
		CO2: Evaluate the project based on capital budgeting techniques
		CO3: Acquaint about the social cost benefit analysis
		CO4: Estimate the cost of project and identify various sources of finance. Appraising the project on various parameters
MBABA406		CO1a: Technical presentation tools handling skills
		CO1b: Spot Communication skills
		CO2: Report Designing Skills
		CO3: Competency Developed
		CO4: Project Report Writing and research
MBABA407		CO1a: Understand appropriate and relevant fundamental of predictive analytics.
		CO1b: Analyze, and interpret the data using the multivariate regression methods.
		CO2: Understand the logistic regression methods.
		CO3: Describe the decision trees and unstructured data analysis.
		CO4: Demonstrate the ability for Forecasting and Time series Analysis

MBA(I)

PROGRAMME OUTCOMES	
PO 1	Understand and use the principles of management to provide solutions to the practical multifaceted business issues
PO 2	Apply analytical and critical thinking abilities through quantitative methods for decisionmaking.
PO 3	Identify the business problems and apply data analytics methods to find an alternative course of action
PO 4	Interpret cross-cultural business environment to give value-based benefits to society at large.
PO 5	Discover and articulate business ideas for gaining leadership in business through fostering skills.

Paper Code		CO's
MBA(I)101		CO1A :Understand the concept of Management and its function.
		CO1B: Analyze and understand the Planning, Objective Setting Process, and decision making
		CO2 :Designing and Evaluating Organizational Structure
		CO3: Understanding the Staffing & Directing Process and motivation theories
		CO4 :Evaluating the Management Process and apply Control Methods
MBA(I)102		CO1A: Understand an overview and Prerequisites to Business Communication
		CO1B: Determine the use of media for communication and understanding the types of communication
		CO2: Analysing the various techniques of group decision making through committees, conferences and getting the insights of business presentation
		CO3: Incorporate the concepts of written communication to inform, engage, persuade the business audience.
		CO4: Apply the official communication in terms of minutes, agenda, notice. Comprehend with cross culture communication
MBA(I)103		CO1A :Understand the Basic Concepts of Financial Accounting
		CO1B: Demonstrate the concept of Recording and Classifying the Data

		CO2: Apply Critical Thinking and apply Problem Solving skills of Final Accounts and Bank Reconciliation
		CO3: Calculate and interpret Department, Consignment and NPOs Accounts
		CO4: Assess the IFRS, Royalty and Branch Accounts
MBA(I)104		CO1A: Understand statistical data using measures of central tendency, dispersion, skewness and kurtosis
		CO1B: Demonstrate and understand concepts relating to probability and its distribution
		CO2: Define and understand components of time-series and analysis of trend
		CO3: Understanding the Staffing & Directing Process and motivation theories
		CO4 Knowledge about inferential aspects such as test of hypotheses and associated concepts
MBA(I)105		CO1A :Understand the concepts related to Indian contract act
		CO1B :Explain the concepts related to Indian partnership act
		CO2 :Demonstrate the principles related to negotiable instrument and various types
		CO3: Analysis the provisions of consumer protection
		CO4 :Evaluate the recent changes in the Information technology law 2000
MBA(I)106		CO1A: Understand the basics of Computer hardware, software, operating system, data processing MS word, MS excel, MS Power-Point
		CO1B :Analyze the need of computer hardware and software to the assigned task.
		CO2: Apply the MS word for document preparation , MS power point to represent data and figure, MS excel to do some statistical analysis and MS access to perform the basic data base operation.
		CO3: Utilization of internet concepts and protocol used in communication.
		CO4: Explore the use of E-mail to communicate and search engine to gather data from internet.
MBA(I)107		CO1A :Understand tally features of creating a company and perform accounting of company.
		CO1B: Demonstrating of creating single and multiple ledgers, group creation.89
		CO2 :Develop the understanding of stocks groups and managing inventory of an organisation

		CO3: Assess and analysis the different Accounting and Inventory vouchers.
		CO4 :Evaluate the Different Financial Statement for managerial decision makings.
MBA(I)108		CO1A :Understand the current topic of Management
		CO1B: Analyze the business environment
MBA(I)109		CO1A :Understand the basics of Functional English Grammar with its application
		CO1B: Enhance the vocabulary for better thought process & understanding.
		CO2: Develop writing skills on topics of Gen. Interest to develop an acumen towards contextual comprehension
		CO3: Improve presentation skills through self & Institutional Discipline
		CO4 :Enhance communicative skills with corporate mannerisms
MBA(I)201		CO1A: Understand concept, policies pertaining to OB
		CO1B :Predicting the individual behavior in terms of perceptions, learning, attitudes
		CO2 :Analyzing Group Behaviour and role of leadership and motivation in an organization
		CO3:Evaluating and applying the concepts of power and politics to successfully reduce stress and manage change
		CO4 :Analyzing and managing conflict to foster better organizational culture
MBA(I)202		CO1A :Understand the Basic Concepts of Financial Functions, Management, and Decision Making
		CO1B: Evaluate various Projects based on Capital Budgeting Techniques
		CO2 :Critically examine the projects based upon the Cost of Capital
		CO3: Demonstrate the understanding of Capital Structure Theories
		CO4: Estimate and appraise projects based upon Degree of Leverage
MBA(I)203		CO1A: Understand the concepts of Marketing, Marketing Research and Marketing Environment
		CO1B: Learn concepts related to consumer Behavior and various type of mix
		CO2: Memorizing the concept of segmentation, targeting and positioning

		CO3: Learn about the distribution decisions, marketing channels and promotion mix
		CO4: Identify concepts related to pricing decisions and various types of marketing
MBA(I)204		CO1A: Develop an understanding of the concepts of HRM and essential skill sets required to become HR professional
		CO1B: Inculcate the essential skill to forecast the manpower requirements
		CO2: Integrate the knowledge of HR to manage the different HR functions.
		CO3: Evaluate and implement employee job analysis with the organizational objectives.
		CO4: Contribute to the implementation and evaluation of plans related to employee recruitment, selection, appraisal processes in an organization
MBA(I)205		CO1A :Comprehend the concept of International business and Issues in foreign Investment
		CO1B :Understand the external environment with reference to International business.
		CO2: Summarize various theories of International trade
		CO3: Relating various aspects of world trade+D88
		CO4: Analyzing EXIM policies with various strategies to operate International Business
MBA(I)206		CO1A: Understand the concept of Entrepreneurship.
		CO1B :Memorizing the theories and scope of entrepreneurship
		CO2: Learn how to start an enterprise and design business plans.
		CO3: Analyze the different funding agencies available for funding new enterprises.
		CO4: Evaluate the different entrepreneurial agencies available for the development of Entrepreneurship in India
MBA(I)207		CO1A :Demonstrate a good understanding of security control of Tally ERP 9.0.
		CO1B: Construct different cost categories & centres and use of advance accounting voucher in Tally.
		CO2 :Employ order processing management system
		CO3 :Apply the concept of job costing in Tally.

		CO4: Illustrate and Analyze the different job order reports for managerial decision makings
MBA(I)208		CO1A :Identify the genre or general field of the book.
		CO1B: Gather knowledge about different books
		CO2: Pick out useful pieces of information from longer texts
		CO3: Learn critical analysis of a book
		CO4 :Improve their reading, writing, and thinking skills
MBA(I)209		CO1A: Make students understand about themselves & their basic traits through SWOT analysis.
		CO1B: Understand the basics of Communicative English Grammar & its application.
		CO2: Develop creative writing skills on topics of Gen
		CO3: Learn to imbibe human values by listening & watching great motivators of the time.
		CO4 :Help the students to express their thoughts on various issues with their peer group and enhance communicative skills with corporate mannerisms
MBA(I)301		CO1A: Understand the concept of Amended Company Law with types of the company and general administration
		CO1B: Elucidate the formation of the company with incorporation including provisions related to promoters
		CO2: Describe the contents of Memorandum and article of association with alteration.
		CO3: Analyze the role of Directors in the company with their powers and functions.
		CO4 :Evaluate the process of winding up of a company and concept of Prospectus.
MBA(I)302		CO1A: Understand the Basic Concepts of Cost Accounting and Material Costing
		CO1B :Demonstrate the management of Labour and Overhead Costing
		CO2: Apply the concept on Cost Sheet Preparation, Cost audit and Cost Reduction
		CO3: Execute the Concept of Process Costing
		CO4: Estimate the cost of different operating services
MBA(I)303		CO1A: Understand the fundamental concepts of Managerial Economics
		CO1B: Comprehend concepts related to utility, demand and supply analysis

		CO2: Acquire knowledge of factor of production and production function
		CO3: Analyze different market structures prevailing in Indian economy
		CO4 :Understand economic environment and economic conditions
MBA(I)304		CO1A: Understand the concept of research, its types, process and its design
		CO1B :Develop an understanding of writing literature review and collecting sample by using various sampling techniques
		CO2: Comprehend the Concept of Correlation, Regression & Chi-square and applying the same for the purpose of data analysis
		CO3: Apply T-test, Anova & Reliability test and applying these tests for analysing the data.
		CO4 :Preparing a research report
MBA(I)305		CO1A :Demonstrate an understanding of the role of Management Information Systems for achieving competitive advantages through informed decision making.
		CO1B: Analyze and synthesize business information and computer systems to facilitate and evaluation of strategic alternatives.
		CO2: Effectively communicate strategic alternatives to facilitate decision making capabilities.
		CO3: Establish an awareness of various techniques used in system analysis and design.
		CO4: Develop an understanding of the Principles and techniques used for developing a Management Information System.
MBA(I)306		CO1A :Understand the fundamentals of project development in the realistic environment.
		CO1B :Learn the various stages of project formulation.
		CO2: Analyze the feasibility of project by technical, economic, financial, legal and social aspects.
		CO3: Comprehend with project scheduling and networking techniques.
		CO4: Evaluate project with project monitoring and control.
MBA(I)307		CO1A: Understand various skill development project for enhance applicability of learning
MBA(I)308		CO1A: Gain Interpersonal skills by being a part of social activities.

		CO1B: Sensitize with issues of weaker sections of society
		CO2: Generate solutions for societal issues
		CO3: Engage in social welfare activities
		CO4 :Identify several beneficiary schemes aimed for social welfare
MBA(I)309		CO1A :Learn practically through interaction, working methods and employment practices.
MBA(I)401		CO1A: Understand the impact of strategic decision-making implementation and evaluation.
		CO1B: Implement tools and techniques for strategic analysis and decision-making
		CO2 :Discuss various aspects of Strategic Implementation.
		CO3: Understand and analyze turnaround and diversification strategy.
		CO4: Relate the strategic evaluation and control for strategic performance measurement
MBA(I)402		CO1A :Understand and Analyze the concept of partnership in case of admission, retirement and death of a partner
		CO1B: Apply the knowledge for insolvency ,amalgamation and sale of partnership firm
		CO2: Analysis of various accounting records of Hire purchase ,instalment purchase system and investment account
		CO3: Assess the various conditions of maintaining accounts of insurance companies, accounting for banks along with policies of banking sector
		CO4: Formulate the double accounting system for electricity company and hotel companies.
MBA(I)403		CO1A Demonstrate the multidisciplinary nature of the environment.
		CO1B Understand the various Natural and artificial resources
		CO2: Analyze the different ecosystems and appreciation of intrinsic value
		CO3: Understand the value of biodiversity and help to conserve the environment
		CO4 :Demonstrate an integrative approach to environmental issues with a focus on sustainability
MBA(I)404		CO1A :Understand concept and theories pertaining to ethics
		CO1B :Identify the concepts related to Work ethics and code of conduct

		CO2 :Evaluate the role of corporate ethics and theories of ethics
		CO3 :Incorporate environmental ethics and applying the laws related to ethics
		CO4: Apply corporate social responsibility and governance
MBA(I)405		CO1A: Understand the basic concepts of operations, product design, plant location and Layout planning
		CO1B: Analyze the concept of forecasting, its quantitative & Qualitative techniques, work design & measurements.
		CO2 :Demonstrate the fundamentals of production planning, capacity planning, aggregate planning, and master scheduling.
		CO3 :Comprehend the concept of Inventory Management, its techniques and Just in Time Production
		CO4 :Identify the concept of Project Management and its various phases
MBA(I)406		CO1A :Articulate and demonstrate a basic understanding of Ecommerce
		CO1B: Illustrate a better understanding of the basics of internet and its related technologies.
		CO2 :Develop and apply the knowledge of Electronic payment systems and mechanism.
		CO3 :Apply the knowledge of content creation, content management and security features.
		CO4: Demonstrate an effective grasp of the importance and applications Google tools like SEO and AdWords.
MBA(I)407		CO1A :Acquire functional knowledge about loan financing for start-ups or existing firms.
		CO1B :Comprehend with the process of loan financing for the start-up at banks and financial institutions.
		CO2 :Learn to develop business plan after analysing financial, technical and marketing analysis
		CO3: Apply various analytical methods for cost-benefit analysis of the project.
		CO4: Formulate financial plan and project proposal for presentation.
MBA(I)408		CO1A :Understand the Event
		CO1B :Apply all the steps of planning and organizing an event.

		CO2: Discuss ways of strategic marketing and promotion planning for events.
		CO3 :Demonstrate knowledge and ability to execute and manage the key processes involved Event
		CO4 Summarize the knowledge and ability to review, Analyze, and collect feedback related to event management.
MBA(I)409		CO1A: Understand the Basic fundamentals of functional grammar, Creative & Critical Writing Skills
		CO1B :Build their vocabulary for structured discussion on various current issues
		CO2 :Participate and communicate in group activities effectively.
		CO3: Inculcate the soft skills in students for corporate acceptance.
		CO4: Prepare the students face the open forum on various burning issues
MBA(I)501		CO1A: Understand the basic terms and concepts of Income tax
		CO1B: Assess the taxable income under the head of Salary, House Property and Profits & gains from business and profession
		CO2 :Compute taxable income under capital gains and other sources & understand the process of set-off, carry forward and clubbing
		CO3 :Discuss the various benefits/ deductions under the Income tax act, 1961 and compute the net totalincome of an individual
		CO4: Calculate tax liability & perform assessment procedures and file ITR
MBA(I)502		CO1A :Understand the concepts associated with ERP systems for business
		CO1B :Interpreting the ERP solutions and function modules for best business practices
		CO2 :Analyze the issues to be considered in planning, designing and implementing integrated ERP system
		CO3: Evaluating and applying ERP system and identifying the post implementation challenges.
		CO4: Identify emerging trends in ERP development
MBA(I)503 & MBA(I)505	MK01	CO1A: Legal Concepts related to basics of advertisement
		CO1B: Identify and recognize the target audience
		CO2: Evaluation of Advertisements
		CO3 :Understand the Various concept related to brand management

MBA(I)504 & MBA(I)506		CO4 :Demonstrate the various concept related to Brand Equity
	HRM01	CO1A: Analyze the dynamic legal context in which factories could be setup and their rules for labour.
		CO1B: Understand the provisions of the Industrial Disputes Act, 1947 which provides for defilement of industrial disputes through conciliation, voluntary arbitration and compulsory adjudication
		CO2: Understand the process of trade union formation, working, role of trade union.
		CO3: Determine the process and rules of wages payment to the workers
		CO4 :Learn the process and rules of minimum wages payment to the workers.
	FM01	CO1A :Acquaint the students with the fundamentals of Indian Financial system and financial markets.
		CO1B :Discuss about the factoring and forfeiting of accounts receivables
		CO2: Understand the overview of consumer finance and lease financing
		CO3: Describe the significance of financial intermediaries and credit rating and its scope.
		CO4 :Develop awareness about interest rate and its relationship with economic process
	MK02	CO1A :Understand and evaluate consumer Behaviour
		CO1B :Acquire the knowledge of individual determinants of consumer Behaviour
		CO2: Explore the facets of group dynamics with reference to consumer behaviour
		CO3: Comprehend the communication and consumer decision-making process
		CO4: Evaluate the various model of Consumer Behaviour considering each internal and external stimuli
	HRM02	CO1A: Understand concept and development of social security.
		CO1B :Memorize the concept and policies pertaining to workmen compensation.
		CO2 :Analyze features of maternity benefit provide to employees.
		CO3: Evaluating and applying the concepts and methods of collective bargaining.
		CO4: Comprehend workers participation in organizations in India.
	FM02	CO1A :Know about the concept of investment and financial markets
		CO1B: Understand the concept of risk and return
		CO2: Comprehend with investment analysis and behaviour of stock market prices.

		CO3: Apply portfolio theory and asset allocation decision
		CO4: Acquaint with portfolio performance evaluation and portfolio revision
MBA(I)507		CO1A: Understand the concept of Export and Import Management.
		CO1B: Learn about setting up an export unit and be aware of various benefits provided by the government.
		CO2 :Identify various types of documentation required in international business.
		CO3: Memorize the importance of INCOTERMS in international business
		CO4 :Analyze the various methods of exchange control and Payments
MBA(I)508		CO1A :Understand the format to prepare effective resume & cover letter
		CO1B: Learn vocabulary for structured discussion on various current issues
		CO2: Participate and communicate in group activities effectively.
		CO3: Inculcate the soft skills in students for professional arena
		CO4: Prepare the students perform stage activities on contemporary issues
MBA(I)509		CO1A: Comprehend the simple sentences into French to English
		CO1B: Understand about the conjugation of sentences
		CO2: Quoting the French vocabulary and accents
		CO3 :Selecting the parts of speech and types of sentences
		CO4 :Evaluate and critique each other's oral and written performance for learning purposes.
MBA (I)601		CO1A: Understand the scope, role, and phases of operations research
		CO1B :Define and apply LPP to translate a real-world problem.
		CO2: Analyze and optimize transportation problems to reduce time and cost.
		CO3: Know and understand the various techniques of decision-making environments
		CO4: Acting out statistical quality control methods to quantify and sketch variations in variables and attributes.
MBA (I)602		CO1A: Understand the accounting treatment & valuation of goodwill and shares
		CO1B: Demonstrate good understanding of accounting treatment with respect to issue and redemption of debentures in capital structure of company
		CO2 :Examine the valuation method of shares and goodwill and measurement of performance of companies
		CO3 :Evaluate and compare the consolidated balance sheet of holding with one subsidiary company along with liquidation of company
		CO4 :Prepare and exhibit accounting for banking companies and analyzing the effect of NPA on the profitability of banks.

MBA (I)603 & MBA(I)605	MK03	CO1A :Understand the basics of service marketing and its environment
		CO1B: Know the concept of service marketing mix
		CO2: Identify the various aspects of consumer behaviour & organization behaviour in services.
		CO3: Comprehend the various service quality models and demand management
		CO4: Discuss the issues related to customer satisfaction. Complaints and recovery
	HRM03	CO1A :Understand the concept and role of Industrial relations in public sector
		CO1B: Articulate Industrial conflicts and available machineries for the resolution
		CO2: Comprehend the welfare schemes and measures available for laborers
		CO3: Categorizing several Industrial safety norms
		CO4 :Analyze welfare norms pertaining to different categories of laborers in India
	FM03	CO1A: Demonstrate knowledge of the range of financial and financial related risk facing organization.
		CO1B :Impart knowledge about various risk and apply internal risk management models to risk control measures.
		CO2: Acquire knowledge on commodity and quantifying risk with practical considerations in measuring risk.
		CO3: Understand and apply approaches to risk management through risk identification, risk measurement and risk management
		CO4 :Identify ways to control risk with financial engineering and hedging.
MBA (I)604 & MBA(I)606	MK04	CO1A :Understand digital marketing and new trends and tools for business successes
		CO1B Compared the different facets of search engine optimization
		CO2 :Memorize social media optimization and analytical tools used
		CO3: Discuss search engine marketing and tools used.
		CO4 :Understand the additional modules of digital marketing
	HRM04	CO1A: Understand the concept and components of Compensation.
		CO1B: Designing compensation structure of organization.
		CO2: Learn and replicate theories of wages and its management in MNCs
		CO3: Comprehending the legal aspects of Compensation and strengthening performance linked incentives.
		CO4: Evaluate the challenges & design employee benefits

	FM04	CO1A: Demonstrate a good understanding of basic concepts and provisions of income tax
		CO1B: Linking and analyze the five heads of income and taxable income.
		CO2: Acquire knowledge of gross income determination.
		CO3: Understand and apply tax payment and refund procedure.
		CO4 :Distinguishing tax incentives related to different business sectors.
MBA (I)607		CO1A :Evaluate the various sources of funds and choice of techniques used in the business.
		CO1B: Analyze the gap between demand and supply and different licenses required to start a business.
		CO2: Execute the marketing plans by evaluating different cost such as operation, transportation, labor, repair and production
		CO3: Assessment of the financial viability and cost benefit analysis of the project, and rebates for priority projects.
		CO4 :Comprehend the concept and preparation of project report.
MBA (I)608		CO1A :Understand about French alphabets and their forms of politeness
		CO1B: Incorporate about daily vocabulary and paragraph reading.
		CO2 :Present themselves and helps to enhance oral communication.
		CO3: Compare about degrees of adjectives and grammar exercises
		CO4: Distinguish about basics of the French article and understand the simple dialogue in French
MBA (I)609		CO1A :Understand the basic concept and guidelines for preparation of report.
		CO1B :Analyze management concept and link them with movies.
		CO2: Develop comprehensive skills along with conceptual skills
		CO3 :Enhance the presentation skills and creativity within group.
		CO4 :Prepare report file related to the concept
MBA (I)610		CO4: Know about the current trends in supply chain and importance of IT
		CO1A: Understand the concept of supply chain and role of its various drivers
		CO1B: Learn outsourcing, supplier selection, negotiation and supplier development
		CO2: Identify the utility of distribution network design and distribution strategies
		CO3: Learn the concept of demand, inventory, pricing and revenue management
MBA(I)702		CO1A: Understand basic concepts apropos to univariate, bivariate, and multivariate techniques.

		CO1B: Examine various scales of measurement of data and identification of statistical techniques
		CO2: Demonstrate and understand the basics of MLR, factor analysis, and canonical analysis.
		CO3 :Recognize the basics of the discriminant, cluster, and conjoint analysis
		CO4: Knowledge of advanced statistical techniques like MDA, and SEM.
MBA(I)703 & MBA(I)705	MK05	CO1A: Understand the rural market and marketing along with consumer behaviour in rural and urban market
		CO1B: Know the factors influencing rural consumers and application of rural business research
		CO2: Learn the rural marketing mix, product life cycle and rural retail channel management
		CO3: Identify the marketing of agricultural inputs and classification of agricultural products
		CO4: Relate the role of commission, governments and institutions in agricultural marketing
	HRM05	CO1A: Understand dimensions and methods of defining jobs
		CO1B :Design jobs for managers
		CO2: Understand organizational practices to achieve managerial effectiveness
		CO3: Analyze environmental issues pertaining to managerial effectiveness
		CO4: Understand Inter-personal strategies to achieve winning edge in organizations
	FM05	CO1A: Acquaint the students with the fundamentals of banking sector.
		CO1B: Discuss about Electronic Banking and Risk Management in Banks
		CO2 :Understand the overview of Insurance Sector
		CO3 :Describe fundamental concepts of Insurance Business and Risk Management
		CO4 :Develop awareness about Banking and Insurance Legislation in India
MBA(I)704 & MBA(I)706	MK06	CO1A :Understand the fundamentals of retailing and retail environment
		CO1B: Comprehend the concept of retail institutors and a customer-view of retail business.
		CO2: Analyze to role store locations and atmospherics on retail consumer behaviour
		CO3 :Integrate retailing to different functional domains
		CO4: Know retail delivery, pricing and Internalization in Retailing
	HRM06	CO1A: Understand fundamentals of the strategic approach to HRM and aligning HR with functional and corporate strategies
		CO1B :Understand strategic planning for talent acquisition and development

		CO2: Demonstrate strategies for Human Acquisition & placement through training & development and Performance appraisal
		CO3: Distinguish human resource strategies for improving Health and safety and work climate
		CO4 :Comprehend labor relations and compensation strategies
	FM06	CO1A :Understand capital structure decision making.
		CO1B: Analyze corporate restructuring and expansion system.
		CO2: Acquire knowledge of dividend policy.
		CO3: Identify and apply financial engineering methods.
		CO4: Compare functional ethics of financial decisions making.
MBA(I)707		CO1A :Understand, Analyze and Implement MS excel basics, edit a worksheet/workbook using various excel features, use of various excel formula's and protection
MBA(I)708		CO1A: Learn to use the concepts of percentage for calculating profit and loss, rather than applying formulas.
		CO1B: Recognize and apply ratios and proportions to solve real-life problems.
		CO2: Apply the formulae of speed, work, time and its effects on distance.
		CO3: Compare and apply statistical techniques to solve using standard techniques.
		CO4: Develop the skills needed for approaching different types of interviews
MBA(I)709		CO1A: Understand the concept, process, design, tools and techniques of Major Research Project
		CO1B :Apply tools, techniques/methods to assist various functions of management
		CO2: Analyze the data collected.
		CO3: Evaluate the results, interpret and present findings.
		CO4 :Prepare Major Research Report
MBA(I)801		CO1A :Understand the basic concepts of Indirect tax system in India.
		CO1B :Assess the concept of GST and Functions, Power, Structure of GST Council.
		CO2: Acquire the knowledge about input tax credit, payment and claiming refund under GST law
		CO3: Comprehend the GST assessment, return, GSTN and GSP eco system.
		CO4: Equip with the basics of custom duty rules and calculations.

MBA(I)802		CO1A :Understand basic concepts and framework of total quality management
		CO1B: Comprehend the contribution of quality rurus in TQM journey.
		CO2: Apply concepts of statistical process control in quality management.
		CO3: Demonstrate tools and techniques for quality management.
		CO4 :Examine the role of Quality Standards and interpersonal aspects on quality improvement and management.
MBA(I)803 & MBA(I)805	MK07	CO1A: Understand big data analytics for summarizing marketing data
		CO1B :Create clusters for value analysis to take various business decisions
		CO2: Apply various models of statistics to solve business issues
		CO3 :Analyze competitive advantage prevailing in business to cope up with environment
		CO4: Learn data mining and visualization skills for better visualization of data
	HRM07	CO1A :Understand concept and approaches of HR analytics
		CO1B :Identify concept descriptive analytics and HR matrices
		CO2: Analyze the data and interpretation for predictions.
		CO3: Evaluating and applying the knowledge of prescriptive analysis.
		CO4: Appraise and design analytics for decision making.
	FM07	CO1A: Recognize the difference in the operations in the international and domestic financial markets.
		CO1B: Understand the various ways the exchange rate evolved over the years in the International markets
		CO2 :Learn the operations in the currency market and solve the exchange rate determination in spot and forward markets.
		CO3 :Examine the Parity relationship in exchange rate determination
		CO4 :Demonstrating theory in financial decision making and Integrate concept and apply the knowledge of capital budgeting decisions to mitigate the financial risks of organizations
MBA(I)804 & MBA(I)806	MK08	CO1A: Understand the concept of International Marketing
		CO1B: Demonstrate an awareness and knowledge of the impact of environmental factors on international marketing activities.

		CO2: Discuss the global and regional influences on products and services for consumers and describe various international market entry strategies
		CO3 :Develop an analytical and critical understanding of the Global Marketing Mix
		CO4: Implement Global Marketing Strategies
	HRM08	CO1A :Demonstrate an understanding of key terms, theories/concepts and practices within the field of IHRM.
		CO1B: Describe staffing practices in an International Context.
		CO2: Analyze the Industrial relations and devise strategy for international organizations.
		CO3: Understand the contemporary issues in international HRM
		CO4: Act out the ability to handle cultural difference through relevant strategies.
	FM08	CO1A: Understand the Basic Concepts and Theories of Financial Market
		CO1B :Demonstrate various Model of Capital Structure
		CO2: Analyze and Interpret the Volatility and Credit Risk.
		CO3: Elucidate Empirical Issues in International Finance
		CO4: Comprehend the Financial Stochastics issues
	MBA(I)807	CO1A :Understand, Analyze and Implement MS Access basics and perform basic database operation
	MBA(I)808	CO1A :Enhance the student's ability to understand and reason using words, and tests his/her skill rather than learned knowledge.
		CO1B: Learn the basic techniques of syllogism, analytical reasoning and inequality and to implement them
		CO2: Analyze information in order to evaluate evidences and communicate inferences.
		CO3 :Learn cube and cuboidal formulae and implement its dimensional properties.
		CO4 :Learn cube and cuboidal formulae and implement its dimensional properties.
	MBA(I)809	CO1A :Understand the concept, process, design, tools and techniques of Major Research Project
		CO1B: Apply tools, techniques/methods to assist various functions of management.
		CO2 :Analyze the data collected.

		CO3 :Evaluate the results, interpret and present findings.
		CO4 :Prepare Major Research Report
MBA(I)901		C01: Enhance industry ready skills
MBA(I)1001		C01 :Enhance industry ready skills

BBA

PROGRAMME OUTCOMES	
PO 1	The individual must demonstrate maturity, professionalism and team working skills.
PO 2	The students will have general idea of operations in business.
PO 3	The individual will have specialized skills to deal with areaspecific issues of concern.
PO 4	The individual will be able to apply technological knowhow forbusiness advancements.
PO 5	The individual will be capable of analyzing, investigating and solving critical business issues

Paper Code	CO's
BBA101	CO-1a: Understand the concept & functions of Management and OB.
	CO-1b: Ascertain the types of organization structure, staffing function, and individual behaviour. Control
	CO2: Understanding the concept of attitude, Directing function and its techniques.
	CO3: Analyzing group behaviours and Organizational Control methods.
	CO4: Analyze and apply the management functions in organization.
BBA102	CO-1. (a) Develop the basic understanding of mathematics tools and its usage in business.
	CO-1 (b) Understand the basic tools of statistics and graphical representation of the data.

	CO-2. Evaluate the concept of elementary matrices, inverse and various equations, and Analyze statistical data using measures of central tendency, dispersion, and skewness.
	CO-3. Understand the rate of change in one variable and maxima minima of functions and its terminologies to tackle uncertainty in business.
	CO-4. Construct Index numbers and its use and understand probability and its terminologies to tackle uncertainty in business.
BBA103	CO1a: Develop the skills and qualities required to be a successful entrepreneur.
	CO1b: Understand the theories of entrepreneurship and the challenges faced by women and rural entrepreneurs.
	CO2: Learn about entrepreneurial environment in terms of capital and legal issues along with concept of rural entrepreneurship.
	CO3: Analyze and compare the different funding agencies and financial schemes.
	CO4: Analyze and compare the different entrepreneurial agencies available for the growth of Entrepreneurship in India.
BBA104	CO1 (A): Understand the concepts related to Environment, Ecosystem & Ecology
	CO1 (B): Comprehend the concept of Environmental pollution & Population Explosion and various measures to control it.
	CO2: Analyze the various sources of natural resources and strategies to conserve it.
	CO3: Examining the significance of Bio-diversity and wildlife protection and its role in the preservation of the food chain.
	CO4: Analyze the concept of Disaster Management & Laws related to Wildlife conservation
BBA201	CO1 a To understand fundamental of Business, its nature scopr activities and classification.
	CO1 b To demonstrate forms of Business organization, concept and stages of promotion.

	CO2 To understand location of business and risk associated with business
	CO3 To demonstrate entrepreneurial process and setting up business enterprises.
BBA202	CO1 a: Demonstrate a good understanding about the concept of accounting basic fundamentals and accounts.
	CO1 b: Understand and practice final account preparation.
	CO2: Acquire knowledge about Branch Accounts, Departmental Accounts and Consignment.
	CO3: Understand role of cost accounting in decision making through material and labour costing techniques.
	CO4: Understanding costing techniques according to product category.
BBA203	CO1a: Understand the concept, importance and types of the business environment.
	CO1b: Comprehend with the concept of economy, economic development and government role.
	CO2: Improve knowledge of various laws and industrial policy.
	CO3: Develop understanding of government role in the development and monitoring of businesses through policies and regulations.
	CO4: Learn about business ethics, CSR and its importance.
BBA204	CO 1 A Students will be able to acquire a wide vocabulary and understanding of basic functional grammar and knowledge for reading, writing and spoken language.
	CO 1 B: Students will be able to develop creative and critical writing skills along with developing an interest and appreciation of literary texts.
	CO 2: Students will be able to summarize and synthesize information into a coherent text and develop language competence.
	CO 3: To enable the learners to communicate effectively and appropriately in real life situations.
	CO 4: To understand the skills required to translate different texts and to acquire literary taste to critically Analyze piece of poetry, prose provided.

BBA301	CO1 a Understand the basic terminologies in economics and apply the law of demand for business decision
	CO1 b Evaluate Indian economy with context to national income and industrial policy of India since Independence
	CO2 Analyze the factors of production along with theories of rent, profit & interest
	CO3 Comprehend India's foreign trade and role of foreign direct investment
	CO4 Validate market structure and understand the economy of Madhya Pradesh
BBA302	CO1 a: Understand the basic concepts, importance of marketing and marketing environment
	CO2 b: Learn concepts related to consumer behavior and product decisions
	CO3: Discuss the concept of STP and its significance
	CO4: Comprehend the promotion mix and pricing decisions
	CO5: Understand the application of above concepts
BBA303	CO1 a: Understand the general concepts of operations, product design, plant location, and Layout planning.
	CO1b: Understand and analyze forecasting, work design and measurements.
	CO2: Comprehend capacity planning and scheduling.
	CO3: Discuss aggregate planning and master scheduling techniques
	CO4: Understand the various inventory management techniques and Just in Time production.
BBA304	CO1 a- Understand the basic structure of computer and utilization of software with operating System to perform management task
	CO1 b- Understand and apply the MS Word and Power Point to be used in management for documentation and Presentation
	CO2 - Understand and apply the basics of MS-Excel for management data entry and formatting

	CO3 - Understand and apply the basics of MS-Access to give basic understanding of Data to be stored in live Applications
	CO4 - Understand and Analyze the basics of communication modes and techniques to make better communication in management
BBA401	CO1 a: Understand concept, policies pertaining to HRM
	CO1 b: Understand concept, policies pertaining to SHRM
	CO2:Analyzing different methods and strategies for the acquisition of human resources
	CO3: Evaluating and applying the concepts and methods of performance management and appraisal
	CO4: Comprehend internal mobility & other HR Contemporary Issues in organizations
BBA402	CO1 To understand the Basics of Financial Management
	CO2 To Illustrate the concept of Capital Structure and Interpret types of Leverage
	CO3 To Appraise the Projects by Capital Budgeting Techniques
	CO4 To Demonstrate the Understanding of Working Capital and Dividend Theories
BBA403	CO1 (a) To Understand the basic terms and concepts of Income tax
	CO1(b) To assess the taxable income under the head of Salary, House Property and Profits & gains from business and profession
	CO2: compute taxable income under capital gains and other sources & understand the process of set-off, carry forward and clubbing
	CO3: Discuss the various benefits/ deductions under the Income tax act, 1961 and compute the net total income of an individual
	CO4: Calculate tax liability & perform assessment procedures and file ITR
BBA404	CO1a:To understand about French alphabets and their forms of politeness
	CO1b: To understand about daily vocabulary and paragraph reading
	CO2: To present themselves and helps to enhance oral communication
	CO3: To compare about degrees of adjectives and grammar exercises

	CO4: To understand about basics of the French article and understand the simple dialogue in French
BBA501	CO 1: Gain basic knowledge of the provisions of the Indian Contract Act,1872 in relation to general principles of contract and specific contracts
	CO 2: Acquire knowledge of the drafting of varied agreements and notices, affidavits, bonds and calculations of various kinds of damages under Indian Contract Act, 1872
	CO 3: Understand the laws related to the Sales of Goods Act, 1930 including performance of contract of sale.
	CO 4: Be familiarized with the provisions of the company law
	CO 5: Gain basic knowledge of the provisions of the Negotiable Instruments Act, 1881, types of Negotiable Instruments and the laws related to bouncing of cheques
BBA502MM	CO1a- Understand and evaluate consumer behaviour.
	CO1b-Aquire the knowledge of individual determinants of consumer behaviour
	CO2-To Understand the facets of group dynamics with reference to consumer behaviour
	CO3-Comprehend the communication and consumer decision making process .
	CO4- Evaluate the various model of consumer behaviour
BBA502FM	CO1 a Demonstrate a basic understanding of investments and capital market
	CO1 b Comprehend the measures of risk and return in financial assets and valuation models
	CO2 Analyzing EIC framework and technical indicators and oscillators for market predictions
	CO3 Constructing and portfolio through modern portfolio management models
	CO4 Evaluating investment to develop an optimal portfolio and evaluation of readymade portfoilo through sharpe , treynor and Jensen's models

BA502HRM	CO1: The objective is to enable students to acquire skills in Labour Welfare & Social Security.
	CO2: To understand the ILO.
	CO3: To know about the Social Security measures for Industrial Employees.
	CO4: To learn issues related to the evolution of machinery for labour administration.
	CO5: To know about the employment & training, Provident Fund and related concepts
BBA503	CO1A: Understanding the basic fundamentals of Personality Development to enhance the Inter-personal Communication
	CO1B: Inculcating the soft skills in students for professional arena.
	CO2: Participating and communicating in Business group activities effectively.
	CO3: Enabling students understand the format to prepare effective resume ,cover letter & online offline Personal Interviews for corporate readiness.
	CO4: Evaluating the human values & workplace ethics & culture
BBA601	CO1 Understand the basic fundamentals of strategy, business policy and strategic management.
	CO2 Explain the process of strategic management and demonstrate the skills in strategy building.
	CO3 To come from Part 2
	CO4 To come from Part 2
BBA602MM	CO1: Understand the needs and importance of advertising, models of advertising, and required planning framework for promotional strategy.
	CO2: Analyze the target audience, advertising media, and its effectiveness.
	CO3: Learn about media planning, scheduling, and media decisions.
	CO4: Demonstrate how to do brand management and strategies corresponding to

BBA602FM	CO1 a: Understand the various financial statement to evaluate the financial soundness of the company
	CO1 b:Comprehend the different cash flow models to determine the effect on tax, earning and investment
	CO2: Evaluate additional disclosure statement and the concepts related with corporate governance
	CO3: Analyze the fundamental role of accounting numbers in valuation of entities
	CO4: Formulate the valuation that incorporates the strategic accounting and financial activities of the business activity
BBA602HRM	CO1 a: Understand concepts, parties and bodies related to Industrial relations
	CO1 b: Comprehend the causes and methods for the resolution of industrial disputes also the functions, roles of trade unions in India
	CO2: Identify the significance and need of good disciplinary system and grievance redressal in industries
	CO3: Interpret measures and provisions related to social security and labour welfare
	CO4: Identify the significance of collective bargaining and workers' participation in Industries
BBA603MM	CO1 a: Understand the basics of service marketing and its importance.
	CO1 b: Understand the concept of service marketing mix .
	CO2: Comprehend service marketing strategy with respect to competitive advantage.
	CO3: Discuss the service quality models and their applications.
	CO4: Understand the various aspects of customer relationship with respect to different industrial sectors.
BBA603FM	CO1: understanding the relevance of alternative project appraisal techniques, financial structuring and financing alternative identification of a project, feasibility analysis including market, technical and financial appraisal of a project, and the analysis. elements of social cost-benefit

	CO2: analysing the learning and understand techniques for Project planning, scheduling and Execution Control
	CO3: applying technology tools for communication, collaboration, information management, and decision support and appraisal techniques for evaluating live projects
	CO4: interacting with team and stakeholders in a professional manner, respecting differences, to ensure a collaborative project environment
	CO5: evaluating and appreciating contemporary project management tools and methodologies in Indian context
BBA603HRM	CO1 a: Understand concepts and Methods of Performance management and Appraisal
	CO1 b: Comprehend Developmental, technological and ethical aspects of performance management
	CO2: Analyze different methods of job evaluation
	CO3: Understand several performance incentives and benefits
	CO4: Understand prevailing wage system in India and the regulatory bodies
BBA701	CO1(a) Understand the basics of business Analytics and Data Science with its application for Informed Decision making
	CO1 b- Understand the data collection and management techniques to use data for decision making
	CO2 - Demonstrate the data science project life to utilize data for businesses
	CO3 - Explain the concept of Machine Learning and Data Mining to utilize data for informed decision making
	CO4 - Understand and analyze the application of analytics in different domain.
BBA702MM	CO1 a: Understand the importance of advertising and advertising models
	CO1 b: Understand the different aspects of advertising such as layout, copy, appeal, budget ect
	CO2: Discuss the various procedures related to media planning and scheduling

	CO3: Understand the basic concepts of brand management and processes.
	CO4: Comprehend the brand designing and implementation strategies.
BBA702FM	CO1 A To Understand various concepts of Merchant Banking Services.
	CO1 B To Understand various concepts of Issue Management.
	CO2 To analyze the concept of Leasing and Hire Purchase
	CO 3 To Demonstrate the concept of Venture Capital.
	CO4 To Evaluate the Credit Rating system among various Financial Organizations.
BBA702HRM	CO1: The students will understand the concept of Talent management and its relevance in organizations.
	CO2: The students will develop the necessary skill set for the application of various Talent issues.
	CO3: Integrate the knowledge of concepts to take correct talent management and talent retention decisions
	CO4: They will understand planning for acquiring and retention of talent management
	CO5: Students will understand proper strategies for talent engagement and retention
BBA703	CO1: Understand the concept, process, design, tools and techniques of RM.
	CO2: Apply tools, techniques/methods to assist various functions of management.
	CO3: Analyzes the data collected.
	CO4: Evaluating the results, interpret and present findings.
	CO5: Preparing research report
BBA801	CO1 a: Understand about the various statistical software's
	CO1 b: Learn the data entry, descriptive statistics and normality
	CO2: Understand the testing of hypothesis and non-parametric tests
	CO3: Learn to apply correlation & regression and its application
	CO4: Understand the concept and application of multivariate analysis

BBA802	CO1 a: Understand about the various statistical software's
	CO1 b: Learn the data entry, descriptive statistics and normality
	CO2: Understand the testing of hypothesis and non-parametric tests
	CO3: Learn to apply correlation & regression and its application
	CO4: Understand the concept and application of multivariate analysis

BTM

PROGRAMME OUTCOMES	
PO 1	Apply knowledge of tourism concepts along with the management theories and practices to solve business related problems in tourism domain
PO 2	Contextualize tourism within broader cultural, environmental, political and economic dimensions of society.
PO 3	Foster analytical and critical thinking abilities for data-based decision making
PO 4	Ability to develop value based Leadership ability
PO 5	Ability to understand, analyze and communicate global, economic, legal, and ethical aspects of business
PO 6	identify and understand how new ideas, concepts or products emerge within relevant fields
PO 7	communicate key ideas in written texts and oral presentations
PO 8	Critique tourism practices for their implications locally and globally.

Paper Code	CO's
BTM101	CO1:Understand the concept of tourism, basic about tourism industry.
	CO2:Access and appropriately disseminate accurate and detailed product knowledge and destination information about different types of tourists.
	CO3:Develop on going professional development strategies and plans to enhance industry knowledge and leadership skills for tourism industry sectors.
	CO4:Evaluate about the different stakeholders and relevant agencies in the tourism industry and how these stakeholder plays their functions.
BTM102	CO1:Understand the concept of management, its levels and functions.
	CO2:Determine the managerial roles and skills, with special attention to managerial responsibility for effective and efficient achievement of goals.
	CO3:Understand the planning process, its types and various decision making models.

	CO4:Ascertain the nature of organization structure, and its different types explaining span of Control.
	CO5:Understand directing principles, its components and apply the control methods.
BTM103	CO1:The students will understand the concepts,classification,and nature of tourism.
	CO2:The students will understand the cultural heritage of the country and festivals of India.
	CO3:They will come to know how tourism and conservation can go hand in hand.
	CO4:They will come to know about national parks and patterns of India.
BTM104	CO1:Explain the concepts and use equations, formulae and mathematical expressions and relationships in a variety of contexts to find function values(outputs) for specified inputs.
	CO2:Analyse and demonstrate mathematical skills like identifying the things with respect to time and understanding their constraints.
	CO3:Apply the knowledge in mathematics(matrices) in solving business problems.
	CO4:Demonstrate knowledge of the importance of the Central Limit Theorem (CLT) and its applications as well as will be able to Use correlation and simple/multiple regression models to Analyzes the underlying relationships between the variables.
	CO5:Understand the concept of probability and its applications in a business context.
BTM105	CO1:Enhance knowledge and skills on the various associations including trends and contemporary issues in the travel industry.
	CO2:Demonstrate about the various state tourism boards influencing the tourism industry including setting up of travel agencies and legal aspects in travel and tour operation.
	CO3:Develop knowledge and skills of tour operator's products which includes travel, transfer and accommodation planning.
	CO5:Get equipped then with the skills of how to manage tour and travel related procedures and
BTM106	CO1:Gaining in-depth knowledge on ecology, ecosystem and different ecological pyramids.
	CO2:Demonstrate an integrative approach to environmental issues with a focus on sustainability.
	CO3:Use critical thinking,problem-solving,and the methodological approaches of the social science, natural sciences and humanities in environmental problem solving.

	CO4:Develop skills essential to Analyzes the use of secondary data in assessing the transitional marketing opportunities.
	CO5:Understand and evaluate the global scale of environment problems.
	CO6:Reflect critically on their roles ,responsibilities and identities as citizens, consumers and environmental actors in a complex, interconnected world.
BTM201	CO1:Gaining in-depth knowledge of history of travel agency, nature ,and form of travel.
	CO2:Builds an understanding of functions performed by the Travel agency and tour operator.
	CO3:Comprehends the foundation and organization structures of travel agencies.
	CO4:Build an understanding of a few important international conventions.
	CO5:Understand and evaluate the legal aspects needs to understand for opening a travel agency.
BTM202	CO1:To build up an understand about the conceptual background of double entry system and principles of accounting.
	CO2:Comprehend methods of calculating depreciation charges and to identify the factors to be considered when choosing a depreciation method.
	CO3:Develop the ability through the creation of statements of account for a sole trader/proprietor by making trading account, profit and loss account and balance sheet.
	CO4:Differentiate and assess the various provisions of maintaining accounts of Branch & Departmental ,Consignment & Joint Ventures.
	CO5:Know about the accounting of non-profit making organizations and discriminate it with their profit making organizations.
BTM203	CO1: The students will be knowing about the concept of Geography and its essential background, against which tourism places are created and environmental impacts and concerns are major issues, that must be consider in managing the development of tourism places.
	CO2:The students will be analyzing the impacts generated by tourism and also be able to understand how to plan air itinerary.
	CO3:The students will be measuring and calculating different time zones and tourism.

	CO4: The students will be measuring and calculating different time zones and tourism patterns. The students will be evaluating tourist potential and the prospective analysis of exploiting it.
BTM204	CO1: Get acclimatize with all working of airports, hub and stations.
	CO2: Explain all the terminologies and functions related to aviation and air cargo.
	CO3: Demonstrate safety and security protocols while handling of air cargos.
	CO4: Explain the interrelationship between tourism and transport.
	CO5: Handle the threats to aviation successfully
BTM205	CO1: Demonstrate a good understanding of various software used in business analytics and other related activities.
	CO2: Develop and in-depth understanding of how the statistical data is used using Statistical Software and spreadsheets.
	CO3: Display a better understanding statistical tools and performing them using popular software like SPSS and MS Excel.
	CO4: Analyzing data looking at different situations i.e. object oriented analysis.
	CO5: Perform the multivariate statistical tools and writing their interpretations.
BTM206	CO1: To objective of this adventure camp is to expose students with the practical aspect of organizing and managing the travel dimensions. Along with this the students will gain professional heights in core activity associated with the camp like skiing water sports etc.
BTM301	CO1: Examine and discuss the key concepts and principles of marketing as applied to destinations and the tourism experience.
	CO2: Demonstrate an evaluative understanding of current issues associated with destination marketing.
	CO3: Access, examine and assess the effectiveness of marketing strategies applied to tourism.
	CO4: Engage in tourism and marketing research and inquiry to inform strategic decision making and problem solving.
	CO5: Demonstrate the application of tourism marketing strategies in practical scenario.
BTM302	CO1: Realize the various Laws and Regulations relevant for the tourism industry.

	CO2:Discuss the importance of consumer rights and issues related to them in tourism industry.
	CO3:Illustrate the principles of Negotiable Instruments in the tourism industry.
	CO4:Categorize the multidimensional aspects of the Environment Protection Act 1986 and its impact on Tourism Industry.
BTM303	CO1:Understand individual behavior in organizations, including attitudes ,job satisfaction ,emotions,personality,values,perception,decision making and motivational theories.
	CO2:Understand group behavior in organizations ,including communication ,leadership, power and politics ,conflicts and negotiations.
	CO3:Understand the organizational system, including organizational structure, culture and human resources and change.
	CO4:Apply the concepts in organizational settings.
BTM304	CO1:Undersatnd history of Touring Guide.
	CO2:Learning professional aspect of tour Guiding.
	CO3:interpretation techniques and infrastructure.
	CO4:Prepare for the tour and coordinate with travel agent and tour operator along with escorting the tourists.
	CO5:Maintain customer-centric service orientation and required standard of etiquette and hospitable conduct activities enabling them to become effective manager.
BTM305	CO1:Hotel and Hospitality Knowledge: Apply the knowledge of the hotel, hospitality and tourism, and a core area specialization to the solution of complex hotel management problems.
	CO2: Demonstrate functions to the Front Office Department with an understanding their operational processes.
	CO3:Describe the importance of housekeeping department and its roles in the hospitality sector.
	CO4: Learning about fuels and cooking methods. professionalism and basic knowledge of Indian cokery.
	CO5:Apply the concepts and skills necessary to achieve guest satisfaction.
BTM306	CO1:Develop the knowledge of French Language among the students.

BTM401	CO1: Understand the concept and different subsystems of Human Resource Management.
	CO2: Interpret the dimensions of human resource management, with particular reference to HRM policies and practices.
	CO3: Contribute to the implementation and evaluation of plans related to employee recruitment, selection, retention, and appraisal processes in an organization.
	CO4: Evaluate and implement employee training and development programs.
	CO5: Comprehend the compensation concept and design rationally the salary and compensation structure.
	CO6: Handle employee issues and understand the new trends in HRM.
BTM402	CO1: Understanding basic knowledge on scope, nature concepts, significance, role and responsibility of managerial economists.
	CO2: Analyze demand and its related concepts.
	CO3: Research and analyze price and output determination under different market forms.
	CO4: Evaluate the relationship between input and output in short and long period under production functions.
	CO6: Examine and analyze the different phases of business cycle and methods of demand forecasting in economic analysis.
BTM403	CO1: Demonstrate a good understanding of origins and basic layout of computers along with its influence on society and tourism industry.
	CO2: Develop and in-depth understanding of how data is represented inside a computer and basic hardware components of a computer.
	CO3: Display a better understanding of computer memory and various storage devices.
	CO4: Build a conceptual understanding of different types of software.
	CO5: Effectively illustrate the hands-on knowledge of MS-word, MS-Excel, and MS-PowerPoint.
BTM404	CO1: Understand the concept of inbound and outbound tourism.
	CO2: Compare different important tourism products across the globe.
	CO3: Analyze the role of government in domestic and international tourism.
	CO4: Recognize the working of National and International Organizations.

BTM405	CO1: Understanding the concept, theories, entrepreneurial competencies and processes of entrepreneurship in small scale enterprises and family business enterprises of tourism industry.
	CO2: Analyzing business environment to start a new venture and orienting the learner towards entrepreneurship as a career option and creative thinking.
	CO3: Preparing business plan and assessing the financial, marketing and technical aspects of project report.
	CO4: Measuring the performance of family owned enterprises.
BTM406	CO1:Develop the knowledge of French Language among the students.
BTM 501	CO1: Understand the basics of computer networks, use of information systems in hotel & Tourism Industry
	C02: Learning the usage of software packages through hands-on sessions and basics of Database Management Systems.
	C03: Learning the use of multimedia technology and related of software.
	C04: Demonstration and understanding of Ticketing and related software
BTM 502	CO1: The students will be developing an appreciation of the contributions made by history to the total heritage of mankind and conceptual knowledge about Ancient Travel Era along with diversified culture and heritage of India
	C02: The learner will be knowing with the rich culture and historical aspects of India for the purpose of promoting tourism and national interests
	C03: The students will be equipping with a positive attitude towards living culture, performing culture and culture heritage of India and also developing and will harness the rich Historical and Culture heritage.
	C04: The learner will be categorizing and comparing about the multispecialty of Indian societies and unification and diversification of India.
	C05: The students will be understanding and evaluating the mutual interaction with different culture and also examine the Indian allegories.
BTM 503	CO1: Gaining in-depth knowledge of The airline system comes under different governing bodies like IATA.
	C02:Understanding the characteristics of the Airline industry and its characteristics

	C03: Develop an understanding of security, navigation, and traffic control.
	C04: Learning about Airlines ticket system , Fare construction , and general rules/ regulation follow by airline system
	C05: In depth knowledge of around the world fare-special fare system and overview about the Haul system of airlines.
BTM 504A(Elective-A)	CO1: Comprehend the concept of destination management.
	C02: Plan tourism activities and perform project feasibility study.
	C03: .Apply concept of destination life cycle in destination planning.
	C04: Define and comprehend various types of tourisms.
	C05: Identity and comprehend and in tourism
BTM 504B(Elective-B)	CO1: Develop the understanding about health tourism, its origin , and development over the ages.
	C02: Learning about the concept of Ayurveda and wellness tourism.
	C03: In depth knowledge the typology of various wellness products in India.
	C04: Identify various issues related to development of wellness tourism in India.
	C05: Know about various centers that offer products related to wellness tourism and understanding the linkages between Yoga and wellness tourism.
BTM505A(Elective A)	CO1:Develop the understanding of a different aspect of tour leadership, the importance of tour manager.
	CO2:Learning about the Pre-tip duties done by trip organizers and get to know about the documentation of the tour.
	CO3:In-depth knowledge of the roles and responsibilities of a tour manager
BTM 505B(Elective-B)	CO1: Memorize the concepts and Principle of photography.
	C02: Explain the concept of camera and its composition in various environment .
	C03: Apply different sense of colour, composition and location in photography
	C04: Examine the digital workflow and photo editing software essentials.
	C05: Evaluate the photography travelogues
	C06:Synthesis the pitch content effectively.
BTM601	CO1:Understand the managerial and operational aspects pertaining to the MICE industry.
	CO2:Evaluate the economic and social impacts generated by the MICE industry.
	CO3:Acquire in-depth knowledge of techniques and strategies required for the successful planning, promotion ,implementation and evaluation of special events within the MICE context.

	CO4:Analyze and manage the risks associated with MICE industries.
	CO5:Recognize the key trends, developments ,challenges and opportunities affecting event industry.
BTM602	CO1:The students will be understanding with concept of tour designing and developing tour itinerary.
	CO2:The learner will be emphasizing on analyzing application for making an itinerary.
	CO3:The learner will be applying and imparting better use of the tools for estimating a perfect cost with dynamic packages.
	CO4:The students will be measuring and comparing the costing and rates for making better itinerary.
	CO5:The learner will be evaluating and knowing about necessary to prepare cost effective itinerary for both company and target customer.
BTM603	CO1:Understand the concepts of data mining and its application to the tourism and hospitality sector.
	CO2:Understand the importance of data mining in social media, getting up to lead user for innovative ideas.
	CO3:Learn the pivotal role of data visualization and how to represent the data in interactive manner.
	CO4:Link industry with sentiment related to product using web analytics.
	CO5:Learn basic mathematics of hotel by STR reports and the terminologies also.
BTM604A(Elective-A)	CO1:Understand the various topologies of tourism and decision making process in tourism.
	CO2:Understand the role of DMOs and other stakeholders in tourism.
	CO3:Research to resolve tourism marketing related issues.
	CO4:Design,implement and evaluate marketing strategies for destinations.
BTM605A(Elective-A)	CO1:Learning and knowing about the various man made scenic attractions in Asia and Europe.
	CO2:Analyzing the information regarding inbound and outbound tourism destinations.
	CO3:Demonstrate the understanding about the geography and resources of North America.

	CO4:Analyze the various tourist resources and circuits of India.
BTM605B(Elective-B)	CO1:Understanding the concept of rural tourism and its relevance in employment generation.
	CO2:Determining the Characteristics and classifications of rural tourism.
	CO3:Knowing the significance of rural tourism for social structure ,quality of life and livelihood.

	CO5:Knowing the rural tourism destinations in Madhya Pradesh.

BCOM(H)

PROGRAM OUTCOMES	
PO 1	Apply knowledge of accounting and management theories and practices to solve the business problems
PO 2	analytical and critical thinking abilities for Business decision making
PO 3	Ability to understand Accounting career skills by applying both qualitative and quantitative knowledge in real Business Situation.
PO 4	acquires and develop the skills like effective communication, decision-making, and technical skills in order to solve day-to-day Banking & business affairs.
PO 5	Students will Demonstrate Progressive affective domain development of values, the role of accounting in society and business.

Paper Code	CO's
BCOM(H)101	CO1 (A): Understand the concepts related to Environment, Ecosystem & Ecology
	CO1 (B): Comprehend the concept of Environmental pollution & Population Explosion and various measures to control it.
	CO2: Analyze the various sources of natural resources and strategies to conserve it.
	CO3: Examining the significance of Bio-diversity and wildlife protection and its role in the preservation of the food chain.
	CO4: Analyze the concept of Disaster Management & Laws related to Wildlife conservation

BCOM(H)102	CO1(a):To Understand the Basics of Micro Economics and Economy
	CO1(b):To Analyze the Concept of Utility, Budget Line and Indifference Curve
	CO2: To Comprehend Demand and Supply Theories and its Elasticity
	CO3: To Understand the Production Function and its types
	CO4: To Analyze Market Structure using cost and revenue concept
BCOM(H)103	CO1(a): Understand the characteristics, process, role, types, barriers, inter-personal & intra-personal communication, 7 C's of communication in an organization
	CO1(b): Understand what is non-verbal communication, various components of NVC & Role of Technology-enabled communication
	CO3: Role of Technology-enabled communication
	CO4: Understand the different parts & formats of business letters as well as types & formats of Report
BCOM(H)104	CO1(a): Develop an understanding to key terminology, concept of double entry system and principles of accounting.
	CO1(b): Apply the knowledge for preparation of final accounts of sole trader and solve problems relating to depreciation of assets.
	CO2: Illustration and analysis of various methods of accounting for branches and department.
	CO3:Assess the various conditions of maintaining accounts of non-profit making organisation and royalty accounts.
	CO4:Formulate the accounting of single entry system and Consignment accounts.

BCOM(H)105	CO1a: Understand the meaning and essentials of contract and the different ways of performance and remedies available in case of breach of contract
	CO1b: Learn about Indemnity Guarantee and Bailment also learn about the creation and termination of the contract of agency
	CO2: Generate awareness of law related to sales of goods and the unpaid seller and rights, Duties of Buyer and Seller
	CO3: Develop the approach towards partnership firm and how to dissolved a firm and Limited liability Partnership
	CO4: Understand and Analyze the different provision related to negotiable instruments and Dishonour of Cheque
BCOM(H)106	CO1. Understand the concept of elementary mathematics and its applications.
	CO2. Demonstrate the concept of Linear programming problems and its applications in business and economics.
	CO3. Evaluate the concept of elementary mathematics, determinants, inverse of matrices, and various equations.
	CO4. Apply Cramer's rule to solve the system of linear equations, calculus on functions of single variable.
BCOM(H)107	CO1a: Understand the fundamental concept of computer and evolution of computer.
	CO1b: Explain the need of hardware and software requires for a computation task.
	CO2: Understand the use Memory hierarchy and uses to run Business Application
	CO3: Demonstrate the use of system software, application software to solve Business Problem

	CO4: Demonstrate the use of internet and working of internet, working of search engines to collect data.
BCOM(H)201	CO1(a):To understand the basic of English Grammar.
	CO1(b): To enhance the vocabulary for competitive exams & to develop an acumen towards literary comprehension
	CO2: To develop writing skills on topics of Gen. Interest & understanding of literary text
	CO3: To develop analytical skills, creative writing & comprehension of popular English Essay
	CO4: To inculcating critical reading& appreciation of literary texts so as to imbibe human values
BCOM(H)202	CO1(a): To Understand Different School of Thoughts of Macro Economics to apply in economic decision making
	CO1(b): To Demonstrate a way to measure concepts of national income and its related measure
	CO2: To Examine the GAP between theory of money and the present concepts of money along with concepts of supply of money
	CO3: To Analyze determinants of consumption and investment in the macroeconomic environment
	CO4: To Evaluate in-depth causes of unemployment and inflation and apply remedies over them in economic policy
BCOM(H)203	CO1(a): To understand Fundamentals of basic accounting
	CO1 (b) : To Develop the knowledge of tally's features
	CO2: To develop the understanding of stocks groups and managing inventory of an organization
	CO3: Apply GST & TDS rules practices in real business
	CO4:To Create and Analyze the different MIS Reports for managerial decision makings

BCOM(H)204	CO1 A: Understand the formation and classification of Companies including National Company Law Tribunal.
	CO1 B: Acquaint with the principles of Memorandum, Article and Prospectus.
	CO2: Study the provisions related to Management of company including the Directors.
	CO3: Evaluate the rules related of Dividends, Audit and Winding up of a company.
	CO4: Develop the concepts related to Depositories Laws
BCOM(H)205	CO1a: Understand Company, its formation, registration, incorporation, its types and different functionaries, and winding up and its provisions.
	CO1b: Prepare and importance of Memorandum of Association, Article of Association and Prospectus
	CO2: Understand the Management of company and all the key committees, positions and their respective roles.
	CO3: Interpret provisions of Dividends, its payments, Books of accounts and Audit.
	CO4: Understand The Depositories Act 1996 for the proper function of Company
BCOM(H)206	CO1(a): Understand the fundamentals of information management and the impact of information technology (IT) on business for decision making.
	CO1(b): Analyze what modern managers need to understand about their organization, employees and technology.
	CO2: Explore the use of information for different levels of management like operational, tactical and strategic benefits.

	CO3: Understand the software development model to help in developing MIS in organization.
	CO4: Explain the use of MIS in various functional areas like Manufacturing, marketing, Quality, financial and accounting.
BCOM(H)207	CO1a: Understand the use of MS-Word
	CO1b: Understand and Analyze the data using MS-Excel
	CO2: Creating and Presenting the chart after analysis the data
	CO3: Demonstrate and Present the business problems and their solutions
	CO4: Understand the Fundamental concepts of MS -Office
BCOM(H)301	CO1a Describe and discuss the key terminology, concepts, tools and techniques used in business statistical analysis.
	CO1b: Analyze statistical data using central tendency, dispersion, skewness and kurtosis.
	CO2: Use the normal probability distribution including standard normal curve calculations of appropriate areas.
	CO3: Calculate and interpret the simple correlation and regression equation for a set of data.
	CO4: Knowledge about association of attributes and inferential aspects such as test of hypotheses and associated concepts.
BCOM(H)302	CO1(A): Understand the concept of public finance, fiscal finance functions and budgetary procedures and control
	CO1(B): Demonstrate the understanding of revenue and taxation system of central and state governments.
	CO2: Analyze the public debt and expenditure mechanism
	CO3: Acquaint with the monetary and fiscal policies and examine the budgetary framework

	CO4: Appraise the constitution and functions of finance commission and NITI Aayog
BCOM(H)303	CO1a: Understand the concepts, functions and importance of HRM
	CO1b: Evaluate the need of Human Resource and It's acquisitions.
	CO2: Designing the need based employee training and development programs.
	CO3: Evaluate and design performance design and compensation.
	CO4: Demonstrate the ability to handle employee issues and understand the new trends.
BCOM(H)304	CO1a: Establish a firm understanding of the fundamental ideas and rules of income tax.
	CO1b: Analyze the taxable income from house property and business and profession.
	CO2: Determine the taxable income from capital gain, income from other sources and understanding the set-off and carry forward of losses along with clubbing of income.
	CO3: Compute the gross total Income after providing deductions U/S 80C-80.
	CO4: Understand the filing of e-return, assessment procedure, TDS, TCS, advance payment of tax, penalties and interest.
BCOM(H)305	CO1(a): Understand the general concepts of the management.
	CO1(b): Learn and able to demonstrate planning.
	CO2: Understand how to organize the available key resources of the management.
	CO3: Understand the importance of staffing and leadership in effective management.
	CO4: Learn the basic concepts of control and how to use controlling techniques for effective control.
BCOM(H)306	CO1a: To familiarize students with concepts and theories of international trade, International finance & Balance of Payment for India.
	CO1b: To demonstrate the knowledge of International Monetary system and BoP Accounting.

	CO2: To identify the functions of foreign exchange market, and demonstrate the understanding of concepts and risk associated with exchange rates & evaluate the theories of exchange rates.
	CO3: To explain the concepts of Offshore financing and Foreign Direct Investment & methods of Trade Financing.
	CO4: To appraise the International Portfolio Investment and Multinational Financial system for decision making.
BCOM(H)307	CO1a. Understand the basic concepts related to insurance and risk management.
	CO1b. Interpreting the various types of insurance contracts.
	CO2. Applying insurance knowledge for business safety.
	CO3. Analyzing the various insurance legislations in India.
	CO4. Evaluating the risks involved in business and its prediction
BCOM(H)401	CO1a: To impart knowledge relating to Indian economy and its features
	CO1b- To analyze Import substituting industrialization, economic reforms
	CO-2 To frame policy related to industries will enable informed participation in economic decision making,
	CO-3 To understand government policy related to service and trade
	CO-4 To understand concept of service and trade and its performance
BCOM(H)402	CO1(a). Understand the Concepts, Functions, Management and Problems related to Entrepreneurship
	CO1(b). Identify the steps involved in the business project proposal and its evaluation
	CO2. Understand the Role of Regulatory Institutions and Development Organizations

	CO3. Analyze the Financial Management for Project
	CO4. Identify the need and Problems of an Entrepreneur.
BCOM(H)403	CO1a: Equip with basic knowledge of cost accounting.
	CO1b: Apply various techniques of inventory, material and labour cost management.
	CO2: Demonstrate cost sheet preparation for business tenders.
	CO3: Understanding of process costing and reconciliation of cost accounting with financial statements.
	CO4: Acquire knowledge about operating and job costing methods.
BCOM(H)404	CO1(a): Understand the key terminology, concepts, tools and techniques used in operations research.
	CO1(b): Apply techniques used to derive the optimal solution for standard LP and its formulation, transportation and assignment problems.
	CO2: Evaluate EOQ model, project network, queuing and replacement problems.
	CO3: Advise functional decision makers using results from mathematical models.
	CO4: Display knowledge about variations in statistical quality control and quantify them.
BCOM(H)405	CO1a: Understand the function of computer system and Software.
	CO1b: Handle document creation and presentation for communication
	CO2: Use of spreadsheet in business application
	CO3: Understand database designing for accounting and business application
	CO4: Understand various concept use in network and internet

BCOM(H)406	CO1a: Understanding the basic concepts of social accounting by conducting social audit and reporting.
	CO1b: Prepare and assess final accounts of life and general insurance companies.
	CO2: Analyze the role of inflation accounting and methods of evaluation
	CO3: Understanding farm accounting of transactions.
	CO4: Understanding investment accounting.
BCOM(H)407	CO-1(a): Understand and Acquire the key concepts of database management System and role of DBA in Business
	CO-1(b): Understand, design and develop the concept of ER-Model to create RDBMS
	CO2: Demonstrate and apply the concept of integrity rules and normalization to create enterprise database
	CO-3: Understand and Execute various advance SQL queries related to relational algebra.
	CO-4: Analyze and Demonstrate the concept of transaction and Distributed Database
BCOM(H)501	CO1a: Develop a fundamental understanding of tax planning in reference to residential status and agricultural income.
	CO1b: Apply critical thinking and problem solving skills related salary income and to understand how to develop efficient pay packages.
	CO2: Analyze tax planning strategies in relation to house property and understand the presumptive scheme of taxation of computing business income.
	CO3: Evaluate the capital gain tax and tax planning in respect of gift.

	CO4: Identify deductions to reduce taxable income and apply rebates to reduce tax liability.
BCOM(H)502	CO1(a): Demonstrate an elementary knowledge of Grammar elementary French.
BCOM(H)503	CO1a: Understand the fundamentals and application of research.
	CO1b:2 formulation of research problem and hypothesis through review
	CO2:design the outline of research
	CO3: Analysis and Application of research
	CO4: interpretation and communication of research outcome
BCOM(H)504	CO1a: Demonstrate a good understanding of concepts, goals and functions of financial management.
	CO1b: Analyze capital budgeting process by capital budgeting techniques for analyzing long term projects.
	CO2: Compute cost of capital and familiarize with various capital structure theories.
	CO3: Acquaint practicality of leverage and examine various theories of dividend with factors affecting dividend policy.
	CO4: Familiar with the concept of working capital and its management.
BCOM(H)AF502	CO1(a): Understand the meaning and scope of financial markets, institutions as well as services in India
	CO1(b): Describe the framework and structure of Indian Financial Markets
	CO2: Demonstrate the understanding of financial institutions and examine the recent developments in India.
	CO3: Appraise the existence of financial services in India.
	CO4: Display understanding of fund based and fee based services.

BCOM(H)AF503	CO1a: Differentiate between various tax planning concepts and understand the procedure of assessment of corporate assesses.
	CO1b: Devise strategies for tax planning in respect of a new business, understand the specific tax issues for start-ups, and comprehend the Income Tax provisions relevant for financial management decisions.
	CO2: Decipher the different business conditions in specific managerial decisions for tax benefits.
	CO3: Recognize the tax benefit provisions for international business conditions.
	CO4: Analysis tax planning with reference to business restructuring.
BCOM(H)AF504	CO1a: Understand the basic concept of network and basic protocols used in network communications
	CO1b: Understand the working of search engine and email
	CO2: Understand the foundation and importance of Ecommerce
	CO3: Analyze the impact of Ecommerce on business models and strategy
	CO4: Discuss legal issues and privacy in Ecommerce
BCOM(H)BA501	CO1(a): Understand basic concepts of quality management
	CO1(b): To develop an understanding of basic tools for solving quality problems.
	CO2: To develop understanding of quality circle and other advanced tools for solving quality problems
	CO3: To understand behavioral aspects of quality management.
	CO4: To comprehend quality assurance implementation and contemporary issues in quality management
BCOM(H)BA502	CO1a: Understand the social, cultural and ethical aspects in global issues.

	CO1b: to understand the HR planning for international workforce
	CO2: to design performance appraisal criteria for international scenario
	CO3: discuss training and development needs and techniques for employees
	CO4: Demonstrate the knowledge of International industrial relations
BCOM(H)BA503	CO1a: Understand the concepts of supply chain management
	CO1b: Analyze the Network Design and Logistics Management of a firm
	CO2: Learn the concepts of Purchasing and Vendor Management.
	CO3: Understand the Inventory Management and related concepts.
	CO4: Learn and understand the key issues of IT in SCM
BCOM(H)BA504	CO1a: Understand the concept of Industrial Relation.
	CO1b: Comprehend the various aspects of Trade Union.
	CO2: Understand the role and applicability of bargaining and participative management.
	CO3: Report the aspects of industrial grievances and its resolution.
	CO4: Outline the provisions of industrial disputes and factories act.
BCOM(H)ABE501	CO1a: To Understand the Concept of Business Environment, Environmental Scanning, and Economy
	CO1b: To Analyze the Competition Act, Stock Exchange, SEBI Act, Consumerism, Consumer Protection Act
	CO2: To Understand the Concept of Business Environment, Environmental Scanning, and Economy
	CO3: To Demonstrate the Concept of MSME
	CO4: To Analyze and apply the Concept of GST
BCOM(H)ABE502	CO1a: Understanding basic concepts of mergers and acquisitions.

	CO1b: Acquaint with regulatory environment and its impact on the planning and execution of M&A transactions
	CO2: Understanding basic concepts of takeover.
	CO3: Know the corporate restructure strategies.
	CO4: Demonstrate the concept of International Mergers and Acquisitions as well as key issues therein.
BCOM(H)ABE503	CO1a: Explain, analyze and predict factors and determinants of Industrial Growth and development
	CO2b: Analyze the different forms of business organization and their motives respectively
	CO2: Analyze Regional disparity and development policies in India
	CO3: Examine competition policy and its features in the India
	CO4: Evaluate industrial growth after independence to and now
BCOM(H)ABE504	CO 1(b): Evaluate how agro based industries helps in rural infrastructure and Economic development
	CO2: Assess India's agrarian relations and land reforms
	CO3: Evaluation of technical changes in Agriculture
	CO4: Analyze the growth of agriculture sector in India
BCOM(H)IB501	CO1a: To disseminate fundamentals of international business with respect to foreign trade/international business
	CO1b: To understand business environment at different levels
	CO2: Analyze the principle involved in international marketing mix
	CO3: To acquire knowledge of theories of international trade
	CO4: To understand and evaluate International economic institutions
BCOM(H)IB502	CO1a-Gain understanding of International Trade Operations through Model , Barriers of International trade .
	CO1b-Comprehending the Causes of Disequilibrium.
	CO2-Determining various regional trade integrations

	CO3-Multinational Cooperation and its effect on Indian Culture and develop the understanding of foreign direct investment.
	CO4-Current trends across the world
BCOM(H)IB503	CO1(a): Understand and implement the functions and concepts of Logistics.
	CO1(b): Implement information system for forecasting logistical processes.
	CO2: Take decisions associated with selection warehouses and modes of transportation.
	CO3: Select and implement best practices for containerization and packaging.
	CO4: Select best way to ship the package using most feasible mode.
BCOM(H)IB504	CO1(a): Explain the concepts in custom clearance in international business with respect to foreign trade
	CO1(b): Apply the current documentation phenomenon and to evaluate the global business environment in terms of economic, social, and legal aspects
	CO2: Analyze the principle of international payments and incoterms
	CO3: Integrate concept in custom clearance concepts with the functioning of global trade
	CO4: demonstrate the role of various Exim associations in failing subsidies and credit facility.
BCOM(H)BI501	CO1a: Understand the basic concept of network and basic protocols used in network communications
	CO1b: Understand the working of search engine and email
	CO2: Understand the foundation and importance of Ecommerce
	CO3: Analyze the impact of Ecommerce on business models and strategy

	CO4: Discuss legal issues and privacy in Ecommerce
BCOM(H)BI502	CO1a: Understand the concept and working of development banks in India
	CO1b: Analyze the function and importance of different development banks and subsidies provided to SME's
	CO2: Comprehend the methods adopted by banks to deliver their services
	CO3: Understand the working of back office operations and importance of CRM in banking
	CO 4: Review the interbank payment system and digital money transfer used in banking
BCOM(H)BI503	CO1 a: Explain insurance business, legal framework of insurance laws and regulations and insurance business environment in the country.
	CO1 b: Understand about the conduct of Insurance Business in India
	CO2: Evaluate various types of Insurance and financial environment's effect on the growth of Insurance.
	CO3: Analyze the Legal aspects related to insurance sector in India.
	CO4: Develop the knowledge of the global insurance environment
BCOM(H)BI504	CO1a: Comprehend the concept of E-Banking and Future of E-Banking in India
	CO1b: Understanding Electronic Payment System and outlining the working of Payment gateway system.
	CO2: Analysing the legal issues in E-Banking/Mobile Banking and evaluating Major issues related with cyber security.
	CO3: Summarizing possible solutions/procedures to enhance e-banking/mobile banking security controls

	CO4: Associating knowledge e –builder solution with e-locking techniques.
BCOM(H)EC501	CO1a: Understand the concepts of Digital Marketing.
	CO1b: Illustrate a better understanding of the basics of Internet and its applications to websites and digital businesses
	CO2: Apply the knowledge of Google analytics and Google Data Studio to monitor traffic and achieve the goals.
	CO3: Apply the knowledge of content creation, content management and deployment on social media platforms
	CO4: Develop Google AdWords & create campaigns for Digital Marketing.
BCOM(H)E502	CO1a: Understand the use of E-governance with respect to business
	CO1b: Understand and Analyze the role of cyber security to secure data on internet
	CO2: Analyze and demonstrate the emerging trends of communication technology used in businesses
	CO3: Demonstrate and Analyze the role of MIS data to be used in fact-based business decision making
	CO4: Understand the Fundamental concepts of block chain and cloud computing used for businesses
BCOM(H)EC503	CO1a: Understand the fundament concepts of Cyber and Information Security
	CO1b: Understand cryptography techniques and apply them for secure data communication and authentications
	CO2: Understand Security threats wrt Cyber Security
	CO3: Understand the concept of cyber-crime and digital signature
	CO4: Understand Cyber Laws & offences under IT-ACT

BCOM(H)E504	CO1a: Display a good understanding of the basics of web page structuring and designing
	CO1b: Demonstrate an in-depth understanding of basics of HTML
	CO2: Exhibit the knowledge of basic and advanced elements of HTML
	CO3: Demonstrate the usage of CSS while designing a web page
	CO4: Develop an effective and well-structured website for displaying their personal portfolio
BCOM(H)601	CO1a: Understand the meaning of consumer and know the legal frame work with existing law on consumer protection in India.
	CO1b: Learn about the composition of redressed commission in consumer protection law- District., State and National commission.
	CO2: Awareness of Rights of Consumer and how to file a complaint and appeal with existing law
	CO3: Develop the approach to how to fix liability of product manufacturer, service provider and seller and fix penal liability
	CO4: Understand and Analyze emerging questions and policy issues in consumer law and power of central/ State Governments.
BCOM(H)602	CO1a:To understand Investing Fundamentals principles and provisions.
	CO1b:Develop and explore the knowledge of Stock exchanges in India
	CO2:To Analysis international & domestic economic scenario and use tools for Industry analysis, and Company analysis
	CO3:Identify and evaluate the scope of Technical Analysis
	CO4:Develop understanding about derivative market practices and managing risk by proper investigation of claims.

BCOM(H)603	CO1a: Establish a firm understanding of the various auditing components, particularly those that pertain to internal auditing, internal control, and corporate governance in general.
	CO1b: Examine contemporary changes in the auditing process as well as cost, tax, and management auditing.
	CO2: Recognize the significance of corporate governance to management in businesses.
	CO3: Investigate and review data that led to business fraud and organization failure.
	CO4: Understand the organizational governance framework that is offered by various regulatory agencies in India and abroad and also to learn about the ramifications of various corporate ethics theories and CSR initiatives in India.
BCOM(H)AF601	CO1a: Understand the concept of project, its appraisal, feasibility analysis and the elements of social cost benefit analysis.
	CO1b: Analyze the market to attain the demand and supply of the project.
	CO2: Apply the various tools and techniques of investment appraisal for identifying financial needs of a project.
	CO3: Evaluate the social cost benefit analysis of a project in Indian context.
	CO4: Appraise the project by risk assessment approaches and preparation of project report.
BCOM(H)AF602	CO1a: Understand the concept of Financial Reporting and the different entities Course to Reporting;
	CO1b: Analyzing different financial statement as per companies act.
	CO2: Evaluate the challenges in financial reporting and role of SEBI in IFRS
	CO3: Assess the concept of Asset and Liabilities in accounting

	CO4: Reviewing different financial reports to evaluate the financial health of the business.
BCOM(H)AF603	CO1a: Access the risk associated with different financial investment
	CO1b: Analyze stock returns and risk as EIC framework through technical analysis
	CO2: Apply various technical tools to evaluate fundamental results of the stock.
	CO3: Comprehend different portfolio theories to maximise the returns
	CO4: Reviewing the portfolio performance to manage investment
BCOM(H)AF604	CO1a: Evaluate the procedure to compute total income of a firm, AOP or BOI and its tax determination.
	CO1b: Examine the assessment procedure of HUF and its treatment with reference to partition of HUF.
	CO2: Assess Partnership firm assessed as association of persons and computation of total income
	CO3: Demonstrate the procedure to assessment of companies and explore the concept of MAT and tax on income in certain cases such as royalties, copyrights, literary works etc
	CO4: Analyze different types of returns, determination of advance tax, interest and TDS for tax implications in financing decisions.
BCOM(H)BA601	CO1a: To understand the foundation concepts of compensation management
	CO1b: To comprehend theories and policies pertaining to compensation
	CO2: To understand several components of compensation
	CO3: To acquire the know-how of international compensation system
	CO4: To understand the labour laws pertaining to compensation in India

BCOM(H)BA602	CO1a: Develop ideas for starting new ventures
	CO1b: Able to understand the methods required to start new ventures
	CO2: Comprehend the legal aspects of starting new ventures
	CO3: Able to understand the sources of acquiring capital for start-ups
	CO4: Prepare a business plan for a new venture start or development.
BCOM(H)BA603	CO1 A: Understand the formation of Industrial Jurisprudence and Labour Laws in India.
	CO1 B: Acquaint with the principles of Industrial Dispute Act 1947.
	CO2: Study the provisions related to economic coercion under the Labour and Industrial Laws
	CO3: Evaluate the rules related of Factories act and The employee's provident fund act 1952
	CO4: Develop the concepts related to Social security and welfare legislations in india for workmen and labours.
BCOM(H)BA604	CO1a: Know the development and the judicial setup of Labour Laws.
	CO1b: To comprehend the laws pertaining to resolution of industrial disputes
	CO2: To understand the instruments of economic coercion
	CO3: To comprehend the legislations related to factories, Trade unions and employee provident funds
	CO4: To comprehend the legislations related to wage, Bonus, Gratuity, Compensation and Maternity.
BCOM(H)ABE601	CO1a: Understand the theories of economic growth and growth models.

	CO1b:Evaluate factors determining economic development and its models
	CO2:Analyze various development indicators and sustainable development.
	CO3:Examine the poverty measures taken for alleviation of poverty
	CO4:Corelating the role and contribution of education and health to economic growth and development
BCOM(H)ABE602	CO1a:Understand types and forms of data and how to use them in econometric analysis.
	CO1b:Identify sources of financial data (Bloomberg, Capital IQ, Compustat, Yahoo Finance, etc.) to retrieve necessary data for econometric analysis.
	CO2:Demonstrate knowledge in econometric methods such as regression analysis and Forecasting Models.
	CO3: Help students acquire skills in using computer Software (Eviews, excel) to perform econometric applications.
	CO4:Developing their ability to model the expected mean and volatility in financial data as a means to a more informed assessment of the risk and return associated with different investment strategies
BCOM(H)ABE603	CO1a: To disseminate fundamentals of industrial organization
	CO1b:To demonstrate a good understanding of Market power
	CO2: To Understand significance and fundamentals of Pricing and segmentation
	CO3:To acquire knowledge of the Competition Policy
	CO4:To understand and evaluate strategies of Network goods and intermediated goods markets.
BCOM(H)ABE604	CO1a:Understanding the basics of Environmental Economics, growth and evolution.

	CO1b:Memorize the concept of environmental pollution with aspect to its impact on economy
	CO2:Demonstrate the concept of environmental goods with respect to consumption and demand
	CO3: Illustrate the application of environmental accounting with reference to SEEA and forest resource accounting.
	CO4:Prioritise the concerns of ideal environmental policy
BCOM(H)BI601	CO1a:To understand principles and provisions that govern general insurance
	CO1b:To Analyze Motor Insurance and Fire Insurance and prevailing policies practices and procedures on pricing and claim settlement.
	CO2:Identify and evaluate the scope of marine insurance and Analyze progress and growth of marine insurance business in India.
	CO3:Develop and explore the knowledge of Types of Insurance
	CO4: Develop underwriting practices and managing risk by proper investigation of claims.
BCOM(H)BI602	CO1a:To disseminate fundamentals of banking regulations and reforms
	CO1b:To Demonstrate a good understanding of Central Bank and its operations with particular reference to Developing Economies.
	CO2: To Understand the functions and significance of RBI in India.
	CO3:To acquire knowledge of the banking organizations and their regulatory bodies with their qualifications, rights and liabilities.
	CO4:Examine and Analyze of various banking reports and statements with management of capital funds .
BCOM(H)BI603	CO1a:Understand the role of the marketing function and its application to financial sector.

	CO1b:: Understanding frameworks and implementation of CRM that is helpful in marketing financial products and services
	CO2:To Familiarize various products/services in Banking,and Insurance Understand the practical aspects of marketing of the financial product and services in Mutual Funds
	CO4:Evaluate in-depth causes of financial services and legal issues Marketing of Financial product and services.
BCOM(H)BI604	CO1a:To disseminate fundamentals of Commercial Banking
	CO1b:To Demonstrate a good understanding Deposit and Lending
	CO2: To Understand the functions of Bank Investment and other activities of commercial bank
	CO3:To acquire knowledge of relationship between bank and Customers
	CO4:Examine and Analyze Risk management in commercial banks
BCOM(H)IB601	CO1A: Analyze the critical role of culture and the importance of managing cultural differences.
	CO1B: Understand the influence of culture on different functions of management including communication, negotiation, marketing, leadership, motivation, human resource management and teams
	CO2 Demonstrate improved cross-cultural competence and will be able to perform accordingly.
	CO3: Identify problems in cross-cultural management, and offer solutions to the problem.
	CO4 Acquire an integrative understanding of the ethical and social issues in cross-cultural management and negotiation.
BCOM(H)IB602	CO1a: Understand the concepts of integrity, ethics and law, including how they overlap and how they are different
	CO1b: Learn the International Business laws

	CO2: Analyze a problem involving integrity, ethics and law in the public domain, and create and evaluate solutions
	CO3: Recognize the importance of Ethics in situation analysis in International business
	CO4: Compare the Indian laws with laws of other countries
BCOM(H)IB603	CO1a: Understand the concepts of International marketing & interpret the challenges faced therein.
	CO1b: Outline the method of entering into International Market.
	CO2: Inspect the Product Policy Decisions and understand International Product Life Cycle.
	CO3: Reflect upon the Distribution and Place decisions in International market.
	CO4: Devise Pricing & Promotion strategies while considering Foreign risks.
BCOM(H)IB604	CO1a: Understanding the concept of International Business Environment and Financial System
	CO1b: Learn about Finance Exchange Rate and Risk in International Finance.
	CO2: Understand Parity conditions in International Finance
	CO3: Evaluate benefits of exchange rate patterns for business decision making
	CO4: Analyze Risk and to averse it ethically to for societal development
BCOM(H)EC601	CO1a: Understand the use of MS-Excel to store data to solve business problem
	CO1b: Understand and apply the filter and sorting techniques for business solution

	CO2: Understand and apply the date and time, lookup and logical function to prepare data for the business insight
	CO3: Understand and apply the mathematical, statistical function and pivot table to aggregate and prepare data for the solution of business problem
	CO4: Understand and apply the conditional formatting colour theory and pivot chart for data visualization to make business solution more clear
BCOM(H)EC602	CO1a:perform basic tasks on Vectors, Matrices and Data frames
	CO1b:Describe key terminologies, concepts and techniques employed in Statistical Analysis.
	CO2: Define, Calculate, Implement Probability and Probability Distributions to solve a wide variety of problems.
	CO3:Conduct and Interpret a variety of Hypothesis Tests to aid Decision Making.
	CO4:Understand, Analyze, Interpret Correlation and Regression to Analyze the underlying relationships between different variable.
BCOM(H)EC603	CO1a:Learn what is a database, types of databases
	CO1b:Learn different types of file systems and data models
	CO2: outline ER model concepts and different Data Base Management Systems (DBMS) functions
	CO3:Identify the use of normalization and functional dependency, indexing and hashing technique used in database design"
	CO4:List the concept of transaction, concurrency control and recovery in database
BCOM(H)EC604	CO1a:Understand the Need of Information Security, Attributes of Information Security

	CO1b:understand the need of Authentication, Confidentiality, Integrity, Availability, Non Repudiation.
	CO2: understand Data Encryption techniques and Hashing
	CO3: Understand Security Services, mechanism and attacks
	CO4:understnd Salient Feature of IT Act 2000, Legal Provisions under the Information Technology
BCOM(H)604	CO1a: Understanding basic concepts of Indirect tax system of India.
	CO1b: Apply GST system at intern and intra state level.
	CO2: Acquire knowledge about input tax credit, payment and claiming refund under GST law.
	CO3: Understanding GST assessment, return and GSP eco system.
	CO4: Equip with the basics of custom duty rules and calculations.
BCOM(H)701	CO1 a: Demonstrate knowledge of all aspects of derivative market theory and the roles they play in the financial markets
	CO1 b: Identify how derivative instruments can be used to change or hedge risk and evaluate risks and pay-offs associated with trading such instruments and their implications
	CO2: Understand the basic risk management and trading strategies using futures and options
	CO3: Critically evaluate the clearing mechanism and techniques used to Analyze risk of the portfolio.
	CO4: Evaluate the significance of the usage of Swap transactions.
BCOM(H)702	CO 1 (A): Understand classic financial & Modern theories and several inadequacies in their applicability in the present context.
	CO 1 (B): Analyze different markets Anomalies such as the stock market bubble, the January effect, Day of the week effect which led to the emergence of behavioural finance.

	CO2: Comprehend the concept of behavioural finance and different behavioural biases such as Heuristics, Herd behaviour, Prospect, inattention bias etc.
	CO3: Analyze the impact of different behavioural biases on individual's decision under different market settings
	CO4: Evaluate the causes of market failure due to moral hazard and Adverse selection
BCOM(H)703	CO:1(a): Understand the fundamental concept of data visualisation and functions of data analyst.
	CO:1(b): Demonstrate data visualization using different charts.
	CO:2: understand and apply various visualization tools likes map, tables, slicers etc to create dashboard.
	CO:3: Develop the practical understanding of visualisation using power BI
	CO:4: Develop the practical understanding of visualisation using tableau
BCOM(H)801	CO1a: to understand the concept of IASB and its regulatory framework
	CO1b:to Analyze the elements of financial statements.
	CO2: to understand the different segments of financial statements
	CO3:to demonstrate the presentation of financial statements and additional disclosures
	CO4: to recognise the preparation of external financial reports for different entities
BCOM(H)802	COI(a) :To acquaint the knowledge of different form of corporate restructuring
	CO1(b): To understand the different types , motives and reasons of mergers and acquisitions

	CO2: To summarise the legal provisions of mergers and acquisitions
	CO3: To estimate the important methods of valuation
	CO4 : To assess the issues related to integration
BCOM(H)803	CO1a: Understand the application Univariate and Bivariate tests for comparison of samples
	CO1b: Demonstrate the application of bivariate regression.
	CO2: Examine the usage of multivariate analysis
	CO3: Analyze the applications and interpretations of factor analysis
	CO4: Evaluate the results of Discriminant, Cluster and conjoint analysis after application

BCA

PROGRAM OUTCOMES	
PO 1	Acquire Knowledge of mathematical foundations, computer application theory and algorithm principles in the design and modelling of computer based system.
PO 2	Understand to design, analyze and develop solutions and evaluate system components/processes to meet specific need for various domains.
PO 3	Create, select, adapt and apply appropriate technologies and tools to a wide range of computational activities while understanding their limitations
PO 4	Communicate effectively by being able to comprehend effective documentation and presentations.
PO 5	Ability to engage in independent learning for continuous self- development as a computer application professional.

Paper Code	CO's
BCA101	CO-1: Understand the programming concepts.
	CO-2: Develop the logic of programs.
	CO-3: Use of Different Control Structure.
	CO-4: Understanding the Array, Structure and user-defined function.
	CO-5: Tracing the execution of program for better understanding.
BCA102	CO-1: Identify various components of computer and their interconnection.
	CO-2: Understand the concepts of logic gates, Different Digital Circuit.
	CO-3: Use of the data representation technique.
	CO-4: Compare and select various Memory devices.
	CO-5: Understanding the various types of IO mapping techniques.
BCA103	CO-1. Understand the key concept of propositions, set, relation and function and its operations.

	CO-2. Construct truth table of any compound proposition and use logically equivalent statements.
	CO-3. Evaluate Boolean algebra expressions and functions; algebraic representations of the functioning of logic gates.
	CO-4. Simplify the Boolean expression representing circuits.
	CO-5. Demonstrate graph, path, cycles, complement of a graph, trees and its types
	CO-6. Knowledge about representing matrix, operations on matrix and to solve system of linear equations using rank.
BCA104	CO-1. Enhance the learner's communication skills by giving adequate exposure in listening, speaking, reading and writing skills and the related sub-skills.
	CO-2. Recognize and operate in various styles and registers in English.
	CO-3. Get rid of his present flaws and mistakes in pronunciation and grammar.
	CO-4. Identify and repair the voids in his present vocabulary and pronunciation targeting those specific array of words which create a barrier in his thought process.
	CO-5. Boost confidence in oral and interpersonal communication by reinforcing the basics of pronunciation specially focusing on interviews/ corporate meetings/ international business travels.
	CO-6. Achieve adequate linguistic skills to help him compete well in international certification tests of English such as IELTS and TOEFL.
BCA201	CO-1: Understand how data structures map onto physical memory.
	CO-2: Develop knowledge of basic data structures for storage and retrieval of ordered or unordered data. Data structures include: arrays, linked lists, binary trees, heaps, and hash tables.
	CO-3: Knowledge of applications of data structures including the ability to implement algorithms for the creation, insertion, deletion, searching, and sorting of each data structure.

	CO-4: Compare different implementations of the same or different data structure.
BCA202	CO-1: Understand key concepts of database, ER model and relational model, principles of transaction concept and distributed database.
	CO-2: Acquire knowledge about Integrity rules and apply various normalization techniques.
	CO-3: Execute various advance SQL queries related to relational algebra.
	CO-4: Develop an enterprise data model that reflects the organization's fundamental business rules.
	CO-5: Knowledge about Protection of database against crashes, Backup and Integrity violation.
BCA203	CO-1. Understand the key concept of differentiation, Partial derivative, tracing of curves and ordinary differential equation.
	CO-2. Evaluate differentiation at different points of given interval using different theorems.
	CO-3. Analyze asymptotes and tracing of curves.
	CO-4. Solve simultaneous differential equation of first order.
	CO-5. Knowledge about various methods to solve differential equations of first order and first degree.
BCA204	CO-1. Distinguish among various levels of organizational communication and communication barriers while developing an understanding of communication as a process in an organization
	CO-2. Draft effective business correspondence with brevity and clarity.
	CO-3. Demonstrate his verbal and non-verbal communication ability through presentations.
	CO-4. Use technology to communicate effectively in various settings and contexts.

	CO-5. Understand and apply knowledge of human communication and language processes as they occur across various contexts, e.g., interpersonal, intrapersonal, small group, organizational, media, gender, family, intercultural communication, mediated communication, etc. from multiple perspectives technologically
BCA301	CO1: Analyze the structure of computer system and basic architectural components involved in OS design.
	CO2: Develop and understanding of the concepts related to process and its life cycle.
	CO3: Evaluate CPU scheduling algorithms and solve numerical problems related to the same.
	CO4: Demonstrate a grasp on the concepts of process synchronization and inter process communication.
	CO5: Illustrate an in-depth understanding of deadlocks and techniques of handling deadlocks.
	CO6: Explore various algorithms pertaining to memory allocation and memory management techniques.
BCA302	CO-1: Explain what constitutes an object-oriented approach to programming and identify potential benefits of Object-oriented programming over other approaches.
	CO-2: Analyze and decompose problem specifications from Object Oriented Perspectives
	CO-3: Understanding the concept of different features of OOPs.
	CO-4: Develop console application, using object-oriented approach.
	CO-5: Use of File handing in CPP programming.
BCA303	CO-1. Able to understand the concept of approximate numbers, errors in numbers, representation of number in computer's memory and zeroes or roots of polynomial and/or transcendental equations.
	CO-2. To understand and learn various iterative techniques to solve simultaneous linear equations.

	CO-3. Able to understand various types of difference operators and their relationships.
	CO-4. To develop mathematical relationships for given observations of the variable using Interpolation techniques.
	CO-5. Able to understand the concept concerning numerical differentiation and Integration for a class of equidistant and unequal arguments.
	CO-6. To learn and understand numerical solution of ODE by techniques of Iterative methods.
BCA304	CO-1. Understand .NET Framework and describe some of the major enhancements to the new version of Visual Studio IDE.
	CO-2. Describe the basic structure of a C#.NET project and use main features of the integrated development environment (IDE).
	CO-3. Create applications using Microsoft Windows Forms and ADO.NET.
BCA401	CO-1. Demonstrate an in-depth understanding of conceptual foundations and basics of string handling in Java
	CO-2. Successfully describe and define OOP principles in context to Java and write basic Java programs
	CO-3. Identify and illustrate the usage of collections framework in Java
	CO-4. Analyze the usage of Java's exception handling mechanism
	CO-5. Explore and implement interfaces in Java
	CO-6. Effectively create and manage packages in Java
	CO-7. Develop and implement multithreaded applications using Java
	CO-8. Use of various UI components like windows, menus, buttons, checkboxes, text fields,scrollbars and scrolling lists, through AWT & Swing and apply event handling on these components
BCA402	CO-1. Understand the use and key concept of HTML, CSS, JavaScript, JQuery, PHP and MySql
	CO-2. Implements the database (MySql) and web technologies (HTML, CSS, JavaScript,Jquery and PHP) to create static and dynamic web pages.

	CO-3. Demonstrate the use of web controls according to the requirements in web application.
	CO-4. Apply JavaScript validation, JQuery Validation to maintain the consistency in applications.
	CO-5. Evaluate the use of web application develop by using web technologies.
BCA403	CO-1. How to calculate and apply measures of location and measures of dispersion grouped and ungrouped data cases.
	CO-2. How to apply discrete and continuous probability distributions to various business problems.
	CO-3. Compute and interpret the results of bivariate Regression and Correlation Analysis.
	CO-4. Perform Test of Hypothesis as well as calculate confidence interval for a population parameter for single sample and two sample cases. Understand the concept of p-values.
	CO-5. Learn non-parametric test such as the Chi-Square test for Independence as well as Goodness of Fit.
BCA404	CO-1. Interpret the fundamental Python syntax and semantics and be fluent in the use of Python control flow statements
	CO-2. Express proficiency in the handling of strings and functions
	CO-3. Determine the methods to create and manipulate Python programs by utilizing the data structures like lists, dictionaries, tuples, and sets
	CO-4. Identify the commonly used operations involving file systems and regular expressions
	CO-5. Articulate the Object-Oriented Programming concepts such as encapsulation, inheritance and polymorphism as used in Python
BCA501	CO-1. Analyze the key differences between static and dynamic web applications
	CO-2. Establish a relevance of various web architecture models
	CO-3. Demonstrate an in-depth knowledge of accessing databases through a Java application using Java database Connectivity (JDBC)

	CO-4. Analyze & build dynamic web pages using servlets and JSP
	CO-5. Develop reusable software components using JavaBeans concepts
	CO-6. Design GUI based web applications that can interact with databases, using in-built frameworks of Java
BCA502	CO-1. Basic knowledge and understanding of the analysis and design of complex systems.
	CO-2. Ability to apply software engineering principles and techniques and to develop, maintain and evaluate large-scale software systems.
	CO-3. To produce efficient, reliable, robust and cost-effective software solutions.
	CO-4. Ability to perform independent research and analysis.
	CO-5. Ability to work as an effective member or leader of software engineering teams.
	CO-6. To manage time, processes and resources effectively by prioritising competing demands to achieve personal and team goals Identify and Analyzes the common threats in each domain.
BCA503	CO-1. Demonstrate fundamental understanding of the history of artificial intelligence (AI) and its foundations.
	CO-2. Analyze and apply different searching techniques for solving problems of different nature.
	CO-3. Apply basic principles of AI in solutions that require problem solving, inference, perception, knowledge representation, and learning.
	CO-4. Demonstrate awareness and fundamental understanding of various applications of AI techniques in intelligent agents, expert systems, artificial neural networks, and other machine learning models.
	CO-5. Display an in-depth knowledge of Fuzzy Sets and Fuzzy Logic.
BCA601	CO-1: Understand the concept of machine learning, supervised, unsupervised learning and statistical learning.
	CO-2: Acquire knowledge about software for machine learning.
	CO-3: Understand various applications using machine learning techniques.

	CO-4: Solve the problems of Matrices and vectors with available tool.
BCA602	CO-1. Apply various test processes and continuous quality improvement
	CO-2. Understand and define the types of errors and fault models
	CO-3. Using methods of test generation from requirements
BCA603	CO-1: Independently understand basic computer network technology.
	CO-2: Understand and explain Data Communications System and its components.
	CO-3: Identify the different types of network topologies, protocols and n/w devices.
	CO-4: Enumerate the layers of the OSI model and TCP/IP. Explain the function(s) of each layer.
	CO-5: Understand and building the skills of sub netting and routing mechanisms.
BCA701	CO-1. Understand the functionality of the various data mining and data warehousing component.
	CO-2. Appreciate the strengths and limitations of various data mining and data warehousing models.
	CO-3. Explain the analyzing techniques of various data.
BCA702	CO-1: Understand the concept, process, design, tools and techniques of RM.
	CO-2: Apply tools, techniques/methods to assist various functions of management.
	CO-3: Analyze the data collected.
	CO-4: Evaluating the results, interpret and present findings.
	CO-5: Prepare research report
BCA705	CO-1: Understand Linux features their Architecture.
	CO-2: Use of different commands (Related to Files, Directory, Disk, etc.)
	CO-3: Comparison of Mobile Operating System like Android, IOS & Windows.
	CO-4: Knowledge about Android API level and different version, features and architecture.

BCA802	CO-5: Use of Android Studio for developing mobile apps.
	CO-6: Android Components and use of Java and XML file for developing apps.
	CO-7: Develop and execute on real physical mobile.
	CO-1: Explain the core concepts of the cloud computing paradigm: how and why this paradigm shift came about, the characteristics, advantages and challenges brought about by the various models and services in cloud computing.
	CO-2: Apply the fundamental concepts in datacenters to understand the trade-offs in power, efficiency and cost.
	CO-3: Identify resource management fundamentals, i.e. resource abstraction, sharing and sandboxing and outline their role in managing infrastructure in cloud computing.
	CO-4: Analyze various cloud programming models and apply them to solve problems on the cloud.

BSC

Paper Code	CO's
BSCH101	CO1: Enhance the learner's communication skills by giving adequate exposure in listening, speaking, reading and writing skills and the related sub-skills.
	CO2: Recognize and operate in various styles and registers in English.
	CO3: Get rid of his present flaws and mistakes in pronunciation and grammar.
	CO4: Identify and repair the voids in his present vocabulary and pronunciation targeting those specific array of words which crate barrier in his thoughts process.
	CO5: Boost confidence in oral and interpersonal communication by reinforcing the basics of pronunciation specially focusing on interviews/ corporate meetings/ international business travels.
	CO6: Achieve adequate linguistic skills to help him complete well in international certification tests of English such as IELTS and TOEFL.
BSCH102	CO1: Understand the basic terminology used in computer programming.
	CO2: Write, compile and debug programs in C language.
	CO3: Use different data types in a computer program.
	O4: Designs programs involving decision structure, loops and functions.

	CO5: Explain the difference between call by value and call by reference.
	CO6: Understand the dynamic of memory by the use of pointers and structure.
BSCH103	CO1: Identify various components of computer and their interconnection.
	CO2: Understand the concept of logic gates, Different Digital Circuit.
	CO3: Use of the data representation technique.
	CO4: Compare and select various Memory devices.
	CO5: Understanding the various types of IO mapping techniques.
BSCH104	CO1: Understand the key concept of rank of matrix, Eigen values, Eigen vectors, polynomial equations and partial derivative of a function.
	CO2: Evaluate differentiation at different point of given interval using different theorems.
	CO3: Knowledge about beta and gamma function to simplify integration.
	CO4: Analyze and curvature of a function and tracing of curve.
	CO5: Apply integration to calculate the area and volume of different types of curves.
BSCH106	CO1: Use Microsoft Word tools to improve work flow, change page layout, and add advance formatting.
	CO2: Create workbooks and format text in Microsoft Excel.

	CO3: Add worksheets, organize data, and create charts in Microsoft Excel.
	CO4: Create presentations with image and videos.
BSCH201	CO1: Distinguish among various level of organization communication and communication barriers while developing an understanding of communication as a process in an organization.
	CO2: Draft effective business correspondence with brevity and clarity.
	CO3: Demonstrate his verbal and non-verbal communication ability through presentations.
	CO4: Use technology to communicate effectively in various settings and contexts.
	CO5: Understand apply knowledge of human communication and language process as they occur across various contexts, e.g., interpersonal, intrapersonal small group, Organizational, media, gender, family, intercultural communication, technologically mediated communication, etc. from multiple perspectives.
BSCH202	CO1: Understand how data structure map onto physical memory.
	CO2: Develop knowledge of basic data structures for storage and retrieval of ordered or un ordered data. Data structures include: arrays, linked lists, binary tree, heaps, and hash tables.
	CO3: Knowledge of applications of data structure including the ability to implement algorithms for the creation, insertion, deletion, searching and sorting of each data structure.

	CO4: Compare different implementations of the same or different data structure.
BSCH203	CO1: Explain what constitutes an object-oriented approach to programming and identify potential benefits of Object-oriented programming over other approaches.
	CO2: Analyze and decompose problem specifications from Object Oriented perspectives
	CO3: Understanding the concept of different features of OPPs.
	CO4: Compare different implementations of the same or different data structure.
	CO5: Use of File handling in CPP Programming.
BSCH204	CO1: Understanding the key concept of propositions, set, relation, function, and its operations, counting and recurrences.
	CO2: Construct truth table of any compound Proposition and use logically equivalent statements.
	CO3: Evaluate Boolean algebra expressions and function: algebraic representations of the functioning of logic gates.
	CO4: Simplify the Boolean expression representing circuits.
	CO5: Demonstrate graph, path, cycles, complement of a graph, trees and its type.
BSCH301	CO1: Understand key concepts of database, ER model and relational model, principles of transaction concept and distributed database.
	CO2: Acquire knowledge about Integrity rules and apply various normalization techniques.

	CO3: Execute various advance SQL queries related to relational algebra.
	CO4: Develop an enterprise data model that reflects the organization's fundamental business rules.
	CO5: Knowledge about protection of data base against crashes, Backup and Integrity violation.
BSCH302	CO1: Analyze the structure of computer system and basic architectural components involved in OS design.
	CO2: Develop and understanding the concepts related to process and its life cycle.
	CO3: Evaluate CPU scheduling algorithms and solve numerical problems related to the same .
	CO4: Demonstrate a grasp on the concepts of process synchronization and inter process communication
	CO5: Illustrate an in-depth understanding of deadlocks and techniques of handling deadlocks.
	CO6: Explore various algorithms pertaining to memory allocation and memory management techniques.
BSCH303	CO1: independently understand basic computer network technology.
	CO2: Understand and explain Data communications System and its component.
	CO3: Identify the different types of network topologies, protocols and n/w devices.
	CO4: Enumerate the layers of the OSI model and TCP/IP. Explain the function(s) of each layer.
	CO5: Understand and building the skills of sub netting and routing mechanisms.

BSCH304	CO1: Understand the concept of approximate numbers, errors in numbers, zeroes or roots of polynomial and /or transcendental equations, difference operators, numerical difference, Integration and ODE.
	CO2: Iterative techniques to solve polynomial and / or transcendental equations and simulations linear equations.
	CO3: Illustrate mathematical relationships for given observations of the variable using Interpolation techniques.
	CO4: Apply concerning numerical differentiation and a integration for a class of equidistant and unequal arguments.
	CO5: Analyze numerical solution of ODE by techniques of Iterative methods.
BSCH306	CO1: To develop the program process synchronization.
	CO2: To develop the program regarding the CPU scheduling.
	CO3: To develop the program for file.

BA LLB(H)

PO 1	Represent best interests of the client/parties in a professional and ethical manner
PO 2	Accurately identify possible researchable areas and independently research on them with the help of innovative tools.
PO 3	Ability to understand, analyze and communicate global, economic, social, and ethical aspects of legal fraternity
PO 4	Ability to lead themselves and others in the achievement of organizational goals, contributing effectively to a team environment
PO 5	Develop strong soft-skills and organizational behaviour, so that they become industry-ready, when they complete B.A.LL.B. (Hons.) course
PO 6	Understand the impact of the professional, legal solutions in societal and environmental contexts and demonstrate the knowledge of and need for sustainable development.
PO 7	Develop entrepreneurial skills for creating and managing innovation, new socio-legal development and high-growth potential entity with positive attitude
PO 8	Apply ethical principles and commit to legal professional ethics, responsibilities and norms of the established legal practices

Paper Code	CO's
BAL101	CO1: discover the basic concepts, theories and functioning of State.
	CO2: categorize instruction in Constitutional Law and Administrative Law in the context of political forces operative in society.
	CO3: rewrite the interrelation amongst political organizations, its principles (State, Law and Sovereignty) in relation with Constitutions.
	CO4 appraise the contributions of Western and Indian political thinkers in the context of politico-legal experiences.

BAL102	CO1: respond to the question how and why the present has evolved from the past in the manner it has.
	CO2: relate the importance of both historiography and historical methodology.
	CO3: critically evaluate myths and stereotypes, and embedded meanings and discourses.
	CO4 develop the socio, economic and political context in which legal system in ancient and medieval India emerged and evolved.
BAL103	CO1: relate to the psychology of individual economic agents like consumers and producers and their respective choices in the market.
	CO2: correlate the different kinds of market structure and the behaviour of firms in determination of price and output.
	CO3: inculcate critical thinking to understand how the economy runs. It will also strengthen the understanding of the concept of demand and supply of money.
	CO4 write about different types of banking and financial institutions its significance to the market.
BAL104	CO1: Produce well-supported communications and essays using different patterns of development taking into consideration purpose and audience.
	CO2: differentiate complex legal texts, information and arguments in a coherent presentation.
	CO3: appraise communications with paragraphs and appropriate methods for introducing and concluding.
BAL105	CO1: relate the principles of Tortious Liability, the defenses available in an action for torts,
	CO2: contrast the capacity of parties to sue and be sued and matters connection therewith.
	CO2: evaluate the specific torts against the individual and property. With rapid industrialization, inadequacy of the law to protect the individual is exposed.
	CO3: develop on the alternative forms, and also the remedies provided under the Consumer Protection Act, 2019
BAL106	CO1: distinguish the basic concepts and terminology of the law of contract;
	CO2: relate amongst the various processes involved in contract formation;

	CO3: devise the relevant legal issues that arise on a given set of facts in the area of contract law;
	CO4: appraise a range of approaches to written communication, and apply the critical thinking required to bring about creative solutions to complex legal problems in the area of contract law;
	CO5: formulate oral and written arguments in response to a given set of fact
BAL201	CO1: demonstrate the forms that governments acquire along with the nature and conflicts encountered by different forms of governments.
	CO2: connect to look into center-state conflicts and legislature-executive –judiciary conflicts
	CO3: criticize political organization, its principles (State, Law and Sovereignty) in relation with Constitutions.
	CO4 develop into how emerging issues in international relations become important in the legal context and prepare the students to understand International Law.
BAL202	CO1: articulate the India of modern times; the developments of modern legal procedures, laws and institutions and how they impacted the Indians and their old systems.
	CO2: relate the emergence of present judicial system can be traced to the historical developments in colonial India.
	CO3: appraise the framing of Indian Constitution.
	CO4: write about the postcolonial developments in India, by examining some of the current events of significance.
BAL203	CO1: use the tenets of Macro Economics.
	CO2: differentiate about the School of thoughts of Macro Economics.
	CO3: inculcate critical thinking to understand the prevalent issues of economic development.
	CO4 write about different types of banking and financial institutions its significance to the market.
BAL204	CO1: Produce well-supported communications and essays using different patterns of development taking into consideration purpose and audience.

	CO2: differentiate complex legal texts, information and arguments in a coherent presentation.
	CO3: appraise communications with paragraphs and appropriate methods for introducing and concluding.
BAL205	CO1: describe the power to cede Indian territory to a foreign State, power to create and extinguish a State, alteration of name, area and boundary of existing States;
	CO2: compare the three organs of the State;
	CO3: report the legislative procedures and Privileges;
	CO4: illustrate the offices of the President/Governor and the Council of Ministers;
	CO5: appraise judicial review of ordinances;
	CO6: imagine the independence of judiciary and the appointment and transfer of Judges of Constitutional Courts; Distribution of legislative powers between the Centre and the State;
BAL206	CO1: explore the context and rationale of specific contracts of Indemnity, Guarantee, Bailment, Pledge and Agency.
	CO2: demonstrate the principles and doctrines that guide such contracts.
	CO3: correlate an understanding of the legal concepts involved in such contracts.
	CO4: criticize what rights and duties parties acquire under such contracts.
	CO5: collaborate the relation such specific contracts have with our day to day commercial activities and their impact on the social and economic front.
BAL301	CO1: report the framing of Indian Constitution from political perspective.
	CO2: analyze the rights protected under Indian Constitution
	CO3: evaluate the relation between three important organs of governance.
	CO4: write about the salient features of Indian Constitution
BAL302	CO1: Analyze the post-colonial developments in India, by looking up some of the current events of significance.
	CO2: appraise the historical developments in colonial India.
	CO3: write about the Social and religious movements in Colonial India
BAL303	CO1: compare the similarities and differences between his/her own culture and those of various French-speaking cultures

	CO2: use the basic concepts of French language and its importance in today's time
	CO3: contrast the basic visuals, auditory of French.
	CO4: appraise with the Francophone cultures.
	CO5: collaborate sentences and phrases to express opinions on topics related to the self, personal interest, and everyday life
	CO1: relate the basic concepts of Hindi language and its importance in today's time
	CO2: analyze the basic grammar and punctuations of Hindi language.
	CO3: appraise with Hindi Literature.
	CO4: write over linguistic and grammatical importance in view of the Judicial Service Exams.
BAL304	CO1: discover lacunas within the criminal justice system and suggest the amendments have to make to provide the justice according to the changing needs of the society.
	CO2: contrast the process of judicial review and identify criteria used by courts to evaluate the constitutionality of criminal law of India.
	CO3: grade and synthesize social theory about crime, justice, and social deviance
	CO4: imagine various obstacles and barriers experienced by individuals before, during, and after internment
BAL305	CO2: articulate the structure of fundamental rights
	CO3: Analyze the philosophy of Constitutional remedies
	CO4: appraise the nature of directive principles of state policy
	CO5: formulate the power and procedure of amendment process.
BAL306	CO1: relate to the basic concepts like marriage, divorce, parental custody, domestic abuse and children's rights.
	CO2: differentiate the concepts of Family law to examine historical and social contexts that have influenced the modern definition and regulation of families.
	CO3: evaluate the Skills of thinking, analysis, written and verbal presentation of ideas of Argument
	CO4: develop the consistencies amongst various relevant laws
BAL401	CO1: connect to the major Political thoughts of Greek Philosophers and Indian Philosophers.

	CO2: appraise the theories of individualism
	CO3: write about the rights and duties perceived in the political school of thoughts
BAL402	CO1: articulate the tenets of Macro Economics.
	CO2: relate to the School of thoughts of Macro Economics.
	CO3: appraise Macro Economic concepts and International Trade Balance and functionaries.
	CO4 write about different types of banking and financial institutions its significance to the market.
BAL403	CO1: understand the comprehensive and the grammatical concept of French language and its importance in today's time
	CO2: relate the advanced visuals, auditory and kinesthetic of French
	CO3: correlate with French tourism and history.
	CO4: appraise the similarities and differences between his/her own culture and those of various French-speaking cultures
	CO5: formulate oral and written performance for learning purposes.
	CO1: relate to the basic concepts of Hindi language and its importance in today's time
	CO2: analyze the enriched literature of Hindi language.
	CO3: evaluate famous authors and writers of Hindi Literature.
	CO4: formulate command over linguistic skills in view of the Judicial Service Exams.
BAL404	CO1: Demonstrate an in-depth understanding of the aspects of criminal justice or law and its relationship to larger social issues
	CO2: Illustrate the framework of code of criminal procedure in India
	CO3: evaluate the principles of criminal law covered in the course
	CO4: Develop the thought process related to Juvenile Justice and Probation with latest amendments.
BAL405	CO1: Demonstrate an advanced and integrated understanding of the political, social, historical, philosophical, and economic context of law.
	CO2: Relate to the evaluation of legal theory and their implications for policy.

	CO3: evaluate complex problems relating to law and legal theory and make reasoned and appropriate choices amongst alternatives.
	CO4: Develop the thought process related to Legal System
BAL406	CO1: articulate concepts like Succession, Inheritance
	CO2: illustrate and differentiate provisions and concepts of personal laws
	CO3: appraise written and verbal presentation of Course wise ideas of argument.
	CO4: develop the approach towards the various provisions related to property distribution in Muslims.
BAL501	CO1: correlate constitutional studies of major nationalities of the world.
	CO2: evaluate the federal system of government
	CO3: write about the salient features of major constitutions of the world
BAL502/BAL503/BAL504	CO1: demonstrate the basic knowledge of components of computer.
	CO2: Analyze the internal and external devices and its uses
	CO3: appraise the role of the computer system in daily life
	CO4: develop real life orientation in the professional career
	CO1: demonstrate with basic understanding on the various forms of government
	CO2: critically Analyze the evolution and development of civil rights
	CO3: evaluate crucial jurisdictional issues in the light of judicial process and review
	CO4: develop an exposure to understand the comparative analysis of the organization of legislative and judicial powers of US, UK, France, Australia and Canada
	CO1: demonstrate an overview of applicable laws relating to energy sector in India
	CO2: critically Analyze specific areas of energy sector
	CO3: evaluate mapping of various laws and policies relating to energy sector
	CO4: develop an exposure to understand case studies on energy sector covering government policies, judicial decisions and related topics such as environment, business, national and international trade etc
	CO1: demonstrate an overview of the basic principles of Food Safety Law and Policy
	CO2: critically Analyze the application of Public Distribution System

	CO3: evaluate the impact on other areas such as Human Rights and Women Empowerment in a holistic view
	CO4: develop a sense of social responsibility
	CO1: articulate the framework for elections in India, democracy and the rationale behind it
	CO2: critically Analyze the requisite constitutional and statutory provisions pertaining to conduct of elections in India
	CO3: evaluate the role of the Election Commission in the conduct of free and fair elections
	CO4: formulate an analogy on the eligibility criteria laid down by the laws for contesting elections in India and matters incidental thereto.
	CO1: relate to the necessity for a separate discipline on space law.
	CO2: critically Analyze the limitations and liabilities of state parties in exploration of outer space
	CO3: evaluate that outer space is a limited natural resource to be explored in sustainable manner
	CO4: develop an analogy with regard to space legislation of various nations and explore the economic opportunities in outer space and the role of private participants
	CO1: relate to legal regulation of sports governing bodies, management of sport, tort liability and risk management in sports
	CO2: critically Analyze the Contractual obligations in sports
	CO3: evaluate the crucial issue of intellectual property rights in sports
	CO4: develop an analogy with regard to legal issues that are essential for successfully managing a sport enterprise.
BAL505	CO1: examine the concept and nature of transfer of immovable property, and rules relating to it.
	CO2: summarize the rules relating to transfer of property within two living persons and the consequences of it
	CO3: Evaluate the rules relating to general transfer of immovable property
	CO4: evaluate the rules governing Mortgages, Leases, Exchanges, Gift and
	CO5: Analyzes the rules of Sale of Immovable Property and rights and liabilities of seller and buyer

	CO6: Analyze and evaluate the rules relating concept of easement and kinds of easement and rights and liabilities of transferor and transferee
	CO7: formulate about actionable Claims, rights and liabilities of transferor and transferee
BAL506	CO1: define the concept and general nature of evidence, and illustrate the different types of evidence and court procedures relating to evidence.
	CO2: compare the rule relating to relevance of evidence and admissibility of evidence before the court
	CO3: articulate the rules relating to dying declaration and admissibility of dying declaration
	CO4: Analyze the standard of proof and burden of proof in civil and criminal cases, and specify types of presumptions.
	CO5: evaluate the rules governing examination in chief, cross examination and re-examination, and establish the procedures in the conduct of a civil or criminal trial

BAL601	CO1: contrast the International Organizations and Institutional affiliations regarding International relations
	CO2: appraise Indian relations with international community specially neighbor countries
	CO3: develop the key terms of International Political organizations
BAL602/BAL603/BAL604	CO1: demonstrate basic programming language and its uses
	CO2: Analyze and evaluate MS Word and Legal Search Engines
	CO3: formulate the role of the Information Technology in legal education with latest trends
	CO1: demonstrate basic conceptual facets of the Course and the Board of Revenue and other revenue officers
	CO2: Analyze and evaluate the process of fixing tenure by various revenue officers
	CO3: develop an analogy with regard to the rights of bhumi swami and unoccupied talent under various legal provisions
	CO1: relate to law, legal institutions and administration system in India during British Rule
	CO2: critically Analyze the colonial rule till independent India

	CO3: evaluate the present legal system in context of the Legal and Constitutional History of the colonial period
	CO4: develop an analogy with regard to growth of Administrative, Judicial and Legislative institutions in Colonial India to get an appropriate insight of the present institutions
	CO1: demonstrate basic conceptual facets of the Course and the inter-related aspects of Medicine and health
	CO2: critically Analyze the legal and moral issues of varying degree at different stages of advancement in the sphere of Health Laws
	CO3: evaluate crucial jurisdictional issues in the light of intricate legal and moral issues associated with the administration of treatment and performance of medical procedures
	CO4: develop an analogy with regard to the Right to health and access to medicine in the backdrop of medical advancement
	CO1: articulate basic conceptual facets of the Course and the fundamental interpretations governing the field
	CO2: critically Analyze the different personal factors dominating the trans-national activities
	CO3: evaluate crucial jurisdictional issues in the light of English rules and issues relating to sovereign immunity and the status of foreign judgements
	CO4: develop an analogy with regard to the marital status and child care in the wake of various transactions across the borders and envisages the commercial and tortuous liability with reference to trans-national omissions and commissions
	CO1: demonstrate the concepts, functions, management, and problems related to entrepreneurship
	CO2: critically analyze the steps involved in the business project proposal and its evaluation
	CO3: evaluate the concepts of entrepreneurship required for setting-up of a business enterprise
	CO4: collaborate business opportunities and making a decision about the success of the enterprise
	CO1: articulate the international conventions on animal welfare laws
	CO2: analyze the underpinning of legal relationship with other members of animal kingdom in an historical context
	CO3: evaluate crucial issues in the light of rules and learn to formulate and develop the arguments related to animal rights

	CO4: formulate an analogy with regard to the development with legal and ethical issues
BAL605	CO1: demonstrate the nature and development of law relating to administration and effective means of administrative control.
	CO2: correlate on their role in protecting the rights of individuals against abuse of administration and adjudicatory powers of the administration and liability of administrative authorities.
	CO2: evaluate and predict how unresolved or ambiguous administrative law questions could be resolved by the courts through an analysis of case law and the judicial method.
	CO3: write about the principles of administrative law covered in the course.
BAL606	CO1: articulate the detailed procedure for redressed of civil rights.
	CO2: correlate, various concepts like where the suit is to be filed, the essential forms and procedure for institution of suit, the documents in support and against, evidence taking and trial, dimensions of an interim order, the peculiar nature of the suits
	CO3: evaluate the complexities of executing a decree and provisions for appeal and revision are all matters which a lawyer for any side is to be familiar with.
	CO4: develop the good grounding in the Course before one enters the profession
BAL701	CO1: demonstrate expertise to apply legal principles to issues that frequently arise in the art world
	CO2: critically analyze ethical issues that arise when acquiring art by private buyers, as well as by museums and galleries
	CO3: evaluate coherently and persuasively about the legal and ethical implications of decisions involving cultural heritage, have a new found appreciation for art & antiquities and work diligently towards cultural heritage protection
	CO4: develop analogy in relation to contemporary themes, current debates and trends in art & cultural Heritage protection through law and policy tools in a comparative context
	CO1: demonstrate the technical and aesthetical development of cinema as a medium of art
	CO2: critically analyze the impact of socio-economic conditions on the development of Cinema
	CO3: evaluate the growth of Cinema as the modern artistic medium with special emphasis on the underlying ethical issues
	CO4: develop an analogy with regard to best contemporary ethical and professional practices in Cinema, as dictated by legal standards

	CO1: relate with the broad outline of Indian Philosophy including basic conceptual facets like logic, ethics, epistemology and metaphysics of the Course and the fundamental interpretations governing the field
	CO2: analyze the Ethical thinking underlying in the Indian Philosophy which is constantly Cosmo centric and duty oriented.
	CO3: evaluate crucial jurisdictional issues in the light of English rules and issues relating to sovereign immunity and the status of foreign judgements.
	CO4: develop an analogy towards special and distinctive ideas and aspects of Indian epistemology
BAL702	CO1: demonstrate comprehensive knowledge and understanding of the way in which the international financial system operates
	CO2: analyze the operations and synthesize the recent advanced research in the area of International Banking and Finance
	CO3: evaluate trends in the international financial markets
	CO4: formulate an analogy with regard to key policy issues that arise from the developments studied
	CO1: articulate psychological principles from the perspective of legal profession as well as policy and legislative decisions
	CO2: analyze different areas of psychology affected by law and visa-versa developmental psychology, social psychology, clinical psychology and cognitive psychology
	CO3: evaluate crucial jurisdictional issues underlying in the co-relation between the legal system and the psychological effect it has on the Courses within its ambit
	CO4: develop critical thinking with respect dilemmas inherent in a psychological approach to the legal theories
	CO1: articulate basic conceptual facets of the Course and the students will be able to discuss the different standings on which PILs are admitted
	CO2: critically Analyzes the different personal factors and will be able to explain the differences between the adversarial and inquisitorial procedures.
	CO3: evaluate crucial jurisdictional issues in the light of socio-legal aspects and sensitize them to the problems of the downtrodden and weaker sections of the society, and to inculcate social responsibilities in the students.
	CO4: develop an analogy with regard to exposure to public interest lawyering and the cases in which courts have made deviation from strict formalities to uphold the rights of common man

BAL703	CO1: relate to various fact scenarios the concept of separate legal entity.
	CO2: analyze the basic documents such as MOA and AOA required for company.
	CO3: evaluate and analyze socially reasonable corporate behavior.
	CO4: develop the ability to use the corporate law resources and practice company law both independently and cooperatively in a professional environment.
BAL704	CO1: relate to the salient features of industrial disputes and power and functions of trade unions
	CO2. Analyze the development and the judicial setup of Labour Laws
	CO3. evaluate the laws relating to Industrial Relations, Working conditions and also learns the enquiry procedural and industrial discipline
	CO2. develop the ability to practice in Labour laws in general HRD
BAL705	CO1: relate the fundamental concepts of income tax law
	CO2: analyze a broad understanding of tax laws in India
	CO3: appraise the direct and indirect tax systems in reference to GST
	CO4: develop tax law research by using research skills to interrogate primary and secondary legal materials, complex legal information
BAL706	CO1: distinguish concepts and various rules of pleading and ability to handle the client during the course of interaction
	CO2: articulate the argumentation process and apply the legal drafting abilities during the appearances before Court and Tribunals
	CO3: analyze the way to move to the criminal justice system with aid of various complaints.
	CO4: evaluate various forms of conveyancing deed such as sale deed, gift, mortgage etc.
	CO5: develop legal drafting skills and practical aspect of registration of such documents
BAL801	CO1: demonstrate basic conceptual facets of the Course and the fundamental interpretations governing the field of disasters and its relationships with development
	CO2: critically analyze the Medical and Psycho-Social Response to Disasters.
	CO3: evaluate crucial jurisdictional issues in the light of rules and issues relating to prevention and control of Public Health consequences of Disasters and legal implications.

	CO4: develop an analogy regarding the Disaster Risk Management institutional processes in India and underlying legal aspects
	CO1: demonstrate basic conceptual facets of the Course and the fundamental understanding of Law and Poverty
	CO2: analyze the basic legal issues of the socially, economically disadvantaged weaker sections of the society along with the examination of how the legal system deals with the issue of access to justice to the poor
	CO3: evaluate beneficial schemes and welfare measures of the Government and its effective implementation for alleviation of poverty
	CO4: develop an analogy regarding the role of the international legal arrangement in dealing with the issue of poverty
	CO1: demonstrate basic conceptual facets of national security and how nations look into this critical element in their policy and strategy
	CO2: critically analyze the basic instruments of national security and how institutions work in close coordination to define the challenges and address them to secure their national interests both within the borders and at international level
	CO3: evaluate national security apparatus of different countries and how they coordinate among themselves.
	CO4: write upon security scenario at the international level in terms of terror networks, military modernization, rogue states, nuclear proliferation and environmental security.
BAL802	CO1: demonstrate basic conceptual facets of Industrial Jurisprudence and the fundamental interpretations governing the welfare legislation
	CO2: critically analyze the constitutional remedies available in case of violation of constitutional provisions related to labour welfare
	CO3: evaluate crucial jurisdictional issues in the light of application of natural justice and actions in the Context of your industry, organization establishment and employment so that the natural Justice is done to an employee
	CO4: develop an analogy in relation to underlying principles of social justice, in the context of labour and management relations
	CO1: demonstrate basic conceptual facets of National Security and its essential attributes

	CO2: critically analyze the asymmetrical challenges both at national front and international level
	CO3: evaluate crucial jurisdictional issues in the light of new challenges coming in digital era
	CO4: develop an analogy in relation to national response to these challenges
	CO1: demonstrate basic conceptual facets of Industrial Jurisprudence and the fundamental interpretations governing the welfare legislation
	CO2: critically analyze the constitutional remedies available in case of violation of constitutional provisions related to labour welfare
	CO3: evaluate crucial jurisdictional issues in the light of application of natural justice and actions in the Context of your industry, organization establishment and employment so that the natural Justice is done to an employee
	CO4: develop an analogy in relation to underlying principles of social justice, in the context of labour and management relations
BAL803	CO1. articulate the legal provisions relating to Industrial Relations in reference to labour policy in India
	CO2. contrast concepts of Social Security and wages problems in industries
	CO3. appraise labour welfare problems with the help of proper mechanism
	CO4: Develop the approach to learn the enquiry procedural and industrial discipline
BAL804	CO1: understand the complex body of knowledge in the field of environmental law
	CO2: use in-depth knowledge of the specialist area of environmental law and associated disciplinary areas
	CO3: analyze the different causes of pollution and legal remedies to control it on national level
	CO4: evaluate laws relating to environmental aspect on a national level and its comparison with other countries.
	CO5: develop the capacity to identify new law and apply existing law in the rapidly evolving legal context for environmental law

BAL805	CO1: demonstrate knowledge and understanding of the international rights frame work, its origins and justifying theories;
	CO2: contrast various contemporary international issues including extradition and asylum.
	CO3: critically evaluate the relationship between international and municipal law
	CO4: develop the capacity to assess how specific human rights may be asserted, enforced or violated;
BAL806	CO1: demonstrate the professional ethics and ethical standard of the legal profession.
	CO2: analyze the key themes in professional ethics, in order to give them an insight into moral decision making in the legal profession.
	CO3: value suitable ethical compasses for legal decision making
	CO4: design the approach towards art of professional ethics i.e., how should they balance duties to their client to the courts, to justice in the abstract, and to themselves
BAL901	CO1. articulate the techniques adopted by courts in construing statutes and the importance of the law making process in the present context
	CO2. analyze and evaluate the matters to be reckoned with by legislature while enacting laws
	CO3. formulate the notion and nuances of the judicial interpretation, construction of words, phrases and expressions
	CO1:Develop in depth knowledge of the concept of Equity.
	CO2:Appraise the legislations involving Equity and Trust.
	CO3:Relate these concepts with the current trends.
	CO4:Deduce the framework of the Equity and Trust Laws
	CO1: Demonstrate the main concepts of victimization and penology and describe their trends in criminal justice.
	CO2: Relate historical developments in penology with regards to the reasons for punishment.
	CO3: Critically asses the role of victims and punishment in the Israeli justice system and explore possible alternatives
	CO4: Develop the approach to understand victimization and punishment as complimentary aspects of the criminal process and their reciprocal effect on social perceptions.

	CO1: Illustrate the significance of International Dispute Resolution.
	CO2: Demonstrate the meaning International Commercial Arbitration.
	CO3: Relate with the regulatory framework of the International Dispute Resolution.
	CO4: Judge the role of Arbitral Tribunals.
	CO5: Articulate these laws with the current trends and analyze the situation as a lawman not a layman.
	CO1: Demonstrate the significance of IT Act in today's scenario.
	CO2: Correlate various legislations in light of IT Act, 2000.
	CO3: Relate IT Act to the current issues and could solve the issue/problem as a lawman and not a layman.
	CO4: Appraise the role of IT Act in the digital age.
	CO5: Solve the IPR issues in cyberspace.
	CO1: understand the federal principle and theory, India has adopted as a federal set-up.
BAL902	CO2: critically analyze the concepts of Constitutional law and Federalism as a basic limitation of Constitutionalism, together with Constitutional provisions regarding division of powers and the three lists in the Seventh Schedule of the Constitution, and related provisions.
	CO3: examine judicial trends and emerging challenges in response to Federal structure handled by the Supreme Court and other instrumentalities.
	CO4: analyze in detail the contributions of Western and Indian Constitutional thinkers in the context of Indian federal structure
	CO1: Demonstrate the banking system in India
	CO2: Use the provisions of the Negotiable Instruments Act, 1881 in the practical scenarios.
	CO3: Correlate with the banking system in India.
	CO4: Relate with the concept of banking in E-Commerce.
	CO5: Appraise the new emerging dimensions in banking system.
	CO6: Develop Judicial Interpretation of Banking Law.
	CO1: articulate human rights of the prisoners including under trial;

	CO2: analyze the human rights of those accused who are facing a criminal trial;
	CO3: evaluate how human rights law has impacted upon sentencing and punishment, including a study of the death penalty from a human rights perspective
	CO4: develop concepts of human rights of prisoners with the help of case studies
	CO1:Correlate different International Organizations.
	CO2:Deduce the role of International Organizations in contributing in maintain cooperative relations among nations.
	CO3:Re ate with the legislations involving various International Organizations.
	CO4:Illustrate the International system of Politics.
	CO5:Appraise the functions of various International Organizations.
	CO1:Illustrate the purpose and the rationale behind the creation of the patent rights.
	CO2:Value the contribution of patent rights in promoting innovation.
	CO3:Correlate the development of patent Rights across different nations namely UK, US and India.
	CO4:Illustrate legislative framework of patent laws in India.
	CO5:Show as to how to file an application of patents and how it is registered.
	CO1: articulate basic theories and functioning of the very concept of Affirmative Action and its origin
	CO2: Analyze and evaluate the relevance and relation of Affirmative Action with Discriminative Justice provided under Indian Constitution.
	CO3:formulate the notion and nuances of policies and its effect on Affirmative Action and Discriminative Justice
BAL903	CO1:Demonstrate the basic concepts of Insurance Law.
	CO2:Relate with the Insurance Law applicable in India.
	CO3:Show the fundamental policy choices inculcated in the Insurance Legislations.
	CO4:Formulate solution to the current issues involving law of Insurance.
	CO5:Appraise different types of Insurances.

	CO1: Demonstrate the theoretical explanations of the causes, dynamics, and consequences of juvenile delinquency
	CO2: Analyze the issues of law enforcement related to juvenile delinquency
	CO3: Evaluate the issues of juvenile delinquency in the context of Juvenile Justice act 2015
	CO4: Develop the skills to deal with the juvenile court system and its handling of cases, as well as other methods of treatment of children and adolescents
	CO1: Illustrate the foundation of the Human Rights and also its evolution over a period of time.
	CO2: Demonstrate an understanding of Human Rights at International Regime.
	CO3: Correlate the legislations drafted in relation to International Human Rights.
	CO4: Deduce the importance and significance of International Human Rights.
	CO5: Devise the functioning of the agencies in implementing Human Rights.
	CO6: Solve the theoretical and practical challenges in order to realize human rights.
	CO1: Demonstrate the procedure as to how to draft a patent application
	CO2: Devise the nature and forms of Patents specification.
	CO3: Illustrate the significance and functions of patent claims.
	CO4: Relate with the nuances involved in Patent Drafting and Specification Writing
BAL904	CO1: demonstrate the meaning and significance of various human rights in the contemporary era and the mechanisms developed at the international and national level for protection and promotion of such rights
	CO2: correlate instruction in Constitutional Law and International Law in the context of Human Rights Practice
	CO3: evaluate underlying values of human rights and to explore various international and national legal frameworks which embody human rights and promote them in practice
	CO4: write about the contributions of Western and Indian political thinkers in the context of Human Right Practices
	CO1: Relate with the current issues involving Corporate Governance.

	CO2:Connect the principle of Corporate Social Responsibility and its significance in today's scenario.
	CO3:Appraise the principles governing Corporate Governance.
	CO4:Show the detailed procedure of winding up.
	CO5:Articulate the legal framework of corporate governance in India.
	CO1: Discover the various laws related to women;
	CO2: Devise the aspects of international laws related to women.
	CO3: Evaluate the constitutional and penal provisions as related to the protection of the women
	CO4: Develop knowledge of major legislations and their resulting impact;
	CO1:Illustrate the Labour Legislations and its application in protecting the rights of labourers.
	CO2:Demonstrate the role and importance of various labour welfare legislations.
	CO3:Develop an understanding in relation to International Labour Organization.
	CO4:Relate to the current issues in relation to Labour Laws.
	CO5:Correlate the Wages and Social Security Legislations.
	CO1:Demonstrate the basic concepts of IP Management.
	CO2:Illustrate the regulatory framework of IP Management.
	CO3:Develop coherence with IP Auditing.
	CO4:Deduce the role of Commercialization for IPs.
	CO5:Correlate the significance of IP management in current trends.
BAL905	CO1: relate to the modalities and techniques of resolution of conflict which is a necessary component in the endeavors of developing expertise in juridical exercise.
	CO2: analyze the traditional justice delivery system through adjudication by along with an alternative mode of dispute resolution in the common law countries.
	CO3: evaluate the proper deliverance of justice through Arbitration and conciliation process in India
	CO4: develop the approach innovatively to reach the needy ones through proper mechanism to provide them legal aid.

BAL1001	CO1. demonstrate the knowledge on the third tier of Administration i.e., Local Self Government including Rural and Urban Administration
	CO2. Analyze and evaluate glorious historical background of local administration and its advent and disappearance due to change in political structure and social dynamics.
	CO3. Write about the Constitutional development and socio-political implications of local self-government
	CO1:Relate with various procedurals aspects of mergers and acquisitions of companies.
	CO2:Correlate with the legal framework involving mergers and acquisitions.
	CO3:Formulate the solution to the case problem involving comprising of mergers and acquisitions.
	CO4:Illustrate the procedural aspect of M & A's.
	CO5:Appraise the current trends of M & A's.
	CO1: Use knowledge of major incidents of cybercrime and their resulting impact
	CO2: Analyze and discuss national cyber law and its enforcement efforts;
	CO3: Critically evaluate the impact of cybercrime on Data Protection;
	CO4: Discuss the facets of Freedom of Speech and Expression in the Cyberspace domain.
	CO1:Demonstrate the purpose of UNCITRAL Model Code.
	CO2:Relate to the current trends involving UNCTRAL Model Code.
	CO3:Develop an understanding of Arbitration Award, its recognition and enforcement.
	CO4:Appraise the various legislations involving UNCITRAL Model Code.
	CO5:Illustrate the applicability of UNCITRAL Model Code.
	CO1: Demonstrate the growth and significance of copyright in India.
	CO2:Illustrate the regulatory framework for copyright for registration.
	CO3: Appraise the rights which are conferred on the owner by virtue of copyright.
	CO4:Develop coherence in assignment and licensing of copyrights.
	CO5:Relate to the current trends in relation to copyright laws.
BAL1002	CO1:articulate the basic need and necessity of Right to Information
	CO2:correlate principles relating to Right to Information underlying in our constitutional machinery

	CO3:critically evaluate principles of Constitutional Law and statutory provisions in the context of Right to Information Practice and Procedure
	CO4: collaborate the mechanism provided for the achievement of the purpose of Right to Information and its implementation in rural and urban; central and state and within and outside of state machinery
	CO1:Illustrate the role of Competition Commission of India in regulating competition law.
	CO2:Articulate the regulatory framework of Competition Law.
	CO3:Deduce the importance of Competition Law in regulating the market forces.
	CO4:Relate with the various legislations dealing with competition law.
	CO5:Appraise the legislative framework of Competition Law in India.
	CO1: Demonstrate the significance of Probation & Parole.
	CO2: Analyze the prison reform system in India- post and pre independence
	CO3: Evaluate the regulatory framework of the probation of offenders act
	CO4: Develop knowledge of various laws related to Probation & Parole along with the prescribed formalities
	CO1:Solve the jurisdictional issues relating to the Sea.
	CO2:Show the significance of Maritime Law as a separate branch of law.
	CO3:Illustrate various International Legislations incorporating principles of Maritime Law.
	CO4:Relate with the current international issues involving Maritime Laws.
	CO1:Demonstrate the significance and importance of Trademarks and Designs.
	CO2:Illustrate the underlying principle behind trademarks and Designs
	CO3:Relate with the legislative framework comprising of trademarks and Designs in India.
	CO4:Develop application based knowledge towards the law governing trademarks and designs in the current issues.
BAL1003	CO1: demonstrate basic concepts, theories and rights related to Freedom of speech and expression guaranteed by the State
	CO2: correlate instruction in Constitutional Law and statutes governing regulation of Indian media

	CO3: critically evaluate the persistent media laws, freedom of media, and regulation
	CO4: write about the restriction of media in India and its comparison with the world.
	CO1: Demonstrate an understanding regarding various laws governing different mode of carriage of goods.
	CO2: Deduce the regulatory framework involved in dealing with carriage of goods.
	CO3: Relate with these legislations in the current issues involving carriage of goods.
	CO4: Use the principles governing carriage laws.
	CO1: Apply literacy in the key concepts and theoretical approaches that characterize core sociological and criminological traditions;
	CO2: Connect a basic ability to apply sociological and criminological ideas in the analysis of everyday social life;
	CO3: Evaluate the various theories of the punishment with correctional methods in current scenario
	CO4: Design the appropriate methodological approaches to different types of sociological and criminological question;
	CO1: Demonstrate the principles of Humanitarian Law.
	CO2: Illustrate the Refugee problem in Asia and Africa.
	CO3: Appraise the enforcement machinery involved in humanitarian law.
	CO4: Relate with the current issues of refugees by application of Humanitarian and Refugee Laws.
	CO5: Articulate various regulatory and legislative framework involving Refugee issues.
	CO1: Demonstrate the concept of IPR Litigation.
	CO2: Illustrate the significance and importance of IP in Litigation
	CO3: Correlate various laws involved in IP Litigation.
	CO4: Appraise the current situation of IP Litigation in India.
BAL1004	CO1: articulate the policy dimension of Citizenship and issues related with Emigration laws
	CO2: analyze instruction to balance the academic aspect of the Course matter with the help of assigned readings of cases, statutes, regulations and problems

CO3: Evaluate and develop the basic notions and nuances of Citizenship, Domicile and Emigration policies of Government of India, their development over passage of time and its impact on Policies made for Citizens and Immigrants

CO1:Relate with the provisions of the Insolvency and Bankruptcy Code, 2016.

CO2:Appraise the current trends involving the principles of Insolvency and Bankruptcy.

CO3:Illustrate the regulatory framework of Insolvency.

CO4:Demonstrate the regulatory framework of Bankruptcy in India.

CO5:Articulate various legislations involving insolvency and bankruptcy.

CO1: Demonstrate familiarity with the various definitions of white-collar crime.

CO2: Analyze the rationales or explanation for the committing of white-collar crimes.

CO3: Criticize the white collar crime through course discussions.

CO4: Develop an understanding of other tenets that may be used to include white-collar crimes such as organizational or corporate crimes and to develop a reasonable amount of knowledge about the various types of white-collar crime.

CO1:Demonstrate the concepts of International Criminal Law.

CO2:Relate with the International Criminal Justice System.

CO3:Illustrate the Individual Criminal Responsibility in international criminal law regime.

CO4:Solve the issues of jurisdiction involved in International Criminal Law.

CO5:Develop an understanding in regards to crimes against humanity.

CO1:Demonstrate the importance and need for protecting biodiversity.

CO2:Correlate various legislations involving biodiversity protection.

CO3:Illustrate the policies which govern biodiversity protection in India.

CO4:Appraise the functions of implementing agencies for protecting biodiversity.

CO5:Use the biodiversity law to the current trends involving issues of biodiversity.

BCom LLB(H)

PROGRAM OUTCOMES	
PO 1	Represent best interests of the client/parties in a professional and ethical manner
PO2	Accurately identify possible researchable areas and independently research on them with the help of innovative tools.
PO 3	Ability to understand, analyze and communicate global, economic, legal, and ethical aspects of management and legal fraternity
PO 4	Ability to lead themselves and others in the achievement of organizational goals, contributing effectively to a team environment
PO 5	Develop strong soft-skills and organizational Behaviour, so that they become industry-ready, when they complete B.Com.LL.B (Hons.) course.
PO 6	Understand the impact of the professional, legal solutions in societal and environmental contexts and demonstrate the knowledge of and need for sustainable development.
PO 7	Develop entrepreneurial skills for creating and managing innovation, new business development and high-growth potential entity with positive attitude
PO 8	Apply ethical principles and commit to legal professional ethics, responsibilities and norms of the established legal practices

Paper Code	CO's
BCL101	CO1: Demonstrate the concept of double entry system and principles of accounting.
	CO2: Apply critical thinking and problem solving skill for preparation of trading and profit and loss account and balance sheet of sole trader.
	CO3: Illustrate various methods of maintaining accounts of Departments.
	CO4: Analyze accounting for branches and departments

	CO5: Formulate the accounting of single entry system and its difference with double entry system.
BCL102	CO1: Deduce the significance of Management at various levels and it's functions.
	CO2: Illustrate the managerial roles and skills with special attention to managerial responsibility for effective and efficient achievement of goals.
	CO3: Develop the planning process its types and various decision making models.
	CO4: Analyze the nature of organization structure and its different types explaining Span of Control.
	CO5: Correlate directing principles, its components and apply the control methods.
BCL103	CO1: Use equations, formulae, and mathematical expressions and relationships in a variety of contexts
	CO2: Demonstrate the knowledge in mathematics (algebra, matrices, calculus) in solving business problems
	CO3: Analyze and demonstrate mathematical skills required in mathematically intensive areas in Economics and business.
	CO4: Connect the concept in international business concepts with functioning of global trade
BCL104	CO1: Demonstrate complex legal texts. Summarize information and reconstruct arguments in a coherent presentation.

	CO2: Illustrate of organized and coherent communications and essays with clear paragraphs and appropriate methods for introducing and concluding.
	CO3: Pivot the well-supported communications and essays using different patterns of development taking into consideration purpose and audience.
BCL105	CO1: Articulate the principles of Tortious Liability The defenses available in an action for torts the capacity of parties to sue and be sued and matters connection there with.
	CO2: Evaluate the specific torts against the individual and property. With rapid industrialization, inadequacy of the law to protect the individual is exposed.
	CO3: Formulate the alternative forms, and also the remedies provided under the Consumer Protection Act, 2019
BCL106	CO1: Articulate the basic concepts and terminology of the law of contract;
	CO2: Demonstrate the various processes involved in contract formation;
	CO3: Devise the relevant legal issues that arise on a given set of facts in the area of contract law;
	CO4: Evolve a range of approaches to written communication, and apply the critical thinking required to bring about creative solutions to complex legal problems in the area of contract law;
	CO5: Formulate oral and written arguments in response to a given set of fact
BCL201	CO1 Demonstrate good understanding of accounting treatment with respect to issue ,redemption of shares and debentures in capital structure of company.
	CO2 Analyze the role of the accounting for merger, internal reconstruction of companies.
	CO3 Create and prepare the final accounts of companies as per vertical format
	CO4 Evaluate the valuation method of shares and goodwill and measurement of performance of companies.

	CO5 Evaluate and compare the consolidated balance sheet of holding with one subsidiary company along with liquidation of company.
	CO6 Formulate and exhibit accounting for banking companies and analyzing the effect of NPA on the profitability of banks.
BCL202	CO1: Demonstrate the meaning of statistical terms used in business statistics.
	CO2: Analyze statistical data using measures of central tendency, dispersion and skewness.
	CO3: Relate the simple correlation for a set of data.
	CO4: Actuate Index numbers and its use.
	CO5: Decide the adequacy of Index number formulae.
BCL203	CO1: Develop leadership skill by addressing the human side of enterprise.
	CO2: Analyze individual behavior in organizations, including attitudes, job satisfaction, emotions, personality, values, perception, decision making, and motivational theories.
	CO3: Synthesize group behavior in organizations, including communication, leadership, power and politics, conflict, and negotiations.
	CO4: Appraise the organizational system, including organizational structures, culture, human resources, and change.
BCL204	CO1: Use complex legal texts. Summarize information and reconstruct arguments in a coherent presentation.
	CO2: Construct organized and coherent communications and essays with clear paragraphs and appropriate methods for introducing and concluding.
	CO3: Develop well-supported communications and essays using different patterns of development taking into consideration purpose and audience.
BCL205	CO1: Demonstrate the nature, features and sources of Constitution of India;
	CO2: Analyze the Executive system of Central and state

	CO3: Categorize the Legislative procedures and Privileges; Judicial review of Ordinances;
	CO4: Formulate the independence of judiciary and the appointment and transfer of Judges of Constitutional Courts; Distribution of legislative powers between the Centre and the State;
BCL206	CO1: Articulate the context and rationale of specific contracts of Indemnity, Guarantee, Bailment, Pledge and Agency.
	CO2: Relate the principles and doctrines that guide such contracts.
	CO3: Refine the rights and duties of parties and legal concepts involved in such contracts.
	CO4: Formulate the relation such specific contracts have with our day to day commercial activities and their impact on the social and economic front.
BCL301	CO1: Demonstrate the concept of cost accounting and analyze material cost by various methods of pricing material issues.
	CO2: Develop the knowledge about remuneration and incentives of labour with calculations of overheads.
	CO3: Use the knowledge on preparation of cost sheet in organization from practical point of view.
	CO4: Deduce the meaning of process costing with accounting procedure of costing and analysis the treatment of normal and abnormal losses & gains.

	CO5: Develop the knowledge of operating costing with various methods and techniques of operating costing.
BCL302	CO1: Relate with the tools of Management Accounting
	CO2: Appraise and analyze the Financial Statements
	CO3: Analyze the Management Costing and Standard Costing
	CO4: Use the concept of budgetary control while taking managerial decisions.
BCL303	CO1: Show its importance in today's time
	CO2: Analyze the basic grammar and punctuations of Hindi language.
	CO3: Develop familiarization with Hindi Literature.
	CO4: Formulate command over linguistic and grammatical importance in view of the Judicial Service Exams.
	CO1: Show its importance in today's time
	CO2: Analyze the basic visuals, auditory of French.
	CO3: Develop familiarization with the Francophone cultures.
	CO4: Contrast the similarities and differences between his/her own culture and those of various French-speaking cultures
BCL304	CO5: Write sentences and phrases to express opinions on topics related to the self, personal interest, and everyday life.
	CO1: Discover lacunas within the criminal justice system and suggest the amendments have to make to provide the justice according to the changing needs of the society.
	CO2: Summarize the process of judicial review and identify criteria used by courts to evaluate the constitutionality of criminal law of India.

	CO3: Identify and synthesize social theory about crime, justice, and social deviance and explain and address various obstacles and barriers experienced by individuals before, during, and after internment
BCL305	CO1: Relate the importance of constitution in view of democracy
	CO2: Categorize the structure of fundamental rights
	CO3: Value the nature of directive principles of state policy
	CO4: measure the power and procedure of amendment process of the Indian constitution
BCL306	CO1: Discover basic concepts like marriage, divorce, parental custody, domestic abuse and children's rights.
	CO2: Analyze concepts of Family law to examine historical and social contexts that have influenced the modern definition and regulation of families.
	CO3: Evaluate the Skills of thinking, analysis, written and verbal presentation of ideas of Argument in the cases related to family law
BCL401	CO1 Demonstrate the basic principles of Higher Accounting.
	CO2 Relate with Investment Accounting.
	CO3 Use of accounting for Insurance Companies and Hotel Companies.
	CO4 Connect and Correlate the Accounting Policies for banking sector.
	CO5 Develop command on Double Accounting System.
BCL402	CO1 Demonstrate the principles of auditing and the procedure of the same.
	CO2 Explain about audit planning and execution.
	CO3 Relate with the concepts of auditing and accounting.

	CO4 Illustrate the International Financial Reporting Standards.
	CO5 Appraise the special area of audit and investigation.
BCL403	CO1: Demonstrate the basic concepts of Hindi language and its importance in today's time
	CO2: Appraise the enriched literature of Hindi language.
	CO3: Relate with famous authors and writers of Hindi Literature.
	CO4: Develop command over linguistic skills in view of the Judicial Service Exams.
	CO1: Demonstrate the comprehensive and the grammatical concept of French language and its importance in today's time
	CO2: Relate with the advanced visuals, auditory and kinesthetic of French.
	CO3: Synthesize the French tourism and history.
	CO4: Contrast the similarities and differences between his/her own culture and those of various French-speaking cultures
	CO5: Appraise and critique each other's oral and written performance for learning purposes.
BCL404	CO1: Demonstrate an in-depth understanding of the aspects of criminal justice or law and its relationship to larger social issues
	CO2: Illustrate the framework of code of criminal procedure in India
	CO3: Identify explain and apply the principles of criminal law covered in the course
	CO4: Develop the thought process related to Juvenile Justice and Probation with latest amendments.

BCL405	CO1: Demonstrate an advanced and integrated understanding of the political, social, historical, philosophical, and economic context of law.
	CO2: Relate to the evaluation of legal theory and their implications for policy.
	CO3: evaluate complex problems relating to law and legal theory and make reasoned and appropriate choices amongst alternatives.
	CO4: Develop the thought process related to Legal System
BCL406	CO1: Demonstrate the concepts like Succession, Inheritance
	CO2: Correlate the personal laws in India
	CO3: Evaluate & Gain skills of thinking, analysis, written and verbal presentation of ideas of argument.
	CO4: Develop the approach towards the various provisions as related to property distribution in muslims.
BCL501	CO1 Demonstrate a good understanding of basic concepts and provisions of income tax.
	CO2 Correlate the five heads of income and analysis of its taxable income.
	CO3 calculate gross total Income by applying provisions, aggregate income after set-off and carry forward of losses.
	CO4 Deduce Individual's total income after providing deductions U/S 80C-80.
	CO5 Decide the Individual's tax liability after aggregating TDS, TCS, advance payment of tax, penalties and interest.
	CO6 Appraise the filing of e-returns and assessment procedure
BCL502/BCL503/BCL504	CO1: demonstrate the basic knowledge of components of computer.
	CO2: analyze the internal and external devices and its uses

	CO3: appraise the role of the computer system in daily life
	CO4: develop real life orientation in the professional career
	CO1: demonstrate with basic understanding on the various forms of government
	CO2: critically analyze the evolution and development of civil rights
	CO3: evaluate crucial jurisdictional issues in the light of judicial process and review
	CO4: develop an exposure to understand the comparative analysis of the organization of legislative and judicial powers of US, UK, France, Australia and Canada
	CO1: demonstrate an overview of applicable laws relating to energy sector in India
	CO2: critically analyze specific areas of energy sector
	CO3: evaluate mapping of various laws and policies relating to energy sector
	CO4: develop an exposure to understand case studies on energy sector covering government policies, judicial decisions and related topics such as environment, business, national and international trade etc
	CO1: demonstrate an overview of the basic principles of Food Safety Law and Policy
	CO2: critically analyze the application of Public Distribution System
	CO3: evaluate the impact on other areas such as Human Rights and Women Empowerment in a holistic view
	CO4: develop a sense of social responsibility
	CO1: articulate the framework for elections in India, democracy and the rationale behind it

	CO2: critically analyze the requisite constitutional and statutory provisions pertaining to conduct of elections in India
	CO3: evaluate the role of the Election Commission in the conduct of free and fair elections
	CO4: formulate an analogy on the eligibility criteria laid down by the laws for contesting elections in India and matters incidental thereto.
	CO1: relate to the necessity for a separate discipline on space law.
	CO2: critically analyze the limitations and liabilities of state parties in exploration of outer space
	CO3: evaluate that outer space is a limited natural resource to be explored in sustainable manner
	CO4: develop an analogy with regard to space legislation of various nations and explore the economic opportunities in outer space and the role of private participants
	CO1: relate to legal regulation of sports governing bodies, management of sport, tort liability and risk management in sports
	CO2: critically analyze the Contractual obligations in sports
	CO3: evaluate the crucial issue of intellectual property rights in sports
	CO4: develop an analogy with regard to legal issues that are essential for successfully managing a sport enterprise.
BCL505	CO1: Demonstrate the concept and nature of transfer of immovable property,
	CO2: Illustrate the different types of transfers and rules relating to transfer of property within two living persons and the consequences of it
	CO3: Evaluate the rules relating to general transfer of immovable property

	CO4: Determine the rules of Sale of Immovable Property and rights and liabilities of seller and buyer, Mortgages, Leases, Exchanges, Gift and Actionable Claims rights and liabilities of transferor and transferee
BCL506	CO1: Apply the concept and general nature of evidence by Interpreting the rule relating to relevance of evidence and admissibility of evidence before the court
	CO2: Illustrate the different types of evidence and court procedures relating to evidence.
	CO3: Analyze the standard of proof and burden of proof in civil and criminal cases, and specify types of presumptions including the rules relating to dying declaration and admissibility of dying declaration
	CO4: Evaluate the rules governing examination in chief, cross examination and re-examination and establish the procedures in the conduct of a civil or criminal trial

	CO2 :Use intra-state and inter-state supply rules related to the place of supply and compute the value of supply.
	CO3 :Calculate input tax credit, and the reverse charge mechanism of paying GST and to know the procedure for claiming refund under GST law.
	CO4: Appraise the value of transactions related to goods and services for levy and determination of duty liability
	CO5: Value the concepts of the Act and compute the assessable value customs duty.
BCL602/BCL603/BCL604	CO1: demonstrate basic programming language and its uses
	CO2: Analyze and evaluate MS Word and Legal Search Engines
	CO3: formulate the role of the Information Technology in legal education with latest trends

	CO1: demonstrate basic conceptual facets of the Course and the Board of Revenue and other revenue officers
	CO2: analyze and evaluate the process of fixing tenure by various revenue officers
	CO3: develop an analogy with regard to the rights of bhumiswami and unoccupied tenant under various legal provisions
	CO1: relate to law, legal institutions and administration system in India during British Rule
	CO2: critically analyze the colonial rule till independent India
	CO3: evaluate the present legal system in context of the Legal and Constitutional History of the colonial period
	CO4: develop an analogy with regard to growth of Administrative, Judicial and Legislative institutions in Colonial India to get an appropriate insight of the present institutions
	CO1: demonstrate basic conceptual facets of the Course and the inter-related aspects of Medicine and health
	CO2: critically analyze the legal and moral issues of varying degree at different stages of advancement in the sphere of Health Laws
	CO3: evaluate crucial jurisdictional issues in the light of intricate legal and moral issues associated with the administration of treatment and performance of medical procedures
	CO4: develop an analogy with regard to the Right to health and access to medicine in the backdrop of medical advancement
	CO1: articulate basic conceptual facets of the Course and the fundamental interpretations governing the field
	CO2: critically analyze the different personal factors dominating the trans-national activities
	CO3: evaluate crucial jurisdictional issues in the light of English rules and issues relating to sovereign immunity and the status of foreign judgements

	CO4: develop an analogy with regard to the marital status and child care in the wake of various transactions across the borders and envisages the commercial and tortuous liability with reference to trans-national omissions and commissions
	CO1: demonstrate the concepts, functions, management, and problems related to entrepreneurship
	CO2: critically analyze the steps involved in the business project proposal and its evaluation
	CO3: evaluate the concepts of entrepreneurship required for setting-up of a business enterprise
	CO4: collaborate business opportunities and making a decision about the success of the enterprise
	CO1: articulate the international conventions on animal welfare laws
	CO2: analyze the underpinning of legal relationship with other members of animal kingdom in an historical context
	CO3: evaluate crucial issues in the light of rules and learn to formulate and develop the arguments related to animal rights
	CO4: formulate an analogy with regard to the development with legal and ethical issues
BCL605	CO1: Sketch the Nature and development of law relating to administration and effective means of administrative control. The Focus is on their role in protecting the rights of individuals against abuse of administration and adjudicatory powers of the administration and liability of administrative authorities.
	CO2: Analyze and predict how unresolved or ambiguous administrative law questions could be resolved by the courts through an analysis of case law and the judicial method.

	CO3: Evaluate and apply the principles of administrative law covered in the course.
	CO4: Develop the approach towards the implementation of administrative law
BCL606	CO1: Demonstrate the detail procedure for redressal of civil rights.
	CO2: Understand, where the suit is to be filed? The essential forms and procedure for institution of suit, the documents in support and against, evidence taking and trial, dimensions of an interim order, the peculiar nature of the suits, the complexities of executing a decree and provisions for appeal and revision are all matters which a lawyer for any side is to be familiar with.
	CO3: Build good grounding in the Course before one enters the litigation profession
BCL701	CO1: demonstrate expertise to apply legal principles to issues that frequently arise in the art world
	CO2: critically analyze ethical issues that arise when acquiring art by private buyers, as well as by museums and galleries
	CO3: evaluate coherently and persuasively about the legal and ethical implications of decisions involving cultural heritage, have a new found appreciation for art & antiquities and work diligently towards cultural heritage protection
	CO4: develop analogy in relation to contemporary themes, current debates and trends in art & cultural Heritage protection through law and policy tools in a comparative context
	CO1: demonstrate the technical and aesthetical development of cinema as a medium of art
	CO2: critically analyze the impact of socio-economic conditions on the development of Cinema
	CO3: evaluate the growth of Cinema as the modern artistic medium with special emphasis on the underlying ethical issues

	CO4: develop an analogy with regard to best contemporary ethical and professional practices in Cinema, as dictated by legal standards
	CO1: relate with the broad outline of Indian Philosophy including basic conceptual facets like logic, ethics, epistemology and metaphysics of the Course and the fundamental interpretations governing the field
	CO2: analyze the Ethical thinking underlying in the Indian Philosophy which is constantly Cosmo centric and duty oriented.
	CO3: evaluate crucial jurisdictional issues in the light of English rules and issues relating to sovereign immunity and the status of foreign judgements.
	CO4: develop an analogy towards special and distinctive ideas and aspects of Indian epistemology
BCL702	CO1: demonstrate comprehensive knowledge and understanding of the way in which the international financial system operates
	CO2: analyze the operations and synthesize the recent advanced research in the area of International Banking and Finance
	CO3: evaluate trends in the international financial markets
	CO4: formulate an analogy with regard to key policy issues that arise from the developments studied
	CO1: articulate psychological principles from the perspective of legal profession as well as policy and legislative decisions
	CO2: analyze different areas of psychology affected by law and visa-versa developmental psychology, social psychology, clinical psychology and cognitive psychology

	CO3: evaluate crucial jurisdictional issues underlying in the co-relation between the legal system and the psychological effect it has on the Courses within its ambit
	CO4: develop critical thinking with respect dilemmas inherent in a psychological approach to the legal theories
	CO1: articulate basic conceptual facets of the Course and the students will be able to discuss the different standings on which PILs are admitted
	CO2: critically analyze the different personal factors and will be able to explain the differences between the adversarial and inquisitorial procedures.
	CO3: evaluate crucial jurisdictional issues in the light of socio-legal aspects and sensitize them to the problems of the downtrodden and weaker sections of the society, and to inculcate social responsibilities in the students.
	CO4: develop an analogy with regard to exposure to public interest lawyering and the cases in which courts have made deviation from strict formalities to uphold the rights of common man
BCL703	CO1: Discover various fact scenarios the concept of separate legal entity.
	CO2: Correlate the basic documents such as MOA and AOA required for company.
	CO3: Evolve corporate law resources and to learn company law both independently and cooperatively in a professional environment.
	CO4: Develop socially reasonable corporate behavior.
BCL704	CO1: Actuate the judicial setup of Labour Laws.
	CO2: Analyze the industrial disputes and trade unions power and function also to integrate the knowledge of Labour Law in General HRD Practice.

	CO3: Evaluate the laws relating to Industrial Relations, Working conditions and also learns the enquiry procedural and industrial discipline.
	CO4: Develop the approach towards the labour's condition in India post independence.
BCL705	CO1: Use the fundamental concepts of income tax law
	CO2: Analyze a broad understanding of tax laws in India
	CO3: Argue between the Direct and indirect taxes in reference to GST
	CO4: Construct tax law research by using research skills to interrogate primary and secondary legal materials, and Analyze and synthesize complex legal information
BCL706	CO1: Articulate the argumentation process and apply the legal drafting abilities during the appearances before Court and Tribunals
	CO2: Analyze the concept of Pleading and various rules of pleading and able to handle the client during the course of interaction.
	CO3: Reframe the various forms of conveyance deed such as sale deed, gift, mortgage etc.
	CO4: Develop the legal drafting skills and understand practical aspect of registration of such documents
BCL801	CO1: demonstrate basic conceptual facets of the Course and the fundamental interpretations governing the field of disasters and its relationships with development
	CO2: critically analyze the Medical and Psycho-Social Response to Disasters.
	CO3: evaluate crucial jurisdictional issues in the light of rules and issues relating to prevention and control of Public Health consequences of Disasters and legal implications.

	CO4: develop an analogy regarding the Disaster Risk Management institutional processes in India and underlying legal aspects
	CO1: demonstrate basic conceptual facets of the Course and the fundamental understanding of Law and Poverty
	CO2: analyze the basic legal issues of the socially, economically disadvantaged weaker sections of the society along with the examination of how the legal system deals with the issue of access to justice to the poor
	CO3: evaluate beneficial schemes and welfare measures of the Government and its effective implementation for alleviation of poverty
	CO4: develop an analogy regarding the role of the international legal arrangement in dealing with the issue of poverty
	CO1: demonstrate basic conceptual facets of national security and how nations look into this critical element in their policy and strategy
	CO2: critically analyze the basic instruments of national security and how institutions work in close coordination to define the challenges and address them to secure their national interests both within the borders and at international level
	CO3: evaluate national security apparatus of different countries and how they coordinate among themselves.
	CO4: write upon security scenario at the international level in terms of terror networks, military modernization, rogue states, nuclear proliferation and environmental security.
BCL802	CO1: demonstrate basic conceptual facets of Industrial Jurisprudence and the fundamental interpretations governing the welfare legislation

	CO2: critically analyze the constitutional remedies available in case of violation of constitutional provisions related to labour welfare
	CO3: evaluate crucial jurisdictional issues in the light of application of natural justice and actions in the Context of your industry, organization establishment and employment so that the natural Justice is done to an employee
	CO4: develop an analogy in relation to underlying principles of social justice, in the context of labour and management relations
	CO1: demonstrate basic conceptual facets of National Security and its essential attributes
	CO2: critically analyze the asymmetrical challenges both at national front and international level
	CO3: evaluate crucial jurisdictional issues in the light of new challenges coming in digital era
	CO4: develop an analogy in relation to national response to these challenges
	CO1: demonstrate basic conceptual facets of Industrial Jurisprudence and the fundamental interpretations governing the welfare legislation
	CO2: critically analyze the constitutional remedies available in case of violation of constitutional provisions related to labour welfare
	CO3: evaluate crucial jurisdictional issues in the light of application of natural justice and actions in the Context of your industry, organization establishment and employment so that the natural Justice is done to an employee

	CO4: develop an analogy in relation to underlying principles of social justice, in the context of labour and management relations
BCL803	CO1. Actuate the laws relating to Industrial Relations in reference to labour policy in India
	CO2.Devise the skills to adhere the concepts of Social Security and wages problems in industries
	CO3. Solve the labour welfare problems with the help of proper mechanism.
	CO4: Develop the approach to learn the enquiry procedural and industrial discipline.
BCL804	CO1: Actuate the complex body of knowledge in the field of environmental law
	CO2: Devise the capacity to identify new law and apply existing law in the rapidly evolving legal context for environmental law
	CO3: Compare the environmental aspect on a national level with other countries.
	CO4:Develop the specialist area of environmental law and associated disciplinary areas
BCL805	CO1: Demonstrate knowledge and understanding of the international rights framework, its origins and justifying theories;
	CO2: Differentiate the various contemporary international issues including extradition and asylum.
	CO3: Critically evaluate the relationship between international and municipal law
	CO4: Develop the capacity to assess how specific human rights may be asserted, enforced or violated;
BCL806	CO1: Demonstrate the professional ethics and ethical standard of the legal profession.

BCL901	CO2: Analyze the key themes in professional ethics, in order to give them an insight into moral decision making in the legal profession.
	CO3: Refine the suitable ethical compasses for legal decision making
	CO4: Design the approach towards art of professional ethics i.e how should they balance duties to their client to the Courts, to justice in the abstract, and to themselves
	CO1. articulate the techniques adopted by courts in construing statutes and the importance of the law making process in the present context
	CO2. analyze and evaluate the matters to be reckoned with by legislature while enacting laws
	CO3. formulate the notion and nuances of the judicial interpretation, construction of words, phrases and expressions
	CO1:Develop in depth knowledge of the concept of Equity.
	CO2:Appraise the legislations involving Equity and Trust.
	CO3:Relate these concepts with the current trends.
	CO4:Deduce the framework of the Equity and Trust Laws
	CO1: Demonstrate the main concepts of victimisation and penology and describe their trends in criminal justice
	CO2: Relate historical developments in penology with regards to the reasons for punishment.
	CO3: Critically assess the role of victims and punishment in the Israeli justice system and explore possible alternatives
	CO4: Develop the approach to understand victimisation and punishment as complimentary aspects of the criminal process and their reciprocal effect on social perceptions.
	CO1:Illustrate the significance of International Dispute Resolution.
	CO2:Demonstrate the meaning International Commercial Arbitration.
	CO3:Relate with the regulatory framework of the International Dispute Resolution.
	CO4:Judge the role of Arbitral Tribunals.

BCL902	CO5: Articulate these laws with the current trends and analyze the situation as a lawman not a layman.
	CO1: Demonstrate the significance of IT Act in today's scenario.
	CO2: Correlate various legislations in light of IT Act, 2000.
	CO3: Relate IT Act to the current issues and could solve the issue/problem as a lawman and not a layman.
	CO4: Appraise the role of IT Act in the digital age.
	CO5: Solve the IPR issues in cyberspace.
	CO1: understand the federal principle and theory, India has adopted as a federal set-up.
	CO2: critically analyze the concepts of Constitutional law and Federalism as a basic limitation of Constitutionalism, together with Constitutional provisions regarding division of powers and the three lists in the Seventh Schedule of the Constitution, and related provisions.
	CO3: examine judicial trends and emerging challenges in response to Federal structure handled by the Supreme Court and other instrumentalities.
	CO4: analyze in detail the contributions of Western and Indian Constitutional thinkers in the context of Indian federal structure
	CO1: Demonstrate the banking system in India
	CO2: Use the provisions of the Negotiable Instruments Act, 1881 in the practical scenarios.
	CO3: Correlate with the banking system in India.
	CO4: Relate with the concept of banking in E-Commerce.

	CO5:Appraise the new emerging dimensions in banking system.
	CO6:Develop Judicial Interpretation of Banking Law.
	CO1: Discover the human rights of the prisoners including under trial
	CO2: Analyze the human rights of those accused who are facing a criminal trial
	CO3: Evaluate how human rights law has impacted upon sentencing and punishment, including a study of the death penalty from a human rights perspective
	CO4: Determine the human rights of prisoners with the help of case studies
	CO1:Correlate different International Organizations.
	CO2:Deduce the role of International Organizations in contributing in maintain cooperative relations among nations.
	CO3:Relate with the legislations involving various International Organizations.
	CO4:Illustrate the International system of Politics.
	CO5:Appraise the functions of various International Organizations.
	CO1:Illustrate the purpose and the rationale behind the creation of the patent rights.
	CO2:Value the contribution of patent rights in promoting innovation.
	CO3:Correlate the development of patent Rights across different nations namely UK, US and India.
	CO4:Illustrate legislative framework of patent laws in India.

	CO5:Show as to how to file an application of patents and how it is registered.
BCL903	CO1: understand the basic theories and functioning of the very concept of Affirmative Action and its origin.
	CO2: Discriminative Justice provided under Indian Constitution.
	CO3: evaluate the notion and nuances of Policies and its effect on Affirmative Action and Discriminative Justice.
	CO1: Demonstrate the basic concepts of Insurance Law.
	CO2: Relate with the Insurance Law applicable in India.
	CO3: Show the fundamental policy choices inculcated in the Insurance Legislations.
	CO4: Formulate solution to the current issues involving law of Insurance.
	CO5: Appraise different types of Insurances.
	CO1: Demonstrate the theoretical explanations of the causes, dynamics, and consequences of juvenile delinquency
	CO2: Analyze the issues of law enforcement related to juvenile delinquency
	CO3: Evaluate the issues of juvenile delinquency in the context of Juvenile Justice act 2015
	CO4: Develop the skills to deal with the juvenile court system and its handling of cases, as well as other methods of treatment of children and adolescents
	CO1: Illustrate the foundation of the Human Rights and also its evolution over a period of time.

	CO2:Demonstrate an understanding of Human Rights at International Regime.
	CO3:Correlate the legislations drafted in relation to International Human Rights.
	CO4:Deduce the importance and significance of International Human Rights.
	CO5:Device the functioning of the agencies in implementing Human Rights.
	CO6:Solve the theoretical and practical challenges in order to realize human rights.
	CO1:Demonstrate the procedure as to how to draft a patent application
	CO2:Devise the nature and forms of Patents specification.
	CO3:Illustrate the significance and functions of patent claims.
	CO4:Relate with the nuances involved in Patent Drafting and Specification Writing
	CO1: understand the meaning and significance of various human rights in the contemporary era and the mechanisms developed at the international and national level for protection and promotion of such rights..
	CO2: instruction in Constitutional Law and International Law in the context of Human Rights Practice.

BCL904	CO4: evaluate the contributions of Western and Indian political thinkers in the context of Human Right Practices.
	CO1:Relate with the current issues involving Corporate Governance.

	CO2:Connect the principle of Corporate Social Responsibility and its significance in today's scenario.
	CO3:Appraise the principles governing Corporate Governance.
	CO4:Show the detailed procedure of winding up.
	CO5:Articulate the legal framework of corporate governance in India.
	CO1: Discover the various laws related to women;
	CO2: Devise the aspects of international laws related to women.
	CO3: Evaluate the constitutional and penal provisions as related to the protection of the women
	CO4: Develop knowledge of major legislations and their resulting impact;
	CO1:Illustrate the Labour Legislations and its application in protecting the rights of laborers.
	CO2:Demonstrate the role and importance of various labor welfare legislations.
	CO3:Develop an understanding in relation to International Labor Organization.
	CO4:Relate to the current issues in relation to Labor Laws.
	CO5:Correlate the Wages and Social Security Legislations.
	CO1:Demonstrate the basic concepts of IP Management.
	CO2:Illustrate the regulatory framework of IP Management.
	CO3:Develop coherence with IP Auditing.
	CO4:Deduce the role of Commercialization for IPs.
	CO5:Correlate the significance of IP management in current trends.

BCL905	CO1: Involve with the modalities and techniques of resolution of conflict which is a necessary component in the endeavours of developing expertise in juridical exercise.
	CO2: Analyze the traditional justice delivery system through adjudication by along with an alternative mode of dispute resolution in the common law countries.
	CO3: Evaluate the proper deliverance of justice through Arbitration and conciliation process in India
	CO4: Develop the approach innovatively to reach the needy ones through proper mechanism to provide them legal aid.
BCL1001	CO1: Understand the third tier of Administration i.e., Local Self Government including Rural and Urban Administration.
	CO2: Examine the glorious historical background of local administration and its advent and disappearance due to change in political structure and social dynamics.
	CO3: Evaluate the Constitutional development and socio-political implications of local self-government.
	CO1: Relate with various procedural aspects of mergers and acquisitions of companies.
	CO2: Correlate with the legal framework involving mergers and acquisitions.
	CO3: Formulate the solution to the case problem involving comprising of mergers and acquisitions.
	CO4: Illustrate the procedural aspect of M & A's.
	CO5: Appraise the current trends of M & A's.

	CO1: Use knowledge of major incidents of cybercrime and their resulting impact
	CO2: Analyze and discuss national cyber law and its enforcement efforts;
	CO3: Critically evaluate the impact of cybercrime on Data Protection;
	CO4: Discuss the facets of Freedom of Speech and Expression in the Cyberspace domain.
	CO1:Demonstrate the purpose of UNCITRAL Model Code.
	CO2:Relate to the current trends involving UNCTRAL Model Code.
	CO3:Develop an understanding of Arbitration Award, its recognition and enforcement.
	CO4:Appraise the various legislations involving UNCITRAL Model Code.
	CO5:Illustrate the applicability of UNCITRAL Model Code.
	CO1: Demonstrate the growth and significance of copyright in India.
	CO2:Illustrate the regulatory framework for copyright for registration.
	CO3: Appraise the rights which are conferred on the owner by virtue of copyright.
	CO4:Develop coherence in assignment and licensing of copyrights.
	CO5:Relate to the current trends in relation to copyright laws.
BCL1002	CO1: Understand the basic need and necessity of Right to Information underlying in our constitutional machinery.

CO2: Receive instruction in Constitutional Law and statutory provisions in the context of Right to Information Practice and Procedure.
CO3: Examine, the mechanism provided for the achievement of the purpose of Right to Information and its implementation in rural and urban; central and state and within and outside of state machinery.
CO1: Illustrate the role of Competition Commission of India in regulating competition law.
CO2: Articulate the regulatory framework of Competition Law.
CO3: Deduce the importance of Competition Law in regulating the market forces.
CO4: Relate with the various legislations dealing with competition law.
CO5: Appraise the legislative framework of Competition Law in India.
CO1: Demonstrate the significance of Probation & Parole
CO2: Analyze the prison reform system in India- post and pre independence
CO3: Evaluate the regulatory framework of the probation of offenders act
CO4: Develop knowledge of various laws related to Probation & Parole along with the prescribed formalities
CO1: Demonstrate the significance and importance of Trademarks and Designs.
CO2: Illustrate the underlying principle behind trademarks and Designs

	CO3:Relate with the legislative framework comprising of trademarks and Designs in India.
	CO4:Develop application based knowledge towards the law governing trademarks and designs in the current issues.
	CO1:Solve the jurisdictional issues relating to the Sea.
	CO2:Show the significance of Maritime Law as a separate branch of law.
	CO3:Illustrate various International Legislations incorporating principles of Maritime Law.
	CO4:Relate with the current international issues involving Maritime Laws.
	CO1: Understand the basic concepts, theories and rights related to Freedom of speech and expression guaranteed by the State.
	CO2: Receive instruction in Constitutional Law and statutes governing regulation of Indian media.
BCL1003	CO3: Examine the persistent media laws, freedom of media, regulation and restriction of media in India and its comparative analysis with the world.
	CO1:Demonstrate an understanding regarding various laws governing different mode of carriage of goods.
	CO2:Deduce the regulatory framework involved in dealing with carriage of goods.
	CO3:Relate with these legislations in the current issues involving carriage of goods.
	CO4:Use the principles governing carriage laws.

	CO1: Apply literacy in the key concepts and theoretical approaches that characterize core sociological and criminological traditions;
	CO2: Connect a basic ability to apply sociological and criminological ideas in the analysis of everyday social life;
	CO3: Evaluate the various theories of the punishment with correctional methods in current scenario
	CO4: Design the appropriate methodological approaches to different types of sociological and criminological question;
	CO1: Demonstrate the principles of Humanitarian Law.
	CO2: Illustrate the Refugee problem in Asia and Africa.
	CO3: Appraise the enforcement machinery involved in humanitarian law.
	CO4: Relate with the current issues of refugees by application of Humanitarian and Refugee Laws.
	CO5: Articulate various regulatory and legislative framework involving Refugee issues.
	CO1: Demonstrate the concept of IPR Litigation.
	CO2: Illustrate the significance and importance of IP in Litigation
	CO3: Correlate various laws involved in IP Litigation.
	CO4: Appraise the current situation of IP Litigation in India.
BCL1004	CO1: understand the policy dimension of Citizenship and issues related with Emigration laws
	CO2: receive instruction to balance the academic aspect of the Course matter with the help of assigned readings of cases, statutes, regulations and problems

CO3: examine the basic notions and nuances of Citizenship, Domicile and Emigration policies of Government of India, their development over passage of time and its impact on Policies made for Citizens and Immigrants.

CO1:Relate with the provisions of the Insolvency and Bankruptcy Code, 2016.

CO3:Illustrate the regulatory framework of Insolvency.

CO4:Demonstrate the regulatory framework of Bankruptcy in India.

CO5:Articulate various legislations involving insolvency and bankruptcy.

CO1: Demonstrate familiarity with the various definitions of white-collar crime.

CO2: Analyze the rationales or explanation for the committing of white-collar crimes.

CO3: Criticize the white collar crime through course discussions.

CO4: Develop an understanding of other tenets that may be used to include white-collar crimes such as organizational or corporate crimes and to develop a reasonable amount of knowledge about the various types of white-collar crime.

CO1:Demonstrate the concepts of International Criminal Law.

CO2:Relate with the International Criminal Justice System.

CO3:Illustrate the Individual Criminal Responsibility in international criminal law regime.

CO4:Solve the issues of jurisdiction involved in International Criminal Law.

CO5:Develop an understanding in regards to crimes against humanity.

CO1:Demonstrate the importance and need for protecting biodiversity.

CO2:Correlate various legislations involving biodiversity protection.

CO3:Illustrate the policies which govern biodiversity protection in India.

CO4:Appraise the functions of implementing agencies for protecting biodiversity.

CO5:Use the biodiversity law to the current trends involving issues of biodiversity.

BBA LLB(H)

PROGRAM OUTCOMES	
PO 1	Represent best interests of the client/parties in a professional and ethical manner
PO 2	Accurately identify possible researchable areas and independently research on them with the help of innovative tools.
PO 3	Ability to understand, analyze and communicate global, economic, legal, and ethical aspects of management and legal fraternity
PO 4	Ability to lead themselves and others in the achievement of organizational goals, contributing effectively to a team environment
PO 5	Develop strong soft-skills and organizational behaviour, so that they become industry-ready, when they complete BBA LLB (Hons.) course.
PO 6	Understand the impact of the professional, legal solutions in societal and environmental contexts and demonstrate the knowledge of and need for sustainable development
PO 7	Develop entrepreneurial skills for creating and managing innovation, new business development and high-growth potential entity with positive attitude
PO 8	Apply ethical principles and commit to legal professional ethics, responsibilities and norms of the established legal practices.

Paper Code	CO's
BBL101	CO1: Demonstrate the concept of Management its levels and functions.
	CO2: Illustrate the managerial roles and skills with special attention to managerial responsibility for effective and efficient achievement of goals.
	CO3: Apply the planning process and various decision making models.
	CO4: Evolve the nature of organization structure and its different types explaining Span of Control.

	CO5: Modify the directing principles, its components and apply the control
BBL102	CO1: Demonstrate the basic fundamentals of English Grammar required for effective communication.
	CO2: Illustrate English vocabulary & Improving English Speaking Skills (Accent, Intonation & pronunciation)
	CO3: Utilize articulation Skills (to listen, speak and write in English at workplace.
	CO4: Develop corporate etiquettes, group discussion, resume writing (basic ingredients) & mock Interviews
BBL103	CO1: Demonstrate a good understanding the concept of double entry system and principles of accounting.
	CO2: Correlate the critical thinking and problem solving skill for preparation of trading and profit and loss account and balance sheet of sole trader.
	CO3: Evaluate the various methods of maintaining accounts of Departments.
	CO4: Develop understanding about the accounting of single entry system and its difference with double entry system.
BBL104	CO1: Demonstrate complex legal texts. Summarize information and reconstruct arguments in a coherent presentation.
	CO2: Illustrate of organized and coherent communications and essays with clear paragraphs and appropriate methods for introducing and concluding.
	CO3: Pivot the well-supported communications and essays using different patterns of development taking into consideration purpose and audience.
BBL105	CO1: Articulate the principles of Tortuous liability The defenses available in an action for torts the capacity of parties to sue and be sued and matters connection there with.

	CO2: Evaluate the specific torts against the individual and property. With rapid industrialization, inadequacy of the law to protect the individual is exposed.
	CO3: Formulate the alternative forms, and also the remedies provided under the Consumer Protection Act, 2019

BBL802	CO1: demonstrate basic conceptual facets of Industrial Jurisprudence and the fundamental interpretations governing the welfare legislation
	CO2: critically analyze the constitutional remedies available in case of violation of constitutional provisions related to Labour welfare

	CO3: evaluate crucial jurisdictional issues in the light of application of natural justice and actions in the Context of your industry, organization establishment and employment so that the natural Justice is done to an employee
	CO4: develop an analogy in relation to underlying principles of social justice, in the context of labour and management relations
	CO1: demonstrate basic conceptual facets of National Security and its essential attributes
	CO2: critically analyze the asymmetrical challenges both at national front and international level
	CO3: evaluate crucial jurisdictional issues in the light of new challenges coming in digital era
	CO4: develop an analogy in relation to national response to these challenges
	CO1: demonstrate basic conceptual facets of Industrial Jurisprudence and the fundamental interpretations governing the welfare legislation
	CO2: critically analyze the constitutional remedies available in case of violation of constitutional provisions related to Labour welfare
	CO3: evaluate crucial jurisdictional issues in the light of application of natural justice and actions in the Context of your industry, organization establishment and employment so that the natural Justice is done to an employee
	CO4: develop an analogy in relation to underlying principles of social justice, in the context of Labour and management relations
BBL803	CO1. Actuate the laws relating to Industrial Relations in reference to Labour policy in India
	CO2.Devise the skills to adhere the concepts of Social Security and wages problems in industries
	CO3. Solve the Labour welfare problems with the help of proper mechanism.
	CO4: Develop the approach to learn the enquiry procedural and industrial discipline.

BBL804	CO1: Actuate the complex body of knowledge in the field of environmental law
	CO2: Devise the capacity to identify new law and apply existing law in the rapidly evolving legal context for environmental law
	CO3: Compare the environmental aspect on a national level with other countries.
	CO4: Develop the specialist area of environmental law and associated disciplinary areas
BBL805	CO1: Demonstrate knowledge and understanding of the international rights framework, its origins and justifying theories;
	CO2: Differentiate the various contemporary international issues including extradition and asylum.
	CO3: Critically evaluate the relationship between international and municipal law
	CO4: Develop the capacity to assess how specific human rights may be asserted, enforced or violated;
BBL806	CO1: Demonstrate the professional ethics and ethical standard of the legal profession.
	CO2: Analyze the key themes in professional ethics, in order to give them an insight into moral decision making in the legal profession.
	CO3: Refine the suitable ethical compasses for legal decision making
	CO4: Design the approach towards art of professional ethics i.e how should they balance duties to their client to the Courts, to justice in the abstract, and to themselves
BBL901	CO1. articulate the techniques adopted by courts in construing statutes and the importance of the law making process in the present context

	CO2. analyze and evaluate the matters to be reckoned with by legislature while enacting laws
	CO3. formulate the notion and nuances of the judicial interpretation, construction of words, phrases and expressions
	CO1:Develop in depth knowledge of the concept of Equity.
	CO2:Appraise the legislations involving Equity and Trust.
	CO3:Relate these concepts with the current trends.
	CO4:Deduce the framework of the Equity and Trust Laws
	CO1: Demonstrate the main concepts of victimization and penology and describe their trends in criminal justice
	CO2: Relate historical developments in penology with regards to the reasons for punishment.
	CO3: Critically asses the role of victims and punishment in the Israeli justice system and explore possible alternatives
	CO4: Develop the approach to understand victimizations and punishment as complimentary aspects of the criminalprocess and their reciprocal effect on social perceptions.
	CO1:Illustrate the significance of International Dispute Resolution.
	CO2:Demonstrate the meaning International Commercial Arbitration.
	CO3:Relate with the regulatory framework of the International Dispute Resolution.
	CO4:Judge the role of Arbitral Tribunals.
	CO5:Articulate these laws with the current trends and analyze the situation as a lawman not a layman.

	CO1: Demonstrate the significance of IT Act in today's scenario.
	CO2: Correlate various legislations in light of IT Act, 2000.
	CO3: Relate IT Act to the current issues and could solve the issue/problem as a lawman and not a layman.
	CO4: Appraise the role of IT Act in the digital age.
	CO5: Solve the IPR issues in cyberspace.
BBL902	CO1: understand the federal principle and theory, India has adopted as a federal set-up.
	CO2: critically analyze the concepts of Constitutional law and Federalism as a basic limitation of Constitutionalism, together with Constitutional provisions regarding division of powers and the three lists in the Seventh Schedule of the Constitution, and related provisions.
	CO3: examine judicial trends and emerging challenges in response to Federal structure handled by the Supreme Court and other instrumentalities.
	CO4: analyze in detail the contributions of Western and Indian Constitutional thinkers in the context of Indian federal structure
	CO1: Demonstrate the banking system in India
	CO2: Use the provisions of the Negotiable Instruments Act, 1881 in the practical scenarios.
	CO3: Correlate with the banking system in India.
	CO4: Relate with the concept of banking in E-Commerce.
	CO5: Appraise the new emerging dimensions in banking system.
	CO6: Develop Judicial Interpretation of Banking Law.
	CO1: Discover the human rights of the prisoners including under trial
	CO2: Analyze the human rights of those accused who are facing a criminal trial

	CO3: Evaluate how human rights law has impacted upon sentencing and punishment, including a study of the death penalty from a human rights perspective
	CO4: Determine the human rights of prisoners with the help of case studies
	CO1:Correlate different International Organizations.
	CO2:Deduce the role of International Organizations in contributing in maintain cooperative relations among nations.
	CO3:Relate with the legislations involving various International Organizations.
	CO4:Illustrate the International system of Politics.
	CO5:Appraise the functions of various International Organizations.
	CO1:Illustrate the purpose and the rationale behind the creation of the patent rights.
	CO2:Value the contribution of patent rights in promoting innovation.
	CO3:Correlate the development of patent Rights across different nations namely UK, US and India.
	CO4:Illustrate legislative framework of patent laws in India.
	CO5:Show as to how to file an application of patents and how it is registered.
	CO1: understand the basic theories and functioning of the very concept of Affirmative Action and its origin.
	CO2: examine the relevance and relation of Affirmative Action with Discriminative Justice provided under Indian Constitution.
BBL903	

	CO3: evaluate the notion and nuances of Policies and its effect on Affirmative Action and Discriminative Justice.
	CO1: Demonstrate the basic concepts of Insurance Law.
	CO2: Relate with the Insurance Law applicable in India.
	CO3: Show the fundamental policy choices inculcated in the Insurance Legislations.
	CO4: Formulate solution to the current issues involving law of Insurance.
	CO5: Appraise different types of Insurances.
	CO1: Demonstrate the theoretical explanations of the causes, dynamics, and consequences of juvenile delinquency
	CO2: Analyze the issues of law enforcement related to juvenile delinquency
	CO3: Evaluate the issues of juvenile delinquency in the context of Juvenile Justice act 2015
	CO4: Develop the skills to deal with the juvenile court system and its handling of cases, as well as other methods of treatment of children and adolescents
	CO1: Illustrate the foundation of the Human Rights and also its evolution over a period of time.
	CO2: Demonstrate an understanding of Human Rights at International Regime.
	CO3: Correlate the legislations drafted in relation to International Human Rights.
	CO4: Deduce the importance and significance of International Human Rights.

BBL904	CO5:Devise the functioning of the agencies in implementing Human Rights.
	CO6:Solve the theoretical and practical challenges in order to realize human rights.
	CO1:Demonstrate the procedure as to how to draft a patent application
	CO2:Devise the nature and forms of Patents specification.
	CO3:Illustrate the significance and functions of patent claims.
	CO4:Relate with the nuances involved in Patent Drafting and Specification Writing
	CO1: understand the meaning and significance of various human rights in the contemporary era and the mechanisms developed at the international and national level for protection and promotion of such rights..
	CO2: instruction in Constitutional Law and International Law in the context of Human Rights Practice.
	CO3: focus their attention on the underlying values of human rights and to explore various international and national legal frameworks which embody human rights and promote them in practice..
	CO4: evaluate the contributions of Western and Indian political thinkers in the context of Human Right Practices.
	CO1:Relate with the current issues involving Corporate Governance.
	CO2:Connect the principle of Corporate Social Responsibility and its significance in today's scenario.
	CO3:Appraise the principles governing Corporate Governance.
	CO4:Show the detailed procedure of winding up.
	CO5:Articulate the legal framework of corporate governance in India.

	CO1: Discover the various laws related to women;
	CO2: Devise the aspects of international laws related to women.
	CO3: Evaluate the constitutional and penal provisions as related to the protection of the women
	CO4: Develop knowledge of major legislations and their resulting impact;
	CO1: Illustrate the Labour Legislations and its application in protecting the rights of laborers.
	CO2: Demonstrate the role and importance of various labor welfare legislations.
	CO3: Develop an understanding in relation to International Labor Organization.
	CO4: Relate to the current issues in relation to Labor Laws.
	CO5: Correlate the Wages and Social Security Legislations.
	CO1: Demonstrate the basic concepts of IP Management.
	CO2: Illustrate the regulatory framework of IP Management.
	CO3: Develop coherence with IP Auditing.
	CO4: Deduce the role of Commercialization for IPs.
	CO5: Correlate the significance of IP management in current trends.
BBL905	CO1: Involve with the modalities and techniques of resolution of conflict which is a necessary component in the endeavours of developing expertise in juridical exercise.
	CO2: Analyze the traditional justice delivery system through adjudication by along with an alternative mode of dispute resolution in the common law countries.
	CO3: Evaluate the proper deliverance of justice through Arbitration and conciliation process in India

	CO4: Develop the approach innovatively to reach the needy ones through proper mechanism to provide them legal aid.
BBL1001	CO1: Understand the third tier of Administration i.e., Local Self Government including Rural and Urban Administration.
	CO2: Examine the glorious historical background of local administration and its advent and disappearance due to change in political structure and social dynamics.
	CO3: Evaluate the Constitutional development and socio-political implications of local self-government.
	CO1: Relate with various procedural aspects of mergers and acquisitions of companies.
	CO2: Correlate with the legal framework involving mergers and acquisitions.
	CO3: Formulate the solution to the case problem involving comprising of mergers and acquisitions.
	CO4: Illustrate the procedural aspect of M & A's.
	CO5: Appraise the current trends of M & A's.
	CO1: Use knowledge of major incidents of cybercrime and their resulting impact
	CO2: Analyze and discuss national cyber law and its enforcement efforts;
	CO3: Critically evaluate the impact of cybercrime on Data Protection;
	CO4: Discuss the facets of Freedom of Speech and Expression in the Cyberspace domain.
	CO1: Demonstrate the purpose of UNCITRAL Model Code.

	CO2:Relate to the current trends involving UNCTRAL Model Code.
	CO3:Develop an understanding of Arbitration Award, its recognition and enforcement.
	CO4:Appraise the various legislations involving UNCITRAL Model Code.
	CO5:Illustrate the applicability of UNCITRAL Model Code.
	CO1: Demonstrate the growth and significance of copyright in India.
	CO2:Illustrate the regulatory framework for copyright for registration.
	CO3: Appraise the rights which are conferred on the owner by virtue of copyright.
	CO4:Develop coherence in assignment and licensing of copyrights.
	CO5:Relate to the current trends in relation to copyright laws.
BBL1002	CO1: Understand the basic need and necessity of Right to Information underlying in our constitutional machinery.
	CO2: Receive instruction in Constitutional Law and statutory provisions in the context of Right to Information Practice and Procedure.
	CO3: Examine, the mechanism provided for the achievement of the purpose of Right to Information and its implementation in rural and urban; central and state and within and outside of state machinery.
	CO1:Illustrate the role of Competition Commission of India in regulating competition law.
	CO2:Articulate the regulatory framework of Competition Law.

	CO3:Deduce the importance of Competition Law in regulating the market forces.
	CO4:Relate with the various legislations dealing with competition law.
	CO5:Appraise the legislative framework of Competition Law in India.
	CO1: Demonstrate the significance of Probation & Parole
	CO2: Analyze the prison reform system in india- post and pre independence
	CO3: Evaluate the regulatory framework of the probation of offenders act
	CO4: Develop knowledge of various laws related to Probation & Parole along with the prescribed formalities
	CO1:Demonstrate the significance and importance of Trademarks and Designs.
	CO2:Illustrate the underlying principle behind trademarks and Designs
	CO3:Relate with the legislative framework comprising of trademarks and Designs in India.
	CO4:Develop application based knowledge towards the law governing trademarks and designs in the current issues.
	CO1:Solve the jurisdictional issues relating to the Sea.
	CO2:Show the significance of Maritime Law as a separate branch of law.
	CO3:Illustrate various International Legislations incorporating principles of Maritime Law.
	CO4:Relate with the current international issues involving Maritime Laws.
BBL1003	CO1: Understand the basic concepts, theories and rights related to Freedom of speech

and expression guaranteed by the State.
CO2: Examine the regulatory framework involved in dealing with carriage of goods.
CO3: Examine the persistent media laws, freedom of media, regulation and restriction of media in India and its comparative analysis with the world.
CO1: Demonstrate an understanding regarding various laws governing different mode of carriage of goods.
CO2: Deduce the regulatory framework involved in dealing with carriage of goods.
CO3: Relate with these legislations in the current issues involving carriage of goods.
CO4: Use the principles governing carriage laws.
CO1: Apply literacy in the key concepts and theoretical approaches that characterize core sociological and criminological traditions;
CO2: Connect a basic ability to apply sociological and criminological ideas in the analysis of everyday social life;
CO3: Evaluate the various theories of the punishment with correctional methods in current scenario
CO4: Design the appropriate methodological approaches to different types of sociological and criminological question;
CO1: Demonstrate the principles of Humanitarian Law.
CO2: Illustrate the Refugee problem in Asia and Africa.
CO3: Appraise the enforcement machinery involved in humanitarian law.
CO4: Relate with the current issues of refugees by application of Humanitarian and Refugee Laws.
CO5: Articulate various regulatory and legislative framework involving Refugee issues.
CO1: Demonstrate the concept of IPR Litigation.

	CO2:Illustrate the significance and importance of IP in Litigation
	CO3:Correlate various laws involved in IP Litigation.
	CO4:Appraise the current situation of IP Litigation in India.
BBL1004	CO1:understand the policy dimension of Citizenship and issues related with Emigration laws
	CO2:receive instruction to balance the academic aspect of the Course matter with the help of assigned readings of cases,statues,regulations and problems
	CO3: examine the basic notions and nuances of Citizenship, Domicile and Emigration policies of Government of India, their development over passage of time and its impact on Policies made for Citizens and Immigrants.
	CO1: Relate with the provisions of the Insolvency and Bankruptcy Code, 2016.
	CO2:Appraise the current trends involving the principles of Insolvency and Bankruptcy.
	CO3:Illustrate the regulatory framework of Insolvency.
	CO4:Demonstrate the regulatory framework of Bankruptcy in India.
	CO5:Articulate various legislations involving insolvency and bankruptcy.
	CO1: Demonstrate familiarity with the various definitions of white-collar crime.
	CO2: Analyze the rationales or explanation for the committing of white-collar crimes.
	CO3: Criticize the white collar crime through course discussions.

	CO4: Develop an understanding of other tenets that may be used to include white-collar crimes such as organizational or corporate crimes and to develop a reasonable amount of knowledge about the various types of white-collar crime.
	CO1: Demonstrate the concepts of International Criminal Law.
	CO2: Relate with the International Criminal Justice System.

	CO4: Solve the issues of jurisdiction involved in International Criminal Law.
	CO5: Develop an understanding in regards to crimes against humanity.
	CO1: Demonstrate the importance and need for protecting biodiversity.
	CO2: Correlate various legislations involving biodiversity protection.
	CO3: Illustrate the policies which govern biodiversity protection in India.
	CO4: Appraise the functions of implementing agencies for protecting biodiversity.
	CO5: Use the biodiversity law to the current trends involving issues of biodiversity.

LLM

PROGRAM OUTCOMES	
PO 1	To impart high quality, comprehensive and inter-disciplinary legal education, research and practical analysis to enable the students to apply the knowledge of law
PO 2	To Demonstrate legal research skills and apply innovative research tools
PO 3	To achieve, academic excellence, discipline and high sense of ethical and moral values
PO 4	Synthesize the professional, legal solutions in context of the sustainable development
PO 5	To work towards finding solutions to the problems by application of laws and regulation

Paper Code	CO's
LLM101	CO1: Critically Analyzes the judicial creativity in the process of social ordering.
	CO2: Recognize the role of the judges as policy makers.
	CO3.:Under the role of Judge in Democracy.
	CO4: Understand the intricacies of judicial creativity and judicial lawmaking. Compare and Analysis the different methods of Judicial and Case management systems.
LLM102	CO1:To meet the ever-growing demands of society and be thoroughly equipped to cater to the complexities of the different situations.
	CO2: To impart appropriate professional training to produce efficient lawyers.
	CO3: To inculcate law students with the operative legal rules both substantive and procedural.
	CO4:To equip the student with the necessary theoretical and practical skills to deal with the diverse and expanding world of legal practice.

LLMB103	CO1:Refine their understanding of shareholder rights, audit committee, investor funds, its composition and responsibilities.
	CO2:Adopt and implement best practices for effective corporate management. Adhere to sound principles of corporate governance.
	CO3:Critically evaluate and Analyzes the significance and importance of corporate governance.
LLMC103	CO1:Demonstrate knowledge of the major areas of the criminal justice system: policing, courts, corrections and the history of those components.
	CO2: Trace the relationship between the criminal justice complex and the socioeconomic elements of Indian society.
	CO3:Trace the various types of crime and criminals, the numerous theories of crime causation, and the relationship between crime and its various correlates.
	CO4:Trace the various social movements over the years, and how they have impacted the criminal justice system.
	CO5:Analyze scholarly research, governmental crime statistics, and public policy.
LLMB104	CO1: Have a comprehensive understanding of conceptual and legal parameters including the judicial interpretation of banking law.
	CO2: Examine the current and potential future contours of the International Banking System with that of the banking system in India.
	CO3: Articulate and Analyzes the roles of national governments and regulators in the regulation of banking and financial institutions and the economy.
	CO4:Analyze the New emerging dimensions in t h e banking system including e-commerce and e-banking.
LLMC104	CO1:Able to discuss the history of drug abuse and subsequent policies in India.
	CO2: Able to discuss the history of drug abuse and subsequent policies in India.
	CO3: Able to discuss the history of drug abuse and subsequent policies in India.

	CO4: Find and summarize relevant information about current events bearing on policy debates over drugs
	CO5: Synthesize information from multiple sources and points of view into a coherent policy perspective
LLMB105	Know about the interrelation between the jurisdiction aspects of regulatory authorities of competition law and Intellectual property.
	CO2: Adopt an appropriate mechanism for effective resolution of the dispute.
	CO3: Implement best practices for the protection of human rights within the corporate world.
	CO4: Adhere to sound principles of human rights preservation within the corporate sector.
	CO5: Critically evaluate and Analyzes the significance and importance of human rights in the life of consumers of the corporate world.
LLMC105	CO1: The Course will act as a springboard for future research and also be useful for new Developing Countries which may have to encounter a similar economic crime phenomenon.
	CO2: Will explore the problem of domestic legislation when the – circumstances and proceedings of the crime take place outside the territorial jurisdiction of India.
	CO3: Aims to analyze the fact that, unlike other crimes, economic crimes may continue to increase in the coming years, adversely affecting economic, national and international security situations.
	CO4: Interpret and appropriately apply the laws and procedures associated with identifying, acquiring, examining and presenting digital evidence
	CO5: Students will be introduced to the current research in economic crimes. This will encourage them to define research problems and develop effective solutions

LLM201	CO1:1. The profound influence of the Indian Constitution through Preamble.
	CO2:2. The combination of Rigidity and Flexibility.
	CO3:3. People as the source of Authority.
	CO4:4. The impact of the Indian Constitution on Judicial Independence.
LLM202	CO1: To Understand the importance of Law as an instrument of Social Change.
	CO2: To Understand that law is a product of traditions and culture.
	CO3: To Understand the common law system and institutions in India.
	CO4: To Understand the development of law and legal institutions in India.
LLMB203	CO1: An economic theory of competition law, the need for protecting competition in the market and the difference between competition law and policy
	CO2: Practical aspects and enforcement mechanisms of competition law in various jurisdictions and its relevance in the Indian context.
	CO3: Know about the interrelation between the jurisdiction aspects of regulatory authorities of competition law and Intellectual property.
	CO4:To engage in various advocacy programs of t h e Competition Commission with a broader outlook and apply it practically.
LLMC203	CO1: Apply the main theoretical approaches to the study of organized crime and its evolution across time.
	CO2: Critically evaluate the contributions of different schools of thought to our understanding of organized crime.
	CO3: Identify the main characteristics, activities, act others, and forms of organized crime.

	CO4: Critically Analyzes organized crime policy at the local and international levels.
	CO5: Understand and critically assess the macro and micro causes of transnational crime
LLMB204	CO1: To identify and Analyzes the complex drivers of dispute in the community
	CO2:2. To understand the theoretical models of dispute resolution and capacity to Analyzes their operation in both legal and social contexts
	CO3:3. To develop basic mediation skills, including communication, analysis and issue identification to engage in simple dispute resolution systems design
	CO4: To understand the ethical and legal ethical issues surrounding dispute resolution models and practice
LLMC204	CO1: Demonstrate the ability to properly document a computer forensics investigation/analysis and create reports.
	CO2: Identify standards of professionalism and ethical behavior for information security and digital forensics professional and apply these standards successfully to ethical dilemmas.
	CO3: Interpret and appropriately apply the laws and procedures associated with identifying, acquiring, examining and presenting digital evidence
	CO4: Work collaboratively with clients, management, and/or law enforcement to advance digital investigations or protect the security of digital resources
	CO5: Students will be introduced to the current research in computer forensics. This will encourage them to define research problems and develop effective solutions
LLM205	CO1: It helps a student to find a solution to a pressing practical problem at hand using Applied Legal Research methodology.

	CO2:It involves doing full-fledged field research work on a specific area of law followed by gathering information on all technical legal rules and principles applied and forming an opinion on the prospects of the solution to the problems.
LLMB301	CO1:Understand the International and National instruments relating to Intellectual Property Rights
	CO2: Know the impact of Intellectual Property in Business, Agriculture, Human rights law and Competition Law
	CO3: Analyze the impact of new technologies in balancing the objective behind the Intellectual Property system
	CO4:Understand the importance of strong Intellectual Property rights in facilitating the economic growth and industrialization
	CO5:Realize that IPR and Competition law concerning Human rights promotes consumer welfare and protects both public and private interest.
LLMC301	CO1: Victim empowerment through the use of legislation, the media, public discourse, and private enterprise
	CO2: Examine correlates of victimization and predictors of future victimization.
	CO3:Discuss victim participation in the criminal justice system decision–making, victim services and restitution, and restorative justice initiatives.
	CO4:Better interpret the changing world of crime, become a more informed citizen, and be better prepared to enter the world of professional criminology and criminal justice.
	CO5: Develop a global perspective of victimization.
LLMB302	CO1: To achieve a complete grasp and understanding of t h e Legal Framework of International Finance and gain mastery over the Course
	CO2: To gain insight and also to Analyzes on various Financial Institutions.

	CO3: To accumulate a discernment on all the essential legal aspects of international finance along with their nature and complexities.
	CO4: To apply the international finance laws to the current business environment.
LLMC302	CO1: Develop an understanding of the interrelationship between crime and punishment from an international and comparative perspective.
	CO2: To compare and contrast criminal justice systems in terms of the major legal traditions used across the world.
	CO3: Demonstrate knowledge of critical issues confronting global criminal justice systems as well as the international criminal justice system.
	CO4: To identify mechanisms to deal with issues of human rights violate others and perpetrators of international crimes.
	CO5: To compare similarities and differences that occur in court structures and procedures in multiple countries as well as the international community.
LLMB303	CO1: Appreciate and criticize the statutory provisions applying to cyber security in the Corporate World
	CO2: Analysis's security issues in networks and computer systems to secure corporate infrastructure.
	CO3: Evaluate the human role in security systems with an emphasis on ethics and social engineering vulnerabilities.
	CO4: Interpret and investigate security incidents in the corporate sector.
LLMC303	CO1: Think critically about important issues in criminal justice research methodology
	CO2: Problem-solving solutions to methodological problems
	CO3: Enhance communication skills and READING: / research/writing acumen

	CO4: A review of published research to determine specific strengths and weaknesses of the research methodology as well as understand basic concepts of social research, to understand the influence of criminal justice research on policy development.
LLMB304	CO1: A comprehensive understanding of the existing law on consumer protection in India.
	CO2: Conversant with major international instruments on consumer protection
	CO3: Aware of the basic procedures for handling consumer disputes.
	CO4: Students will be able to appreciate the emerging questions and policy issues in consumer law for future research.
LLMC304	CO1: To equip with better decision-making skills that will help to elevate their practice and observe fulfilling victims' outcomes that also abide by the moral principles associated with the practice.
	CO2: Gain in-depth knowledge about medical law, ethics, and duties & responsibilities.
	CO3: Understanding of medico-legal issues not just in the legal context, but with a sound grounding in ethics, social and theoretical contexts.
	CO4: The learners will understand the repercussions of unethical acts and misconduct in the practice.
	CO5: Develop skills and attitudes that can direct their conduct during their practicing career while also being sensitive towards the ethical issues that they may face on a day-to-day basis.
LLMB401	CO1: To acquire comprehensive knowledge about the legal and regulatory environment around insurance
	CO2: To gain an understanding of the role of the insurance regulator, as a supervisory and developing body
	CO3: To acknowledge the need for regulation and regulatory norms for corporate governance, policy holder's protection and data protection in the field of insurance
	CO4: To acquire insight on the regulations, circulars, orders issued by the insurance regulatory body from time to time and apply to the current business environment

	CO5: To accumulate a discernment on International Trends in Insurance Regulations
LLMC401	CO1: Develop skills in forensic identification, forensic problem solving either independently or as a team member.
	CO2: Keep abreast with all recent developments and emerging trends in Forensic science, Ethics and the law.
	CO3: Identify a variety of specific career fields related to forensic science and law enforcement and that an individual cannot be an expert in all areas.
	CO4: Outline protocols are used when a crime scene is being secured and evidence is being procured by law enforcement members.
LLMB402	CO1: To achieve a complete grasp and understanding of the Legal Framework of International business and gain mastery over the Course.
	CO2: To understand the legal framework of private international business transactions
	CO3: To accumulate a thorough explanation on all the essential legal aspects of international business along with their nature and complexities
	CO4: To apply the international business laws to the current business environment
LLMC402	CO1: To differentiate between deviance and crime and categorize the different types of deviant behavior
	CO2: To determine why certain behaviors are defined as deviant while others are not.
	CO3: To understand the legal control mechanism in India to combat elite class deviance and crime.
	CO4: The course will describe the characteristics of disciplinary social control and their relationship to normalizing societies.
	CO5: Trial, punishment and prevention of elite class criminality will be critically examined towards policy reform perspective.
LLM403	CO1: This course gives the right input for the postgraduate student of law to acquire the right amount of training to enhance the required skills to face the challenges in the court of law and Industry.
	CO2: In this course, the student will undergo two types of training for skill enhancement. a) The first type is where the PG student will undergo training in teaching law to the Under Graduate programme. b) The Second one will be fieldwork which includes Fieldwork that is Course oriented, where the student will visit Court, Forum, Tribunal, Law chamber, Academic Institutions, Industry Etc. c) Based on the field visit the Third one, i.e., Viva-voce will be conducted to test the knowledge acquired through the field visits. Each student will earn 6 credits in this course.
